March 5, 2020

Two Dimensions Families:

Two Dimensions is closely monitoring the ongoing news regarding the coronavirus (COVID-19). While there are no confirmed cases of COVID-19 coronavirus in Harris County and no additional precautions have been advised for Two Dimensions as of March 5, 2020, we want to practice all safety precautions to promote health safety in our schools.

State medical experts indicate that the best ways to prevent the spread of COVID-19 are the same recommendations for preventing the spread of the flu. We want to reinforce the importance of hand washing, covering your mouth (preferably with a tissue) when coughing or sneezing, and staying home when sick or feverish to help prevent the spread of the flu or any respiratory illnesses.

Two Dimensions will do its part by:

- Increasing the number of rotations for cleaning and disinfecting frequently touched objects and surfaces
- Monitoring any signs of illnesses among staff and students for immediate resolution
- Reinforcing to our students on how to properly wash hands and other healthy habits

As we prepare to go into spring break, Two Dimensions wants to ensure the health of all our students and staff, so below are some additional safety tips to practice:

- No handshaking! Use a fist bump, slight bow, elbow bump, etc.
- Use only your knuckle to touch light switches, elevator buttons, etc.
- When putting gas in your vehicle, lift the gasoline dispenser with a paper towel or use a disposable glove.

- Open doors with your closed fist or hip - do not grasp the handle with your hand, unless there is no other way to open the door. Especially important on bathroom and post office/commercial doors.
- Use disinfectant wipes at the stores when they are available, including wiping the handle and child seat in grocery carts.
- Wash your hands with soap for 10-20 seconds and/or use a greater than 60% alcohol-based hand sanitizer whenever you return home from any activity that involves locations where other people have been.
- Keep a bottle of sanitizer available at each of your home's entrances, and in your car for use after getting gas or touching other contaminated objects when you can't immediately wash your hands.
- If possible, cough or sneeze into a disposable tissue and discard. Use your elbow only if you must. The clothing on your elbow will contain infectious virus that can be passed on for up to a week or more!

Educationally,

Daisy Simpson, Superintendent
