School Description

The Dual Language Academy of the Monterey Peninsula (DLAMP) is a locally funded dependent charter school serving 460 students in K-8 with a 50/50 dual language immersion program in English and Spanish. DLAMP offers a rigorous academic curriculum in both English and Spanish, ensuring a strong level of fluency in both languages. Additionally, students are given opportunities to develop creativity through programs in art and music, computer skills in our classrooms, and athletic skills in grades 6-8 on our athletics teams.

Mission Statement:

The Dual Language Academy of the Monterey Peninsula will prepare students to meet the challenges of an interdependent world community by providing a bilingual and multicultural learning environment that enables participants to communicate in another language, master all curricular subjects, and develop intercultural understanding and respect.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2018-19)

Monterey Peninsula Unified School District held a public hearing on August 2018, and determined that the school had sufficient and good quality textbooks and instructional materials, pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information collected in August 2018 about the quality, currency, and availability of the California Common Core standards-aligned textbooks and other instructional materials used at the school.

School Facility Conditions and Planned Improvements (Most Recent Year)

In 2010, the Monterey Peninsula Unified School District overwhelmingly approved Measure P, a \$110 million locally-controlled school bond measure to fund the first phase of critical repairs and improvement to our local schools. The district's newest school was built in 1965, more than 50 years ago, and our Facilities Needs Assessment has identified over \$680 million in critical repairs to all MPUSD schools. Recently, in 2018, voters approved Measure I, a \$213 million school facilities bond by 70%.

In 2019, the district is working with stakeholders to prioritize its facilities projects. Visit www.mpsud.net for additional details.

More facts about the condition of our school buildings are available in an online supplement to this report called for by the Williams legislation of 2004. What you will find is an assessment of more than a dozen aspects of our buildings: their structural integrity, electrical systems, heating and ventilation systems, and more. The important purpose of this assessment is to determine if our buildings and grounds are safe and in good repair. If anything needs to be repaired, this assessment identifies it and targets a date by which we commit to make those repairs. The guidelines for this assessment were written by the Office of Public School Construction (OPSC) and were brought about by the Williams legislation. You can look at the six-page Facilities Inspection Tool used for the assessment on the Web site of the OPSC.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

2017-18 CAASPP Results for All Students						
Subject	Percent of Students Meeting or Exceeding the State Standards (grades 3-8 and 11)					
	School		District		State	
	16-17	17-18	16-17	17-18	16-17	17-18
ELA	38.0	32.0	38.0	39.0	48.0	50.0
Math	35.0	32.0	27.0	27.0	37.0	38.0

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students						
Subject	Percent of Students Scoring at Proficient or Advanced (meeting or exceeding the state standards)					
	School		District		State	
	16-17	17-18	16-17	17-18	16-17	17-18
Science	N/A	N/A	N/A	N/A	N/A	N/A

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

Grade Level	2017-18 Percent of Students Meeting Fitness Standards

Students with Disabilities	22	22	100.00	0.00

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2018-19)

Parent involvement is a vital component of our school. DLAMP provides multiple opportunities for parent involvement from serving on the Charter Site Governance Council to assisting students in the lunchroom. Parents can serve on the English Language Advisory Committee, Parent Outreach Committee, and PTA. Our volunteer policy invites parents to assist in parent lounge, classrooms, on the playground, and in the lunchroom as well as providing opportunities to help with campus beautification and after school clubs and programs. DLAMP asks that all families commit to 30 hours of volunteer time per year to ensure an excellent experience for all of our students.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

The safety and well being of students and staff are high priorities for the Monterey Peninsula Unified School District and this school. Under Senate Bill 187, every school in the district is required to complete (or review and update) a School Safety Plan by March 1 of each year. The plan is reviewed and evaluated by the School Safety Planning Committee, the School Site Council, and the school principal before being presented to the Board of Education for final review and adoption. The approved plans are posted on each school's website, as well as the district website at www.mpusd.net.

Highlight's of this school's plan are detailed below.

The Dual Language Academy Comprehensive Safety Plan was last reviewed, updated and approved by the Site Governance Council on January 10, 2019. The plan was last reviewed by staff on January 7, 2019 as part of the staff re-orientation meeting. The Comprehensive Safety Plan identifies the primary and secondary personnel responsible for a variety of safety, security, and emergency response activities that can fluidly respond to a wide variety of emergencies. In addition, specific plans are identified detailing staff and student responses to several different types of emergencies from fire, to earthquake, to a hostile intruder. In addition, there is a schedule of drills to practice responding to several emergency situations so that staff and students are familiar with emergency response procedures. Finally there is a list of local and state resources to be contacted in case of emergency to ensure a maximum of resources to respond to an emergency situation.

Professional Development provided for Teachers

The Dual Language Academy has focused Professional Development around developing language acquisition teaching strategies (English and Spanish), by developing strong instructional strategies around five essential practices (1. Student engagement, collaboration and agency, 2. Clearly stated learning and language objectives, 3. Gradual release of responsibility, 4. Rigorous standards based instruction, and 5. Assessment and checking for understanding.) These two areas have been the focus as a result of an analysis of data collected through state and district tests in Language Arts (i-ready Measures of Academics in ELA, Dynamic Indicators of Basic Early Literacy Skills, and the SBAC). A second area of focus has been on social emotional development of students. Data has been collected true behavior data collected in illuminate, the Youth Truth Survey, and the PBIS Tiered Fidelity survey. Professional development is delivered via three avenues. On-site professional development is provided by expert teachers in a specific strategy or skill, more general professional development is provided by RJP partners, and teachers and staff are provided opportunities to attend professional conferences and then present to the staff on their learning from the conferences. Teachers are supported in implementing new learning Instructional Leadership Team, including a full-time academic coach, Family Service specialist and administration, through opportunities to observe each other, and by collaborating weekly during dedicated collaboration time on the data based results of their practice.

The California Department of Education issued guidance to LEAs on August 1, 2018, regarding how to calculate school-level per-pupil expenditures that will be reported on 2018-19 report cards.

Types of Services Funded

A majority of funding reported as districtwide costs is expended for school level expenditures, therefore the results appear to be lower operating costs at the school site level.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
