Each year, over 250,000 students in 56 countries and the United States participate in Destination ImagiNation®. This popular, process-based program helps young people build lifelong skills in creative and critical thinking, teamwork, time management and problem solving. Up to seven participants work together as a team for eight to twelve weeks to create their unique solution to a Team Challenge, which can have a focus that is theatrical, structural, improvisational, scientific or technical - or a blend of several disciplines. Teams are formed based on the availability of parent volunteers willing to serve as Team Managers. A nominal fee is required for each challenge.
