Superintendent Message

I am thankful for our ACS Family of staff & parents. This group by and large has chosen to help our students dream for a brighter future. They have refused to allow our students to accept small dreams but have challenged them to reach for all that God has gifted to them. I am also thankful for our incredible community who placed a tremendous amount of faith in the district by passing two very important bond issues last school year. I have much optimism and anticipation for the coming year. I will close with a quote attributed to a modern version of Socrates. **“The secret of change is to focus all of your energy, not on fighting the old, but on building on the new.”**
