Ms. Kristin McDaniel, Human Resources Coordinator
Mr. Raymond Nekrasz, Director of Technology
Ms. Michelle Rapoza, Business Manager
Ms. Elaine Santos, Director of Pupil Personnel Services
Ms. Melissa Sousa, Executive Business Services

Macomber Elementary School
Prekindergarten - Grade Two
Dr. Cheryl Greeson, Principal

Westport Elementary School
Grades Three - Six
Ms. Stacey Duquette, Principal
Ms. Leah Chesney, Interim Vice Principal

Westport Junior Senior High School
Grades Seven - Twelve
Mr. Mitchel Aho, Principal
Ms. Karen Archambault, Vice Principal
Mr. Bryan Oliveira, Vice Principal
June 2019

Dear Westport Community:

We are very pleased to present the district improvement plan for the Westport Community Schools. This plan was established in consultation with the district and school-based leadership team and in alignment with the goals established in our long range strategic plan dated from 2017-2020.

We were very intentional in the development of this year’s plan with regards to areas of focus. This plan is developed consistent with the four standards that are identified in the Massachusetts Department of elementary and Secondary Education educator evaluation framework. In constructing this document in that format, we are conscientiously establishing a through-line between district goals, school goals, administrator goals and educator goals. It is our belief that this approach will help everyone in the district to be focused on the same priorities which we believe will have the greatest impact on improving outcomes for our students. In keeping with Westport rich boating history… we want all staff in the district rowing in the same direction!

Over the course of this school year, we will be working with members of the community to update our long-range strategic plan. Strategic plans are typically developed for a 3-5 year period and identify the long-term goals that the district intends to accomplish during that time period. District improvement plans are connected to the strategic planning document in that they identify what we plan to focus on during that particular year in order to help realize our long range goals. As we begin to work on our strategic plan, we will be reaching out to various members of the school community and the larger community of Westport for assistance with the establishment of the plan.

I am proud to be a part of this community and look forward to addressing this year’s goals.

Best,

Gary S. Reese, Ed.D.
Superintendent of Schools

**Vision**
Westport Community Schools is an exemplary 21st Century learning community whose graduates are empowered through an engaging, inspiring and personalized curriculum to meet the challenges of a global, complex, and changing world.

**Mission**
Westport Community Schools’ mission is to ensure that our children achieve academic and personal excellence, become lifelong learners and responsible, productive and engaged citizens of the world.

**Organizational Values**
The Westport Community Schools lives by the following values:

- **Pride** - We will be passionate champions for the Westport Community Schools.

- **Integrity** - We will be sincere in our adherence to ethical principles and do what is in the best interest of all we serve.

- **Respect** - We will demonstrate an appreciation for the value of all. We will foster an environment that is safe and nurturing for students and staff.

- **Responsibility** - We will take ownership for following through with our mission. We will expect staff, parents, students and community members to be accountable for their contribution to the educational process.

- **Achievement** - We will continually improve.

- **Communication** - We will seek the input of all our stakeholders; sharing information openly and honestly and expect the same of all stakeholders.
2019 - 2020 Goals and Action Steps

GOAL 1 (from Strategic Plan): Enhance the academic achievement for all students.

CONNECTION TO DESE FRAMEWORKS:
Standard I: Curriculum, Planning and Assessment
Standard II: Teaching all Students

**Performance Metrics - Impact of Goals**

A *metric* is a way in which organizations measure how well they are achieving their desired goals and working towards their vision. For the Westport Community Schools, we have established two overarching performance measures for this year as described below. These same metrics will also be considered when updating our long range strategic plan. If we are doing our job as a school system well, we should be able to quantify our improvements by these metrics. Connected to our overarching performance metrics are performance indicators. These indicators encompass the ‘smaller’ measures that will influence the district’s ability to achieve the overarching metric.

Each goal in our plan will have a direct impact on the performance metrics and indicators.

**Metric 1: To increase the success of our students in college and career preparedness as measured by the following indicators:**

- first to second year persistence (target: >90%)
- Obtained of first degree (target: >80%)
- Post-graduate surveys about career preparedness (to be developed)
- Next Generation MCAS performance:
  - Math/ELA: Increase the percentage of students meeting or exceeding expectations by 5%
  - Science/Technology (Legacy MCAS): Increase the percentage of students achieving a score of proficient or advanced by 5%
- Advanced Placement testing:
  - Increase the percentage of students taking at least 1 AP course/exam by 5%
  - Increase the percentage of students achieving a score of 3+ on AP tests by by 10%
- SAT testing:
  - Increase performance of students on Math portion by 10 points (556 for 2017-2018 school year)
  - Maintain performance of students on English portion (580 for 2017-2018 school year)
Metric 2: To increase the number of school-aged children residing in Westport that choose to attend the Westport Community Schools as measured by the following indicators:

- Decrease student attrition by 2%.
- Decrease the number of students that apply for school choice from Westport to attend school in another community by 3%.
- Analyze the in-district special education program offerings, thereby decreasing the number of students with disabilities who are placed in out-of-district programs. (target to be established)
