January 31, 2020

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2018-19 educational progress for Otsego Public Schools and our individual buildings. The AER addresses the complex reporting information required by federal and some requirements of state laws. Our staff is available to help you understand this information. Please contact Holly McCaw, Director of Communications, for help if you need assistance.

The District AER is available for you to review electronically by visiting the following web site: 2019-20 District AER, or you may review a copy in the main office at your child’s school. Each school will also be communicating their own AER to parents directly.

These reports contain the following information:

**Student Assessment Data** – Includes the following four assessments: M-STEP (Michigan Student Test of Educational Progress), College Board PSAT, MI-Access (Alternate Assessment), and College Board SAT. This report section presents assessment information for English language arts and mathematics for grades 3 to 8 and 11, and MI-Access science for grades 4, 7, and 11, compared to state averages for all students as well as subgroups of students. The report helps users to understand achievement performance within grades and schools, and to make comparisons to district, state, and national achievement benchmarks.

**Accountability – Detail Data and Status**
The accountability portion of the AER includes assessment proficiency and participation rates, graduation or attendance rates, as well as accountability index values showing school performance on a 0-100 scale.

**Teacher Qualification Data**
- Identifies the number and percentage of inexperienced teachers, principals, and other school leaders
- Reports teachers who are teaching with emergency or provisional credentials
- Includes teachers who are not teaching in the subject or field for which they are certified

**NAEP Data (National Assessment of Educational Progress)** Provides state results of the national assessment in mathematics and reading every other year in grades 4 and 8.
Civil Rights Data  Provides information on school quality, climate and safety

Review the table below listing our schools. For the 2018-19 school year, schools were identified using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that has at least one underperforming student subgroup. An Additional Targeted Support (ATS) school is one that has a student subgroup performing at the same level as the lowest 5% of all schools in the state. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state or has a graduation rate at or below 67%. Some schools are not identified with any of these labels. In these cases, no status label is given.

We are very proud of what our staff and students accomplish at Otsego Public Schools. We are now in year four of an RTI (Response to Intervention) plan with additional focus on reading; we are constructing the next three-year plan to continue the great progress of individualized instruction. We implemented a third year of 30 delayed-start days to allow teachers consistent time to work together in their professional learning communities and as a building to analyze data, instructional practices and find best practices as well as engage in professional development. We have a staff that is always learning along with our students; this gives them an edge in finding ways to help our students excel. We encourage parents and community members to be a part of the process and get involved in our Parent/Teacher organizations and/or serve as volunteers in our schools. Call any main office to get involved. As we look toward the next school year, we are working, as we do each year, to improve the learning experiences for every student at Otsego. I look forward to another great year!

Sincerely,

Jeffery S. Haase
Otsego Public Schools Superintendent
