## **Introduction**

Investments in the State of Texas are governed by Section 2256 of the Texas Government Code. All investments made by the District shall comply with the Public Funds Investment Act and all federal, state, and local statutes and regulations.

1. Investment policies should include the methods used to monitor the market price.
2. Policy wording should include a statement that transactions must be settled on a delivery versus payment basis with the exception of investment pools and mutual funds.
3. The Board of Trustees must act upon an annual review of the District's investment policy and strategies.
4. Training is required of the chief financial officer and the investment officers. Ten hours of training is required every two years.
5. A qualified representative of sellers of investments must sign that the District's investment policies have been reviewed.
6. The Board of Trustees must review and adopt a list of brokers used.
7. Quarterly investment reports must be in accordance with generally accepted accounting principles and must include accrued interest.
8. A formal annual review of the quarterly reports by an independent auditor is necessary except for investment in pools, money market mutual funds or depository bank investments.

## *Frenship ISD Investment Policy*

The District's investment policy is CDA (Local). The policy requires an annual reporting of investment activity.

The District's policy requires focus on safety, liquidity, and diversity. Investments are made in a manner that ensures the preservation of capital in the overall portfolio. The District's investments are sufficiently liquid to meet anticipated cash flow needs. Investments are diversified to reduce the risk of any one investment type. Internal controls exist to protect against losses of public funds arising from fraud, employee error, and misrepresentation by a third party.

Investment strategy is applied to each major fund type. Primary objectives for operating funds are safety, investment liquidity and maturity sufficient to meet anticipated cash flow requirements. The Debt Service fund and Capital Projects funds have longer thresholds for investing due to the nature of the cash flow requirements. Investments for these funds may exceed one year.

Day to day investments are managed by the Director of Business Services and the Coordinator of Accounting. The Chief Financial Officer oversees the investment function of the District and presents monthly reports to the Board of Trustees. The Director of Business Services and the Coordinator of Accounting have maintained the appropriate training requirements.

Copies of CDA (Local) and CDA (Legal) are on the following pages. No changes are recommended to these policies at this time.

SAFETY AND  
INVESTMENT  
MANAGEMENT

The main goal of the investment program is to ensure its safety and maximize financial returns within current market conditions in accordance with this policy. Investments shall be made in a

manner that ensures the preservation of capital in the overall portfolio, and offsets during a 12-month period any market price losses resulting from interest-rate fluctuations by income received from the balance of the portfolio. No individual investment transaction shall be undertaken that jeopardizes the total capital position of the overall portfolio.

LIQUIDITY AND MATURITY

Any internally created pool fund group of the District shall have a maximum dollar weighted maturity of 180 days. The maximum allowable stated maturity of any other individual investment owned by the District shall not exceed one year from the time of purchase. The Board may specifically authorize a longer maturity for a given investment, within legal limits.

The District's investment portfolio shall have sufficient liquidity to meet anticipated cash flow requirements.

COLLATERAL

Collateral shall be required on all deposits, certificates of deposit and repurchase agreements. The level of collateral shall be at least equal to 102 percent of the aggregate market value of the deposit or investment including accrued interest, less an amount insured by the Federal Deposit Insurance Corporation or its successor. Collateral shall be reviewed monthly for time and demand deposits and daily for repurchase agreements to assure that the market value of the securities pledged equals or exceeds the related deposit or investment balance.

Collateral requirements shall be in accordance with Chapter 2256 and 2257 of the Government Code. Collateral underlying repurchase agreements is limited to direct obligations of the United States or its agencies or instrumentalities. The District shall not accept surety bonds as collateral.

DIVERSITY

The investment portfolio shall be diversified in terms of investment instruments, maturity scheduling, and financial institutions to reduce risk of loss resulting from overconcentration of assets in a specific class of investments, specific maturity, or specific issuer.

MONITORING MARKET PRICES

The investment officer shall monitor the investment portfolio and shall keep the Board informed of significant declines in the market value of the District's investment portfolio. Information sources may include financial/investment publications and electronic media, available software for tracking investments, depository banks, commercial or investment banks, financial advisors, and representatives/advisors of investment pools or money market funds. Monitoring shall be done monthly or more often as economic conditions warrant by using appropriate reports, indices, or benchmarks for the type of investment.

MONITORING RATING CHANGES

In accordance with Government Code 2256.005(b), the investment officer shall develop a procedure to monitor changes in investment

ratings and to liquidate investments that do not maintain satisfactory ratings.

FUNDS / STRATEGIES	Investments of the following fund categories shall be consistent with this policy and in accordance with the strategy defined below.

1. Preservation and safety of principal;
2. Liquidity; and
3. Yield.

In determining whether an investment officer has exercised prudence with respect to an investment decision, the following shall be taken into consideration:

1. The investment of all funds, rather than the prudence of a single investment, over which the officer had responsibility.
2. Whether the investment decision was consistent with the Board's written investment policy.

# Portfolio Composition

## Portfolio Composition

As of August 31, 2018, the District's investment portfolio consisted of the following investment instruments:

- **City Bank**

Originally called First State Bank of Morton, City Bank was founded by five men with a vision in a small West Texas town on August 2, 1941. The bank was initially capitalized with \$129,335.48 and grew its deposits to over two million dollars in the subsequent five years. By the end of 1994, the City Bank family of banks, including Morton, Whiteface, Levelland and Lubbock, had total assets of \$200 million.

City Bank continues to act as the depository for all funds of the Frenship Independent School District. The depository agreement was bid out in April 2013 and City Bank was awarded the 2-year contract. This contract is eligible for 2 two-year extensions, as long as both sides agree to the extension. In May 2017, the contract was extended for the last of the two-year extensions. This contract will be re-bid Spring 2019.

Currently the District maintains two types of accounts at City Bank - money market accounts and NOW accounts. On August 31, 2018 the Depository money market account and the NOW account both provide 1.76%. As of August 31, 2018 City Bank pledges approximately \$19 million to cover the District's deposited assets.

- **TexSTAR**

Created in 2002, the Texas Short Term Asset Reserve Fund ("TexSTAR") is a local government investment pool organized under the authority of the Interlocal Cooperation Act, Chapter 791, Texas Government Code, and the Public Funds Investment Act, Chapter 2256, Texas Government Code. TexSTAR was created by contract among its participating governmental units and is governed by a board of directors. J. P. Morgan Investment Management, Inc. and First Southwest Asset Management act as co-administrators.

TexSTAR's purpose is to offer a safe, efficient, and liquid investment alternative to local governments in the State of Texas so that they may benefit from and realize a higher investment return by utilizing economies of scale and professional investment expertise. It is the policy of TexSTAR to invest pooled assets in a manner which will provide for preservation and safety of principal and competitive investment returns while meeting the daily liquidity needs of the participants. Specifically, the primary investment objectives of TexSTAR in order of priority are:

- Preservation of capital and protection of principal,
- Safety of funds and investments,
- Maintenance of sufficient liquidity,
- Diversification to avoid unreasonable or avoidable risk, and
- Yield.

This investment objective establishes investment strategies, policies, and procedures intended to assure that the objectives are met.

- **LOGIC**

Local Government Investment Cooperative (“LOGIC”) was organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. LOGIC’s governing body is a six-member Board of Directors. J. P. Morgan Investment Management, Inc. and First Southwest Investment Management, Inc. serve as co-administrators.

Administrative and investment services for TexasTERM are provided by PFM Asset Management LLC, under agreement with the Pool’s advisory Board acting on behalf of the Pool participants. By pooling the funds of many governmental entities TexasTERM seeks to provide the following benefits to participants:

- Safety

# Recommendations

## Recommendations

1. Since pool rates continue to remain at historically low rates, the District will continue to maximize the use of City Bank's NOW account (\$19 million secured) for the Local, Sinking, Activity, Employee Benefit, and Food Service Fund Accounts. This account provides a rate of 1.67%.

Several governmental fund manager advisers recommend increased emphasis on safety and liquidity – even more than the recommended for public fund investing. With the uncertainty in short-term rates, these advisers say that safety and security are much more important than chasing a few additional basis points among investment pools or CD rates. Frenship ISD has also set up the Money Market account with People's Bank as well as Demand Deposit accounts with City Bank in order to increase rates over the pool rates and maintain liquidity.

The District will follow this safety recommendation. We do not plan to chase basis points in the current investing environment.

2. Government Code, Chapter 2256 requires investment officers to receive instruction relating to investment responsibilities under the Public Funds Investment Act from an independent source approved by the Board or a designated investment committee advising the investment officer, as provided for in the District's investment policy. We recommend the following providers for investment training:

Texas Association of School Administrators (TASA)

Texas Association of School Boards (TASB)

Texas Association of School Business Officials (TASBO) and its local affiliates

Texas Comptroller of Public Accounts

Texas Society of Certified Public Accountants and its approved providers

Regional Education Service Centers

First Southwest Company

MBIA

First Public, LLC

Government Treasurers' Organization of Texas
