

Hello HHS students and parents,

In an effort to continue quality education, our teachers are providing lessons electronically or by way of paper packets. Students can expect assignments this week through school email. Students who would prefer to do their assignments through paper version need to contact the teacher or the high school office. Assignment paper packets can be picked up in the high school foyer on Wednesday mornings from 8 to noon. Please take a picture of the completed packet and email it to your teachers. The assignments will be designed to work independently for 10-15 minutes a day per assignment for up to three days.

It is imperative that students continually check their school email in order to best communicate with their teachers. Our teachers are committed to grading these assignments in a timely manner. Thanks for your dedication as a student and your patience during this time. Go Brahmas!
