PROGRAM DESCRIPTION:

Coming Winter 2019: **FANTASTIC FORCES!**

We all know that what goes up must come down, but did you know that gravity can be suspended in certain conditions? This after school program will help students explore the fundamental forces of our universe, including Newton's Laws of Motion. Send atomic coins spinning through a vortex! Launch catapults to experiment with the concepts of potential and kinetic energy. Build some super structures and take a look inside your favorite machines! Students will gain a new perspective on the world around them through exciting demonstrations and hands-on activities. Let's have fun with some fantastic forces!

*Classes are held on site at the school --
no transportation needed!
