

3rd Grade General Lottery Results 2019-2020

How to read the lottery results:

The following list is the results of the lottery for 3rd Grade for the 2019-2020 school year in its entirety. Every application that was included in the lottery is on this list.

Confirmation Numbers that are color coded gray indicate a "catchment" application. Confirmation numbers that are color coded white indicate a "non-catchment" application. Applications of any other color indicate an out of city application.

Seeing your number on this list does not indicate that you are being offered the opportunity to enroll. At the time of the lottery we have no seats to offer in 3rd Grade.

As seats become available for this grade we will offer first to any siblings who applied and then offer to the general waiting list offering from the top of the list to the bottom in the order it was drawn in the lottery based on our catchment requirement.
