

## ABOUT US

Northeast Technology Center (NTC) is part of the Oklahoma CareerTech System - formerly the Vo-Tech system. NTC serves customers in eight of Oklahoma's most northeastern counties, and our customers range from high school students and adults to small business owners and large industrial corporations. Our educators and industry experts provide career training for numerous trades and industries, and in our 40 year history, we have served hundreds of thousands of Oklahoma citizens.

## OUR VISION

NTC will provide resources and programs designed to support students' diverse academic, social, and emotional needs. Effective and dedicated professional educators, administrators and support staff will challenge students with a rigorous curriculum that considers individual learning styles. We will be an institution of excellence that exemplifies best practices in instruction, student services, facilities, safety and security. Northeast Technology Center completers will be prepared to assume leadership roles as students in colleges and universities, as professionals in their chosen careers and as citizens in this rapidly changing world.

## STRATEGIC PLANNING PROCESS

The Strategic Plan for NTC includes long range goals and objectives that were developed from input received of NTC personnel, educational partners, service area industries and community patrons. The plan was published for public review and comments in April, 2015 and formalized during the May 11, 2015 NTC Board Meeting. To review the full extent of NTC's Strategic Plan, please visit our website at [www.netech.edu](http://www.netech.edu).

## MISSION

Preparing Individuals for Successful Careers

## GOALS

Our goals for 2016-2021 include:

- Goal 1: Improve Student Success with High Quality Instruction, Curriculum and Methods
- Goal 2: Promote Growth and Sustainability
- Goal 3: Instill a Culture of Continued Professional Growth and Development
- Goal 4: Develop Efficient Internal and External Communication Processes
- Goal 5: Improve Community, Educational and Industry Partnerships

## CORE BELIEFS

We believe in...

- preparing students for the next level of education
- strong leadership and highly qualified personnel.
- the sharing of knowledge, new principles, and continuous growth.
- communication to foster trust and interdependence.
- a learning community that promotes respect.
- the fact that students can achieve high standards.
- modeling democracy.
- quality facilities.
- a culture of continuous improvement.
- enabling our students to choose from challenging programs.

*"There are two educations. One should teach us how to make a living and the other how to live." - John Adams*
