

**Tennessee School Nutrition Program Local
Agriculture Products Compliance Plan
School Year 2014-2015**

Name of Local Education Agency Oneida Special School District
TCA49-6-2303-6 (A) (B) Local Agriculture Products

I/we certify to the Tennessee Commissioner of Education that the School Nutrition Program was implemented according to this plan for compliance and that we will make efforts to:

Make available to our school nutrition program local agriculture products, freshness and transportation cost to be considered.

Allow flexible bidding process to assist farmers to bid competitively on portions of a given bid, rather than the entire bid.

Require that all food provided for public school use meet or exceed food safety standards for commercial food operations.

In the event that current contracts for produce preclude the flexible bidding process, future bid will be structured to include flexible bidding procedures.

Each local school board shall submit this plan for compliance sixty (60) days prior to the beginning of the school year. In subsequent school year, each local school board shall submit modifications to this plan sixty (60) days prior to the beginning of the school year.
