December 17, 2018

To Kaiser High Faculty, Staff and Parents:

The Asbestos Hazard Emergency Response Act (AHERA) requires that our school notify faculty, staff and parents of the presence and current status of asbestos materials in our school buildings. The law also requires a management plan to be updated and available based upon the findings of our biannual inspections.

Kaiser High School performed the required six month surveillance on December 17, 2018.

The results of the recently completed surveillance indicate that there have been no changes in the condition of current asbestos containing materials on campus.

A copy of the inspection report and the management plan is available for public review in the administration building office during normal business hours (7:30-4:00).

Sincerely,

A handwritten signature in black ink that reads "Michael Viernes".

Michael Viernes
Vice Principal
Kaiser High School
