

Students at Gonzales High School Earn Industry Certifications

Students take important step in pursuing career goals by attaining industry certifications

Gonzales, California (July 22, 2019) - **Gonzales High School** is pleased to recognize students for earning **126** certifications this academic year. Through the intensive certification program, these students have shown mastery of the knowledge needed for entrance into their respective career field of interest in various Career and Technical Education (CTE) subject areas. This promotes a successful transition to postsecondary education and/or the workforce.

Developed and issued by industry-leading companies and organizations such as Elanco and Southwest Airlines, and tested for on the iCEV platform, the certifications enhance student résumés and help them stand out to prospective colleges and employers. The certifications reflect the needs of real-world career expectations, boost employability and allow employers to identify and connect with qualified applicants. To earn the certification, each student passed a rigorous exam based on weighted industry-valued and industry-accepted standards.
