August 27, 2020

Dear Carlisle High School Parents/Guardians:

Today, the district was notified of a student who has tested positive for Covid-19 case at Carlisle High School. I am writing to update you with some important information, and to reassure you that the district continues to take every step possible to ensure the health and safety of our students and staff.

The individual who has tested positive for COVID-19 will not be allowed to return to school for at least 10-14 days. The individual who has tested positive has not been on campus since August 25th. The district is working with Warren County Health Services and anyone who was in close contact. A close contact is defined as being less than 6 feet away from someone for more than 15 consecutive minutes with or without wearing a mask.

Individuals with close contact with this person will be contacted and asked to quarantine for 14 days. I want to remind our families and students: if you have symptoms of COVID-19, you should contact your physician immediately and stay home.

Per our established protocol, we will be following all CDC guidelines for cleaning and disinfecting prior to building/district reopening. We encourage all of you to continue following the CDC’s recommendations to remain healthy and well.

We are closely monitoring this situation and will provide you with updates as we know more. If you have questions, please do not hesitate to contact me. Thank you for your support of Carlisle High School.

Sincerely,

Andrea Hoekstra
Principal
