

**7<sup>th</sup> Grade Immunization Requirements**

**NOTICE OF INADEQUATE IMMUNIZATIONS**

Dear Parents of \_\_\_\_\_ Date \_\_\_\_\_

The California Health and Safety Code (3380-3390) requires that all children attending California schools must present written evidence of immunizations against diphtheria, whooping cough, tetanus, polio, measles, mumps, rubella, Hepatitis B and Varicella from a physician, health department or clinic.

Our records show that, as of this date, your child will need the following immunizations to enter 7<sup>th</sup> grade in the Fall:

**REQUIRED IMMUNIZATION(S):**

**Tdap**

(One dose of Tdap vaccine is required on or after the 7<sup>th</sup> birthday.)

**MMR**

(Two doses both on or after the 1<sup>st</sup> birthday.)

**Varicella**

(Two doses both for ages 12-17 years.)

**Hepatitis B**

(Three doses required.)

If you have records that show that your child's immunizations are up-to-date, please bring them immediately to school.

If your child does need these immunizations, you may obtain them at:

- Park Tree at The Pomona Health Center, 750 S. Park Ave. (909) 868-0270
- Park Tree Community Health Center, 1450 E. Holt Ave. (909) 630-7927
- East Valley Community Health Center, 1555 S. Garey Ave. (909) 620-8088
- Mission City Community Network Clinic, 1818 N. Orange Grove, Ste. 205 (818) 895-3100
- Your physician's office

If there is a medical reason for your child not to have the immunizations, we will need a statement from your child's physician.

Please comply with this legal requirement so that your child will not miss any school time. More importantly, you child needs to be fully protected from these diseases. If you have any questions, please feel free to call at 397-

Sincerely,

\_\_\_\_\_
