Minor workers comprise a large percent of our labor workforce today. Young people are ready to work and anxious to obtain work experience. In an effort to provide work experience and protect our youth from exploitation, certain laws have been enacted which establish standardized working conditions for minors. When both state and federal laws apply, the law setting the more stringent standard must be observed.

**Issuance of Work Permits**

Work permits shall be issued only by school superintendents, school principals, designated school officials, the Director of the Labor Relations Division of the NM Department of Workforce Solutions or the Director’s Designee.

Satisfactory proof of age of the child at the time of issuance must be furnished.

A work permit will be in force for a period of one year from the date of issuance. The work permit may be renewed at expiration by the official authorized to issue such certificates for a period not exceeding one year.

**Certificates**

A work permit certificate is required by state law, for the employment of children under sixteen (16) years of age AT ALL TIMES.

There is no provision in the law for age certificates for children sixteen (16) and older. An age certificate can be issued upon request to verify the child’s age.

Work permits and age certificates are proof of age only and do not authorize prohibited employment.
