## **COMMUNITY SERVICE PROJECT**

A Can in the Hand of each student can feed a person in need.

### **December 2018**

As part of the Community and Culture core values of Crew, TECS will kick off its first Crew Service Project with the Holiday season. We are seeking donations of canned, non perishable food items that we will collect throughout the month of December in order to donate to the Food Depot and other local non-profits before Christmas.

If each crew student makes a commitment to bring in ONE item we can make a substantial contribution to our local community and help feed those in need this holiday season.

The deadline for all donations is Thursday December 19th.
