ST. PIUS X

THE INCREDIBLE ROBERT!!!

BY BENJAMIN SALAS

Robert, we all know and love him! He is our custodian, coach, and most importantly, friend. But what or who got him started here? Why does he stay?

This will all be answered shortly, stay tuned!

"I started working here in 1982, so I have been here for 36 years." said Robert. When asked about his previous jobs he stated that he previously worked at Mount Carmel Cemetery and started working there in 1979. Robert was then asked how he started working at St. Pius X school and he said " I was working under a contract at White Sands Missile Range, and Father Smith was giving mass over there, and I asked him if there was any jobs available, and he gave me my job here." Robert stated that Sister Olga was his original employer and boss, and Father Smith was the pastor.

Robert does many things here, but his main job is to maintain the building's overall well-being. "I also do the plumbing, electrical, and I coach." Robert was originally coaching for city league teams, and that's how he started coaching here. "My motivation for coaching is the kids, to encourage them, to teach them to work hard at everything they do, not just in sports, but in everything they do in life!" Robert stated that the best part of his job is knowing that the kids are succeeding and doing good and knowing that he helped them accomplish that.

Robert is an extremely humble, humorous, kind, encouraging, and hard-workina person who deserves extreme recoanition for evervthina he does

SCIENCE FAIR

THE TRUMP RALLY

By Karlo Soto

On February 11 at 7:15 pm Donald J. Trump walked in on tens of thousands of people at the El Paso coliseum. As soon as president Trump arrived he started to talk about the crime rate from Juarez compared to the one in El Paso. Trump claimed that Juárez, Mexico, recorded 1,200 murders last year, while El Paso had only 23. "When that wall went up, it's a whole different ball game. I don't care whether a mayor is a Republican or a Democrat."

I heard the same thing from the fake news. "Oh crime, it actually stayed the same. It didn't stay the same. It went way down. Thanks to a powerful border wall in El Paso, Texas, it's one of America's safest cities now," said Trump. It has been a very tough fight between building the wall and Democrats because the Democrats do not want to cooperate with building the wall and instead are focused on late term abortions and "The Green New Deal".

This deal states that taxes will be raised in order to supply money for people who do not want to work. It also states that combustion from vehicles such as airplanes and cars. This "Green New Deal" is such a lunacy for the simple fact that it is implying society does not use cars, airplanes or any vehicle for that matter in order to travel and it also implies the idea of getting rid of all farting cows. Instead of focusing on real problems that are affecting this country greatly, like illegal immigration and drugs pouring into the country, the Democratic Party is focused on an Anti-Trump and Anti-American agenda. These ideas only push the country and its citizens in grave danger and it is time to put an end to them by BUILDING THE WALL and KEEPING AMERICA GREAT and SAFE with Trump as president.

THE BETO O'ROURKE RALLY

By Edgar Gonzalez

On the evening of February 11, 2019, El Paso's former Democratic Congress man Beto O'Rourke, held a rally at Bowie High School in El Paso, Texas. On the same day and time, President Donald Trump also held a rally in El Paso. The main purpose for O'Rourke's counter-rally was to oppose the President's desire for a wall between the US and Mexico. He said El Paso is a peaceful and safe city "because we treat one another with dignity and respect."

He also criticized the Trump administration's treatment of immigrants. He criticized practices such as separating children from their families and housing migrants in detention centers. The potential 2020 Democratic candidate stated that, "We will not take advantage of [immigrants]. We will not send them back to certain death. We will not believe that walls can or should keep them out. Instead, we welcome them with open arms."

MOVIE REVIEW: THE LEGO MOVIE 2: THE SECOND PART

By Grecan Hinojos

The Lego Movie 2 is ok for the critics, Rotten Tomatoes says. "While it isn't as its predecessor, The Lego Movie 2: The Second Part fits neatly into an animated all-ages franchise with heart and humor to spare".

Here is what some of the critics say "Lego 2" is like stepping on a Lego". -Adam Graham, Detroit News. Others say "Viewers reared on "The Lego Movie" will find plenty to nourish them a new". – Anthony Lane New Yorker. "Exhausted and Exhausting". -Matthew Bickona San Diego Reader.

Since we heard from Rotten Tomatoes, let's hear what other have to say. Common Sense said "Lego friends come back for more adventure, action in a fun sequel" reviewed by Betsy Bozdech, Common Sense Media.

I interviewed Adriana Hinojos and here is what she had to say. "The Lego Movie 2 is good movie for kids and adults. It has humor and its very exciting". So this show everybody liked it and critics are depressed people that have no life and do not like Legos.

My opinion on the movie is that it was great. It had humor, heart, action, and comedy all in one movie. Although it was not as awesome as the original, The Lego Movie 2 is a great sequel and I recommend it to anyone.

DOES A MOCKINGBIRD MOCK?

By Anonymous Student

If a humming bird hums,
And a woodpecker pecks,
Does a mockingbird mock?

Does a mockingbird mock?
Will it sing my favorite song?
Will it repeat bittersweet words,
And if so, for how long?

Does a mockingbird mock?
Will it walk like me?
Or will it fly free?

Does a mockingbird mock?
Will it scavenge like a crow?
Through rain or snow?
And if so, how long?

Does a mockingbird mock?
Will it hiss like a cat?
Or will it squeak like a rat?

If a humming bird hums,
And a woodpecker pecks,
Does a mockingbird mock?

THE BOOK FAIR

By Jacklyn Carreon

This year's book fair was a huge success! This year's theme was: "Reading is Dino-Mite!" Although the book fair was only half a week, students enjoyed the book fair without a doubt. The book fair was open Monday, March fourth through Wednesday, March sixth. It was open before school at seven thirty, during school, and even after school until four. The Scholastic Book Fair offered many choices, whether you are interested in fiction, historical fiction, fantasy, and even science fiction. Books, reference materials, pens and pencils, posters, and much more were being sold at the book fair! All of the profits earned during the book fair went back into our library. To sum it up, the book fair was nothing short of amazing, Ms. Apodaca really outdid herself.

MEME OF THE WEEK

Beans

By Jesus Moreno

Ah beans, an oldie but goodie. Such a classic and ironically funny meme that started to get big around May and June of last year. Although this meme only lasted about a month, and is quite dead now, it is still one of the pioneers of ironic memes that don't need an explanation to be funny. Such craftsmanship, such humor, thank you meme Gods for such a classic. Now that's what I call an epic gamer victory royale. This meme gets an 8/10 for creativity and how ironically funny it is, thank you!

7TH AND 8TH GRADE BASKETBALL TEAMS

By Roberto Navarro

The 8th grade boys' basketball coach is proud of his team and the way they have played in all the games. Coach Lujan's way to score more points than the other team is to do the things we do at practice, like plays and drills and to be focused and concentrated. Coach Lujan said, "It doesn't matter the score or time, if you have the right plays you are going to have a really good chance of winning the game." Coach's way to improve shooting percentage is by taking shots. He motivates his players by telling them to have fun and show the best of your abilities in the court. Coach Lujan was asked who is the best player on the team and he said, "There is no best player in the team, the whole team is the best and if you work together, there is not going to be a best player there is going to be a good team."

The 7th and 8th grade girls' basketball coach is really excited about his team because they are doing good and have won lots of games. Coach Tom and Coach Cynthia Lopez said their way to score more points than the other team is making smart plays and smart choices, but the main thing is smart passes. The coaches were also asked if they depend on time and score his response was, "It doesn't, you just have to play as hard as you can, make that time count and play at 100 percent." The way the coaches motivate their players is by pushing them with positive words. The coaches improve teamwork and the players attitudes by making them work together by doing drills, communicating with each other and practicing as a team.

The 7th grade boys' basketball coach said that his team is doing good and thinks that they have the right mind set. Coach Frankie's strategy to score more points is by conducting the plays they always do in practice, and to be focused on the game and to be ready to score. He said, "It does not depend on time or score, if you are concentrated enough, you're going to have a great game performed by your team and have a high chance of winning." The way Coach Frankie improves his team is by taking shots. The way he lowers the opponent's shooting percentage is by playing good defense and playing clean and safe. Coach said the important character-building qualities to teach your players is by teaching them teamwork and playing with good choices. He motivates his players by telling them to have fun and be authentic. He said there is not a best player on the team and that the team is a team and they play equally as good.
