

Summer Assignment for Read 180 and System 44

Summer enrichment assignments are assigned by those of us who teach the English and Reading courses using Read 180 and System 44 programs.

Students are required to read a novel of their choice over the summer. The assignment is to prevent summer slide, maintain their reading comprehension lexiles, and reading skills. Students may borrow books from the following teachers: Coleen Acord, Joseph Breitingger, Jo Carney, and Linda Consolo to read over the summer or they can check them out from their library. Students are not required to purchase the books. Students should read a book based on their interest and reading lexile. They should not select a book 100 points over their current lexile.

To find the lexile numbers of books, parents and students may use the following websites:

Lexile.com: <https://fab.lexile.com/>

Scholastic Book Wizard: <https://www.scholastic.com/teachers/bookwizard/>
