To the 2019 Barbering Student and Parent/Guardian:

We are so excited to welcome you to Jordan Academy for Technology and Careers. The Barbering program requires consistency in attendance, attention to safety and sanitation detail, and willingness to learn in a traditional classroom as well as in a hands on salon setting. Dedication to offering quality services and the ability to interact with the peers and the public are key to being a successful Barber, as well as the required knowledge and skills required by DOPL for Utah State Licensing.

We strive to offer a positive learning environment while training to become a Barber and require that students do their part to achieve and maintain that goal. Classroom rules and JATC policies must be adhered to during the course.

The support of family and friends can be very beneficial to a student’s learning and career development. I invite you as parents/guardians to be active members in your
student’s education. Models will be required and students will be performing supervised services in our student salon throughout the semester. Information will be given in advance so appointments can be booked with students and they can get as much professional experience as possible.

The Barbering career path will help students with social skills, organization, problem-solving, and many other skills they will use throughout their lives. Barbering can be a successful career where students can be choose to work hard and play an active part in their communities and society.

I am looking forward to working with students and parents this upcoming school year! Welcome to JATC Barbering!
