Dear Parents and Guardians,

This Jeff O. Mills 2017 School Profile was completed by the Office of Educational Quality and Accountability in Oklahoma City. The information it contains reflects the 2016-2017 school year. This School Profile is intended to give a comprehensive view of not only state test scores, but valuable demographic and community information. The state testing results show Mills students scored above the state average in every subject area tested.

There are many changes taking place in education nationally and at the state level. This is also true here at Mills. We are working hard to stay informed and offer our students all they will need in this new era of increased expectations and standards.

We are consistently striving to improve the instruction we provide our students. We do this by reviewing the test scores you see in this report as well as ongoing teacher assessments. We also welcome parent and teacher input. If you know or suspect your child is performing below grade level, please talk to your child's teacher, our counselor, or myself. Please make your child's elementary years a priority.

Thank you for working with our teachers and staff to give students the best education possible.

Sincerely,

G. Metcalf, Principal

Jeff O. Mills Elementary
