Complete the Plan for Improvement in the School Health Index (SHI).

In Section III, check the box to indicate compliance with quarterly menu reviews.

For Goals 1-3, activities should describe how your school is meeting the goal requirements. For example, how is nutrition education being provided to students? Through health and/or science classes? Do you have a school garden? Do you participate in the fresh fruit and vegetable grant program? Revise goal activities to describe the opportunities being provided to meet the requirements. - ALH 10/30/17

Act 1220 of 2003 requires that schools complete the nutrition, physical activity, and tobacco use health topic questions from Modules 1-4 and 8 of the School Health Index annually. Please revise the SHI to include all of the appropriate health topics and complete the Plan for Improvement. If you need assistance revising the SHI, contact Anna Haver at (501) 682-3733.

Provide a summary of the school's BMI data from the 2016-17 school year in Section II.

In Section III, check the second box to indicate that policies are in compliance with state and federal mandates.

For Goals 1-3 activities should be listed that specifically describe how your school will meet the goal requirements. Goal requirements can be found in the yellow highlighted hint boxes. - ALH 09/19/17
