

Clean Up

Clean up when the food is gone which is about half way through the varsity game. Mr Ragatz or Mr Shanks can open the kitchen for you.

1. Put the 3 pizza ovens, extension cords, and microwave on the silver metal rolling cart. Lay the clear plastic over it for storage. Roll this cart to the Kitchen. It is stored in the back room (Go through the kitchen to the door on the left back by the freezer which takes you to the storage/loading dock room.) Leave the cart back there. (FYI: that door will lock behind you if it shuts.)
2. Take all the dirty dishes to the kitchen and lay them on the stainless steel rack by the dishwasher on your left when you first enter the kitchen. Be sure to rinse the meat pan and utensils.
3. The Nacho cheese pump needs to be rinsed. Pump water through the pump until it has clear water coming out. Leave all the parts in the kitchen by the dishwasher.
4. The kitchen staff will wash it all in the morning. Rinse clean all utensils and the nacho cheese machine by rinsing all the parts and pumping hot water through it.
5. Leave the sanitizer bucket and rags in the kitchen as well.
6. If the pizza warmer is used, please return it to the closet in the concession stand. It sits on the top shelf behind the door.
7. Put all supplies and tubs back into the concession stand closet. The post prom items are stored on the shelves on the wall behind the door.
8. Leftover pickles, mustard, barbeque sauce or ketchup is stored in the refrigerator in the closet by all the supplies.
9. Roll the black cart with the unused pretzels and cookies back to the kitchen freezer.
10. Put the metal table back in the Blackhawk gym along the wall by the folded bleachers.
11. Disinfect the tables in Mr. Diekmann's room. Put the dirty rags in the kitchen by all the dirty dishes. Put the sanitation solution and bucket in the closet by all the supplies.
12. Give the money bag to Mr. Ragatz or Mr. Shanks. Be sure that the Post Prom Money Bag record sheet is in that money bag for Janet.

We are no longer saving the leftover cheese - so if the families would like to take it home, you are more than welcome to otherwise just throw it away! It does not matter how much is left. It is too hard for us to monitor the cooling down process so for food safety reasons this is our only option.

Thank you for serving!!!
