

Meads Mill Counseling Minute

February/March, 2019

Meads Mill counselors are working to support our students, parents, and staff.

Career Exploration and Postsecondary Education Planning

During the winter months, the school counselors are meeting with 7th and 8th graders to work on their state required Educational Development Plan (EDP). The EDP is a planning tool used for career exploration and postsecondary education planning for students. The Northville Public Schools provides every 7th and 8th grader a personal account to www.careercruising.com to create his/her EDP. Students will receive their login and can access this account online.

Middle School College Night for 8th Graders:

Schoolcraft College is again hosting its **Middle School College Night on Tuesday, March 5th from 4:30-7:00pm at the VisTa Tech Center** on their campus. This open house is an opportunity for 8th graders and their parents to learn about the college preparation process from different Michigan College and University representatives. More information about this event is available online at: <https://www.schoolcraft.edu/collegenight/middle-school-college-night>
