Who will Win the Blizzard Bash?

Dear Parents/Guardians,

This semester Eagleville students are participating in the iReady Math competition. iReady Math is an interactive online learning environment designed to assess students and provide individualized instruction based on a student's learning path. As students independently complete lessons and activities, their learning path will be adjusted to meet their specific needs.

Students have been assigned to one of the following multi-grade level teams:				
Snargg	Victor	Plory	Hershel	Yoop

Team Goal
Be the first team to build a complete snowman and win the Blizzard Bash! Teams will earn parts of a snowman by passing iReady lessons. **50 passed lessons = 1 snowman section or accessory**

We will be tracking the number of lessons **PASSED** for each team until the first snowman is completed. Snowmen will be displayed near the Eagles of the Month wall and will be updated each Monday.

Here's how the incentive program works:

Explore the Artic	Get Snowed in at Home	Join the Morning Snow Patrol
Work on iReady each day. iReady usage recommendations are for each student to get 45 minutes a week. Students will have time during their math class and computer lab rotation to work on this at school.	iReady can be accessed at home via the internet through the student's Clever account. To see how to get onto Clever at home please see the back on this sheet.	Get extra iReady time by visiting the elementary computer lab on Tuesday and Thursday mornings. On these days, the lab will be open from 7:00-7:30 am. **Students should eat breakfast prior to participating in the Snow Patrol.**

Questions? Contact your child's teacher or

Thank you for your ongoing support!

To Use IREADY at Home:

You may use any desktop or laptop computer to access Clever from the Student Resources page of the school's website. (Browsers will need to up to date in order to run iReady)

*Visit www.eag.rcschools.net

*Under the Students tab select the Student Resources Page and click on Clever

*Student will login with their username and password (check with child's teacher for this information if your child doesn't know it.)

*Once logged in you will select the iReady icon from the menu.

Please Note-If you have more than one child trying to access iReady on the same computer, you will need to use different browsers for each child. (ex. Child 1 uses Google Chrome and Child 2 uses Microsoft Edge)

You may use iPads to access the program via the Clever Application.

*Download both the Clever app and the iReady app from the app store.

*Students will use their username and password to first login to the Clever app.

*Once logged into Clever, students should be able to click on the iReady icon which will open the iReady app.

Please Note-All apps and iPads will need to be on the most updated version. iReady is not accessible on phones, iPad mini, iPads Generation 1 or 2, or android tablets.

If you have any questions, please contact:
