Suggested special events/activities:

More activities geared toward those interested in creative things like writing and art.

Q18 How happy are you with the choice of Mountain Oaks' extracurricular activities (like field trips, Academic Decathlon, Athletics, etc.)?

Slightly happy,

Comments:

I think there needs to be more interesting activities for the highschoolers, not just career exploration and Columbia college tours. I believe there would more interest in your programs if you got kids excited about them. I also think Mountain Oaks has lots of things available for kids interested in engineering and programming, but not a lot available for the more creative brains who like the arts and english. Not everyone has a science or math brain, some people like to design rather than calculate, and I think if you made programs geared more towards the artists and the writers as well as the builders, you would have much more interest :)
