NED's Kindness Adventure visits Lake Park School

Lake Park School was host to NED's Kindness Adventure when the famous cartoon character came for a visit on Wednesday, Nov. 1. NED comes along with a human companion who uses storytelling, music, interactive videos, magical illusions and audience participation to take students on a "journey to Africa." Through a partnership with Bidii Primary school in Kenya, students shared the message that a kind heart and a caring attitude can break down the barriers between people who appear to be very different from each other. This character development-based program supported the school's emphasis on being respectful, caring and kind to everyone.
