SCOLIOSIS SCREENING EXEMPTION FORM  
GRADES 5-12

Dear Parents/Guardians,

1. There will be an annual screening program for scoliosis for all students in grades 5 -12.
2. Scoliosis is defined as a condition of the spine in which the spine may curve to the left or right. It is most commonly found during the time of rapid growth and may progress if not treated. The purpose of the screening program is to recognize scoliosis in its earliest stages.
3. A pupil may be exempt from this examination if requested by the parent/guardian. Parents may select these options during the online registration process, or while completing the summer Back to School Update process.
4. You may be present for the scoliosis screening if you desire. Please call the school nurse to schedule this appointment. Whether or not you are present you will be informed of any suspected problem.
