Don’t Let Pigeon Drive the Bus Snack

**Ingredients:**
- Graham crackers
- Cream cheese
- Food coloring (yellow & blue)
- Mini Oreo cookies
- Mini Nilla wafers cookies
- Golden Graham cereal (any square cereal will work)
- Mini chocolate chips
- Starburst candy (yellow)

**Directions:**

In two separate bowls, mix in the yellow food coloring with the cream cheese for the bus and blue food coloring for the pigeon’s head. How much cream cheese you use will depend on how many kids you are making these for, but you will definitely need more for the bus than you need for the pigeon. Spread a thin layer of yellow cream cheese on the graham cracker.

Next take some Golden Graham cereal and place them on the graham cracker to make the windows for the bus.

Next, split a mini Oreo cookie and place them onto the graham cracker for the wheels.

For the pigeon’s head, spread blue cream cheese on the flat side of the mini Nilla wafers and place onto the graham cracker.

For the eye, take a mini chocolate chip and dab a little white cream cheese on the pointed part and place it on the Nilla wafer. Then take a yellow Starburst and soften it in the microwave for a few seconds (in mine it was about 10 seconds). Tear a little piece off and mold it into a beak for the pigeon and place it on the Nilla wafer.
