

Internet Safety Policy

- Clifton ISD controls student access to inappropriate materials, as well as to materials that are harmful to minors by utilizing the web filtering system, Lightspeed.
- Clifton ISD does not currently allow for student electronic communications via a district operated system. In the event that such communications on a district operated system are allowed in the future, those communications would be archived on district systems to document student communications.
- Clifton ISD prevents unauthorized access, including hacking and other unlawful activities by utilizing a firewall and security certificates.
- Clifton ISD prevents unauthorized disclosure, use, and dissemination of personally identifiable information regarding students by utilizing a firewall and security certificates, as well user security.
- Clifton ISD educates students about cyber bullying and appropriate online behavior through presentations by staff from the United States Department of Justice and curriculum components from Lion's Quest Character Education, and Technology Curriculum at available grade levels.
