Internet driven Reading Program with Mind Play®™

READING HELP CONTINUES!! An opportunity for children, even adults from this community to improve their reading skills while having fun. The reading program is individualized, student paced, with more time engagement for faster reading skills improvement. As children or adults use this Internet-driven program from Mind-Play®™, they will see progress as they engage 6 primary reading focuses (phonemic awareness, phonics, vocabulary, grammar for meaning, comprehension & fluency). "MindPlay Virtual Reading Coach® (MVRC) is an effective on-line reading program that improves reading abilities. It permits students with diverse skills and unique needs to read with control and precision".
