Questions for Science and Social Studies Georgia Milestones Review
Use the provided Study Guides for review and to answer the questions

Date- April 14th Science

1. What is the definition of a constructive process? Give two examples.

2. Earthquakes occur at these locations where two plates moving past each other.

3. What is the name of the islands that protect the mainland from the action of waves?

4. What is the movement of sediments and soil by wind, water, ice or gravity?

5. A mountain would be formed by which type of plate movement.

Date- April 15th Social studies

1. These laws were put into place to keep African Americans and whites separate.

2. Former slaves that did not want to work in the fields became known as these “Cowboys”.

3. This war was fought to control of the cash crop of sugar and established the U.S. as a power.

4. This President had a motto of “Walk softly and carry a big Stick”.

5. This Amendment abolished slavery and made slavery illegal.

Date- April 16th Science

1. This is known as the measure of extra negative or positive particles an object has.

2. Patterns called lines of force show this about a magnet.

3. A material that electric current can pass through easily is known as this.

4. What is the difference between a complete and incomplete circuit?

5. What are the names of the two poles a magnet has?
Date- April 17th Social Studies

1. This manmade structure was constructed so Navy ships could move from the Atlantic to the Pacific faster.

2. What are the two main reasons for immigration to the United States?

3. What is the name of the Ocean liner that was sunk by Germany and changed U.S. thinking about WWI?

4. What is the name of the world leader that was assassinated and started World War I?

5. Women working to help the war effort won the right to vote when this amendment passed.

Date- April 20th Social Studies

1. What is the name of the inventor that developed over 300 uses for the peanut, sweet potato, and soybean?

2. The period of prosperity after WWI was known by this name.

3. A great trumpet player this jazz musician was a key part of the Jazz Age.

4. Name the pilot that flew the “Spirit of St. Lewis” solo across the Atlantic Ocean.

5. Name the African American writer that is credited which being a key figure of the Harlem Renaissance.

Date- April 21st Science

1. What is the name given to two or more types of matter that are combined physically?

2. Give three examples of chemical changes.

3. What is the definition of matter?

4. Particles that are far enough apart so they can flow past each other is an example of this kind of matter.

5. What is a physical property? Give two examples.

Date- April 22nd Social Studies

1. What is the name given to the stock market crash October 29th, 1929?
2. People who did not have jobs would go to Church run places to eat during the Depression.

3. The WPA, TVA, and CCC were part of this program started by Franklin D. Roosevelt.

4. This was the name given to groups of shacks built by people who had lost their homes during the Depression.

5. Name of the writer from Georgia that wrote “Gone with the Wind”

Date- April 23rd Science

1. What is the difference between a physical and chemical change?

2. Water changing from a liquid to a gas is an example of what kind of change.

3. Metal rusting is an example of what type of change.

4. What is one example of a use for an electromagnet?

5. What is the basic unit of structure in a living thing?

Date- April 24th Social Studies

1. What is the name of the African American athlete that won 4 gold medals in the 1936 Olympics?

2. What is the name of the German leader that started World War II by invading Poland?

3. Japan attacked this U.S. Naval base and the U.S. entered WWII.

4. What was the name of the African American pilots that fought during WWII?

5. This was the name of the beach area in France where the D-Day invasion took place.

Date- April 27th Social Studies

1. President Harry Truman ordered the bombing by atomic bombs these two Japanese cities.

2. This organization of nations was formed to help maintain peace and stop world wars.

3. The name of the poster program that encouraged women to enter the workforce during WWII.

4. The leader of Great Britain during WWII.
5. The name given to the day when the Germany surrendered after its defeat and the capture of Berlin.

Date- April 28th Science

1. A type of microorganism that is shaped like rods, spirals, or balls.

2. A group of tissues that work together to carry out a certain function is called a what.

3. The brain of a cell is known by what name?

4. These two organelles are only found in plant cells.

5. This organelle is the powerplant of a cell and are found in great numbers in animal muscle tissue.

Date- April 29th Social Studies

1. This military operation brought food and supplies to Berlin during the Berlin Blockade.

2. This structure was built to keep the people of East Berlin from escaping to West Berlin.

3. The name of the time period when many people were accused of being Communists and spies?

4. The name given by Winston Churchill to the boundary that separated the free and communist countries.

5. President John F. Kennedy used a naval blockade to stop what cold war event.

Date- April 30th Science

1. How do ferns reproduce?

2. This tissue supports a plant and allows water to move through the plant.

3. A pine tree is an example of what type of plant that has “naked” seeds.

4. What is the smallest group for classifying living things?

5. What role do muscles play in the circulatory system in animals?
Date- May 1st Social Studies

1. Who was the leader of the Soviet Union during the Cuban Missile Crisis?

2. Name the two wars the U.S. fought to try to stop the spread of Communism during the Cold War.

3. What is the name of the first satellite launched by the Soviet Union?

4. What is the name of the first American to land on the moon?

5. In 1991, communism collapsed, and this country broke apart.

Date- May 4th Science

1. Scientists use this term when they are placing organisms into groups based on how they are alike.

2. This is the largest group used when classifying living things.

3. Moss is an example of this type of plant that does not grow very tall.

4. What is the main difference between members of the plant and animal kingdoms?

5. A flowering plant that has seeds that is protected by fruit is called by this name.

Date- May 5th Social Studies

1. What is the name of the Supreme Court case that ended segregation in schools?

2. This is the name of the attorney that won the case and became a Supreme Court justice later in life.

3. What is the name of the President of the United States during the Cuban Missile Crisis?

4. This lady refused to give up her seat to a white man on a Montgomery, Alabama bus.

5. What is the name of the famous civil rights leader that gave the “I have a Dream Speech”?

Date- May 6th Science

1. Name the five different types of vertebrates.

2. Which vertebrates are cold blooded?
3. Which vertebrates are warm blooded?

4. Give me three examples of mammals.

5. Give me an example of a reptile.

Date- May 7th Social Studies

1. This act signed into law by President Johnson stopped discrimination based on race, national origin, and religion.

2. Name the civil rights leader that started the National Farmworkers Association.

3. Name the brother of President Kennedy that was killed while running for President.

4. This act made literacy tests for voting illegal.

5. This invention became the main source for news and entertainment for most Americans in the 1960s.

Date- May 8th Science

1. What is the name of animals not born with backbones?

2. Which group has more members vertebrates or invertebrates?

3. Give me three examples of inherited traits.

4. Another name for an inherited behavior is called this.

5. Being able to ride a bike is an example of an inherited trait or a learned behavior?

Date- May 11th Social Studies

1. What is the name of the U.S. President that called the Soviet Union an “evil empire”?

2. What is the name of the soviet leader that was forced to reduce his nuclear weapon supplies?

3. What is the date of the terrorist attacks on the World Trade Center and the Pentagon?

4. Who was the leader of the terrorist group that did the attacks?

5. Most of the modern economy is based on the use of these two technological advances.
Date- May 12th Mixed bag. Not all answers will be found in the study guides (use your brain)

1. What is the name of the famous Black Cowboy of Texas that we learned about?

2. Who invented the telephone?

3. What was the name of the famous baseball player we learned about from the 1920s and 30s?

4. Chopping up a log into smaller pieces is an example of what type of change? Physical or Chemical

5. Baking a cake is an example of what type of change? Physical or Chemical

Date- May 13th Mixed bag

1. Bread is made by using this microorganism to help the dough rise.

2. What is the name of the organelle that is the storage unit for the cell? Vacuole or Ribosome

3. What is the name of the process that a plant uses to convert sunlight into energy?

4. What is the name of the battle on a Japanese island where over 20,000 American soldiers were killed?

5. What is name of the famous cattle trail that was used to move cattle from Texas to Kansas?

Date- May 14th Mixed bag

1. What is the name of the brothers that invented and flew the first airplane?

2. What is the name of the famous telegram that Germany sent to try to get Mexico to attack the U.S.?

3. What is the name of the American inventor that used the assembly line to speed up car production?

4. What is the name of the landform process that makes Dunes and Deltas?

5. What is the term used to describe the breaking down of rock at or near the surface of the Earth?

Date-May 15th Mixed bag

1. These events move land because of gravity.

2. Circle the Allied powers during World War II.
   Great Britain Germany Italy United States Soviet Union France Japan
