

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST)

The Board has entered into an agreement with the New York State Education Department to participate in the National School Lunch Program, School Breakfast Program and/or Special Milk Program to receive commodities donated by the Department of Agriculture and to accept responsibility for providing free and reduced price meals to elementary and secondary students in the schools of the District.

The Superintendent or his/her designee shall have the responsibility to carry out the rules of the School Lunch and Breakfast Programs. The determination of which students are eligible is the responsibility of the Reviewing Official and Verification Official or the Office of Temporary and Disability Assistance of the Department of Social Services. Appeals regarding eligibility should be submitted to the Hearing Official of the District.

Free or reduced price meals may be allowed for qualifying students attending District schools upon receipt of a written application from the student's parent or guardian or a "Direct Certification" letter from the New York State Office of Temporary and Disability Assistance (OTDA). Applications will be provided by the School District to all families. The District will use its administrative prerogative to complete and file an application on a student's behalf judiciously, and only after using exhaustive efforts to obtain a completed application from the student's parent/guardian. The District will complete the application using only available information on family size and income that falls within approvable guidelines.

School officials must also determine eligibility for free/reduced meals and milk by using the Direct Certification Matching Process, a dataset supplied by the Office of Temporary and Disability Assistance, and made available by the State Education Department. Any student receiving federal assistance through Supplemental Nutrition Assistance Program (SNAP) or Temporary Assistance to Needy Families (TANF) is automatically eligible for free meals and milk. There is no need for families to complete further applications. School Districts shall notify parents or guardians of such eligibility, giving them the opportunity to decline free meals and milk if they so choose.

Procedures for the administration of the free and reduced price meal program of this School District will be the same as those prescribed in current state and federal laws and regulations.

Child Nutrition Program/Charging Meals

Although not required by law, because of the District's participation in the Child Nutrition Program, the Board of Education approves the establishment of a system to allow a student to charge a meal. The Board authorizes the Superintendent to develop rules which address:

- a) What can be charged;
- b) The system used for identifying and recording charged meals;

(Continued)

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST) (Cont'd.)

- c) The system used for collection of repayments; and
- d) Ongoing communication of the policy to parents and students.

Child Nutrition Program Meal Charge Procedure

A regular lunch will be provided for students in grades K through 12 if they do not have sufficient money for their lunch unless the student's parent or guardian has specifically provided written permission to the school to withhold a meal. The only items to be charged are a complete meal or milk, a la carte items such as snacks and ice cream may not be charged. The POS system (NutriKids) will record and identify charged meals and collection practices will proceed as outlined below. As appropriate, District administration may contact Social Services to report a student's consistent failure to arrive at school without a meal.

System for collecting repayments: Negative balance letters will be sent home and/or the parents/guardians will be contacted by telephone communication.

Communication of policy to parents and students will be made in the annual school calendar and through inserts in the District newsletter.

Ongoing Staff Training

- a) Staff will be trained annually and throughout the year as needed on the procedures for managing meal charges using the State Education Department (SED) Webinar or the District's training program.
- b) Staff training will include ongoing eligibility certification for free or reduced price meals.

Parent Outreach

- a) Staff will communicate with parents/guardians with five or more unpaid meal charges to determine eligibility for free or reduced price meals.
- b) Staff will make two documented attempts to reach out to parents/guardians to complete a meal application in addition to the application and instructions provided in the school enrollment packet.
- c) Staff will contact the parent/guardian to offer assistance with completion of meal application to determine if there are other issues within the household causing the student to have insufficient funds, offering any other assistance that is appropriate.
- d) School liaisons for homeless, foster, and migrant students will coordinate with the food services department to ensure such students are receiving free meals in accordance with federal law.

(Continued)

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST) (Cont'd.)

- e) The District provides each student with a free and printed meal application each year in the District calendar and enrollment packets.
- f) If the District uses an electronic meal application, it will provide an explanation of the process in the school enrollment packet and instructions on how to request a paper application at no cost.

Minimizing Student Distress

- a) Staff will not publicly identify or stigmatize any student in line for a meal or discuss any outstanding meal debt in the presence of any other students.
- b) Students with unpaid meal charges will not be required to wear a wristband or handstamp, or to do chores or other work to pay for meals.
- c) Staff will not throw away a meal after it has been served because of the student's inability to pay for the meal or because of previous unpaid meal charges.
- d) Staff will not take any action directed at a student to collect unpaid meal charges.
- e) Staff will deal directly with parents/guardians regarding unpaid meal charges

Restriction of Sweetened Foods in School

The sale of sweetened foods will be prohibited from the beginning of the school day until thirty minutes after the school day has ended.

Sweetened foods consist of sweetened soda water, chewing gum, candy, including hard candy, jellies, gum, marshmallow candies, fondant, licorice, spun candy, candy coated popcorn, and water ices except those which contain fruit or fruit juices.

Restrictions on Sale of Milk Prohibited

Schools that participate in the National School Lunch Program may not directly or indirectly restrict the sale or marketing of fluid milk products at any time or in any place on school premises or at school-sponsored events.

Food Substitutions for Children with Disabilities

Federal regulations governing the operation of Child Nutrition Programs, Part B of the Individuals with Disabilities Education Act, and Section 504 of the Rehabilitation Act of 1973 require that children with disabilities be offered the opportunity to participate in all academic and nonacademic activities including the school nutrition programs. The District will make reasonable accommodations to those

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST) (Cont'd.)

children with disabilities whose disabilities restrict their diets, such as providing substitutions and/or modifications in the regular meal patterns. Such meal substitutions for students with disabilities will be offered at no extra charge. A student with a disability must be provided substitutions in food when that need is supported by a statement signed by a physician attesting to the need for the substitutions and recommending alternate foods.

However, the school food service is not required to provide meal services (for example, School Breakfast Program) to students with disabilities when the meal service is not normally available to the general student body, unless a meal service is required under the student's individualized education program (IEP) or Section 504 Accommodation Plan as mandated by a physician's written instructions.

Food Substitutions for Nondisabled Children

Though not required, the District will also allow substitutions for non-disabled children who are unable to consume the regular meal because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority.

The District may also allow substitutions for fluid milk with a non-dairy beverage that is nutritionally equivalent (as established by the Secretary of Agriculture) to fluid milk and meets nutritional standards for students who are unable to consume fluid milk because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority or by the student's parent/legal guardian.

Prohibition Against Adults Charging Meals

Adults should pay for their meals at the time of service or set up pre-paid accounts.

HACCP-Based Food Safety Program

Schools participating in the National School Lunch and/or School Breakfast programs are required to implement a food safety program based on Hazard Analysis and Critical Control Point (HACCP) principles. The District must develop a written food safety program for each of its food preparation and service facilities that is based on either traditional HACCP principles or the "Process Approach" to HACCP. (The "Process Approach" simplifies traditional HACCP by grouping foods according to preparation process and applying the same control measures to all menu items within the group, rather than developing an HACCP plan for each item). Regardless of the implementation option that is selected, the District's written food safety program must also include: critical control points and critical limits; monitoring procedures; corrective actions; verification procedures; recordkeeping requirements; and periodic review and food safety program revision.
