

February 2019 Parent Newsletter

The High School for Health Professions and Human Services

Principal, Robert Gentile

Mission Statement of the HPHS Equity Team

The Health Professions and Human Services Equity Team will work with educators, students, and parents to increase awareness of implicit and explicit bias as well as other barriers to social equality within our school. We will apply the lens of equity and justice in matters of academic, social and emotional well-being by creating systems that expand opportunity and access to all. We will campaign for the school to engage in practices, provide resources and implement policies that create equitable conditions across race, gender, age, religion, and identity while respecting each individual within our community. With courage and self-reflection, we will begin to dismantle the barriers our students face within our school so they develop to their fullest potential, while narrowing the gaps between the highest and lowest performing students.
