

Summit

REACH OUT- LIFT UP

Summit Academy is hosting a youth protection seminar for parents and students.

Keynote Speaker: Christy Kane, PHD
“How Electronics Impact the Human Brain”

February 11, 2019

7-8 PM

Jr. High Auditorium
1225 E. 13200 S. Draper

Topics for the evening include learning key solutions to help stabilize their families in this electronic world. Dr. Kane uses clinical experience and scientific research to explain the neurological changes taking place in the developing brain due to the impact of electronics.

All parents and students are encouraged to come learn, share and ask questions. The seminar will be very practical and informative.

Homework pass for attendance, Free Dress (2/12) if you bring a parent!!
