

March 2019 Collaboration Day Summary

The TK and Kindergarten teachers met with the district Kindergarten team. They discussed the Science pilot materials and how each one covered NGSS. They also discussed end-of-the year assessments and Fountas & Pinnell testing.

The first grade team attended a professional development session on SeeSaw offered by Mrs. Boayes and Mrs. Crocker.

2nd grade teachers attended a professional development session on SeeSaw offered by Mrs. Boayes and Mrs. Crocker.

Part of the third grade team met to share and discuss science pilot materials. The other half of the team attended the Seesaw training.

4th grade teachers met and generated notes about the 4th grade Gold Rush Day. They made suggestions and wrote detailed instructions for next year's volunteers. They also attended the SeeSaw training and discussed Open House and determined some of the projects they would display.

5th grade teachers attended the SeeSaw training to see if this platform would work for some of their projects. They also talked about SBAC testing and training so that all team members know what to expect during those days. They talked about science piloting and the resources available for those pilots.

The sixth grade team planned the pacing and preparing of Math projects and the Science Pilot curriculum.
