

Middle School Boundary Review Committee Meeting Minutes June 13, 2018

CENTRAL VALLEY
SCHOOL DISTRICT

Start: 6:00 PM

Facilitators: Kent Martin, Tyler Vick, Alex Brasch, Jenny Axelrod

Attending Committee Members:

Jen Hurst	Melissa Shriver	Vern Digiovanni	
Jennifer Gray	Joe Phipps	Betsy Casteel	Laura Lindley
Marcus Bresko	Monty Lewis	Nate Bartlett	
Rachelle Lathan	Josh Wolcott	Ty Larson	
Kevin Lind	Mark Holthaus	Brandon Deyarmin	

Review of Meeting Minutes

Tyler welcomed the committee and asked committee members to review the minutes from the May 23rd committee meeting. Minutes were approved.

Update on Liberty Lake land quality analysis

Alex relayed information he received from Liberty Lake city planners with regard to some updated land use data in the river district east of the Selkirk MS site and in the Legacy Ridge area. According to the city planners the data they presented to Alex in April overestimated the number of homes in these two areas by around 25%. Over the summer, the city will do another study and complete updated estimations of future development in these areas will be presented to the committee.

Review and discuss open house (community forum) comments

Three workgroups reviewed the 70+ comments from the community forum and summarized the input as follows into favorable feedback for this proposal and process, and feedback that the committee could take action upon:

Favorable

- Appreciated the clarity of maps/explanations
- Ability to provide feedback and have a voice in the process
- Accepting of people's opinions
- Transparency of the process
- Broad representation on the committee
- Consideration of socio-economic equity

Actionable

- Liberty Lake being divided between two middle schools
- Timing of posting materials (Proposal #1 wasn't posted until the day of the forum)
- Misconceptions of bond outcomes (thought that the new middle school was for Liberty Lake students only)
- King James single entry to Mission Ave
- Students are not just numbers; statistics are helpful, but consider the effect on students rather than simply balancing enrollment numbers and socio-economic percentages

Boundary review in workgroups and discussion

For the remainder of this meeting the committee worked to incorporate the actionable input into other boundary working scenarios. For each working scenario the committee reviewed the enrollment percentages of capacity for both Selkirk and Greenacres, as well as their respective free/reduced lunch percentages in order to see how well each scenario followed the guiding principles set by the CVSD Board of Directors. In addition, for each working scenario efficiency of bus routes and impact upon the numbers of special education student and programs at each school were discussed. None of these working scenarios were presented during this meeting for vote to become Proposal #2.

This committee will break for summer and return in the fall for committee meetings on September 12th and 19th with a second Community Forum scheduled for September 26th at Evergreen MS to review a yet-to-be-determined MS Boundary Scenario #2.

Adjourn: 8:07 PM
