This is a screening examination for participation in sports. This does not substitute for a comprehensive examination with your child's regular physician where important preventive health information can be covered.

Student-Athlete's Directions: Please review all questions with your parent or legal custodian and answer them to the best of your knowledge.

Parent/Legal Custodian Directions: Please assure that all questions are answered to the best of your knowledge. If you do not understand or are unsure about the answer to a question please ask your doctor. Not disclosing accurate information may put your child at risk during sports activity.

Physician's Directions: We recommend carefully reviewing these questions and clarifying any "Yes" or "Unsure" answers.

Table with 4 columns: Question, Yes, No, Unsure. Contains 26 screening questions regarding medical history, injuries, and mental health.

Explain "yes" or "unsure" answers here: _____

By signing below, I agree that I have reviewed and answered each question above. Every question is answered completely and is correct to the best of my knowledge. Furthermore, as parent or legal custodian, I give consent for this examination and give permission for my child to participate in sports.

We, _____, of the county of Wilson, the state of North Carolina, the parents/legal guardians of _____, a minor child who resides with us, do hereby declare our intent to allow that child to practice, play, and participate in athletics at Greenfield School.

Recognizing the possibility of physical injury associated with athletics, and in consideration for Greenfield School accepting my child into their athletic program, we hereby discharge and/or indemnify Greenfield School, its affiliated organizations and sponsors, their employees and associated personnel, including the owners of the fiends and facilities used for the programs, against any claim by or on behalf of my child as a result of his/her participation in the programs and/or being transported to or from the same, which transportation we do hereby authorize. We further, jointly and severally, as parents/legal guardians of the minor child, release, discharge, and agree to hold harmless and indemnify the above named individuals or any one of the designated coaches of the program from any and all liability, claims, or demands arising from the child participating in the programs with a team, specifically to include any and all claims for personal injuries sustained while present or participating in the programs or traveling to and from events in the programs or while on trips sponsored by or in conjunction with the programs.

In addition, we do authorize any one of the designated coaches, athletic directors, or athletic trainers, if after reasonable attempt has been made to reach a parent/guardian to obtain consent, or if sound medical practice decrees that there is not time to make such an attempt, to consent to any X-ray examination, anesthetic, medical or surgical diagnosis or treatment, and hospital care, to be rendered to my child under general or special supervision and on the advice of any physician or surgeon duly licensed to practice; and do any X-ray examination, anesthetic, dental, or surgical diagnosis or treatment and hospital care, to be rendered to my child by any dentist duly licensed to practice.

I, _____, being the parent/legal guardian of _____, a minor child, wishing to participated in the Greenfield School athletic program have read and fully understand and agree to this WAIVER OF LIABILITY. _____ (initials)

Gfeller–Waller NCHSAA Student–Athlete & Parent/Legal Custodian Concussion Information Sheet

What is a concussion? A concussion is an injury to the brain caused by a direct or indirect blow to the head. It results in your brain not working as it should. It may or may not cause you to black out or pass out. It can happen to you from a fall, a hit to the head, or a hit to the body that causes your head and your brain to move quickly back and forth.

How do I know if I have a concussion? There are many signs and symptoms that you may have following a concussion. A concussion can affect your thinking, the way your body feels, your mood, or your sleep. Here is what to look for:

Thinking/Remembering	Physical	Emotional/Mood	Sleep
Difficulty thinking clearly	Headache	Irritability-things bother you more easily	Sleeping more than usual
Taking longer to figure things out	Fuzzy or blurry vision	Sadness	Sleeping less than usual
Difficulty concentrating	Feeling sick to your stomach/queasy	Being more moody	Trouble falling asleep
Difficulty remembering new information	Vomiting/throwing up	Feeling nervous or worried	Feeling tired
	Dizziness	Crying more	
	Balance problems		
	Sensitivity to noise or light		

Table is adapted from the Centers for Disease Control and Prevention (<http://www.cdc.gov/concussion/>)

What should I do if I think I have a concussion? If you are having any of the signs or symptoms listed above, you should tell your parents, coach, athletic trainer or school nurse so they can get you the help you need. If a parent notices these symptoms, they should inform the school nurse or athletic trainer.

When should I be particularly concerned? If you have a headache that gets worse over time, you are unable to control your body, you throw up repeatedly or feel more and more sick to your stomach, or your words are coming out funny/slurred, you should let an adult like your parent or coach or teacher know right away, so they can get you the help you need before things get any worse.

What are some of the problems that may affect me after a concussion? You may have trouble in some of your classes at school or even with activities at home. If you continue to play or return to play too early with a concussion, you may have long term trouble remembering things or paying attention, headaches may last a long time, or personality changes can occur. Once you have a concussion, you are more likely to have another concussion.

How do I know when it's ok to return to physical activity and my sport after a concussion? After telling your coach, your parents, and any medical personnel around that you think you have a concussion, you will probably be seen by a doctor trained in helping people with concussions. Your school and your parents can help you decide who is best to treat you and help to make the decision on when you should return to activity/play or practice. Your school will have a policy in place for how to treat concussions. You should not return to play or practice on the same day as your suspected concussion.

You should not have any symptoms at rest or during/after activity when you return to play, as this is a sign your brain has not recovered from the injury.

	A concussion is a brain injury, which should be reported to my parent(s) or legal custodian(s), my or my child's coach(es), or a medical professional if one is available.	
	A concussion cannot be "seen." Some signs and symptoms might be present immediately; however, other symptoms can appear hours or days after an injury.	
	I will tell my parents, my coach and/or a medical professional about my injuries and illnesses.	Not Applicable
	If I think a teammate has a concussion, I should tell my coach(es), parent(s)/ legal custodian(s) or medical professional about the concussion.	Not Applicable
	I, or my child, will not return to play in a game or practice if a hit to my, or my child's, head or body causes any concussion-related symptoms.	
	I, or my child, will need written permission from a medical professional trained in concussion management to return to play or practice after a concussion.	
	Based on the latest data, most concussions take days or weeks to get better. A concussion may not go away, right away. I realize that resolution from a concussion is a process that may require more than one medical visit.	
	I realize that ER/Urgent Care physicians will not provide clearance to return to play or practice, if seen immediately or shortly after the injury.	
	After a concussion, the brain needs time to heal. I understand that I or my child is much more likely to have another concussion or more serious brain injury if return to play or practice occurs before concussion symptoms go away.	
	Sometimes, repeat concussions can cause serious and long-lasting problems.	
	I have read the concussion symptoms listed on the Student-Athlete/ Parent Legal Custodian Concussion Information Sheet.	
	I have asked an adult and/or medical professional to explain any information contained in the Student-Athlete & Parent Concussion Statement Form or Information Sheet that I do not understand.	

By signing below, we agree that we have read and understand the information contained in the Student-Athlete & Parent/Legal Custodian Concussion Statement Form, and have initialed appropriately beside each statement.
