STATEMENT OF BELIEFS

EDUCATIONAL PHILOSOPHY

It is widely recognized that the secondary school experience is a critical period in the intellectual, physical, psychological, and ethical development of the individual. Clearly, school is a major activity and a principal focus in the lives of adolescents. Accordingly, school must be a setting where a diversity of elements come together - educating, disciplining, nurturing - to create within the individual a readiness to assume the responsibilities of adulthood and citizenship. While it is true that educators must respond to these needs of the adolescent, it is equally true that the educational process has limitations; the school cannot do all things. Parents bear a responsibility for their children's education, and evidence abounds that the home atmosphere and community atmosphere powerfully affect how a youngster learns. However, parents and the community must sense that the educational system has an active, intrinsic interest in their children's welfare. In addition, the educational community must repeatedly demonstrate that it does not exist as a remote system operating for itself but as an institution for the benefit and betterment of the students, community, nation, and the world. Therefore, the school system, school board, administration, faculty and the support staff should make every effort to initiate and solicit cooperation from both the community and the parents to promote educational excellence and to develop emotional maturity in the adolescents entrusted to its care.

MISSION & VISION STATEMENT

Wabash City Schools provides a relevant and rigorous education, founded upon relationships, to ensure each student is happy and college and career-ready for success in a global community.

Wabash City Schools believes...

- all students are capable of learning and success and have a right to a quality world-class education.
- all students are prepared for college enrollment, military enlistment, or career employment upon graduation from Wabash City Schools.
- *college* is any training, credential or degree pathway leading to employment or a career.
- *career* is an occupation or profession requiring specialized skills and knowledge leading to a living wage.

At Wabash Middle School, we will accomplish this through...

- programming focused on core content, citizenship, and career exploration.
- instruction emphasizing thinking, communicating, and implementing.
- development of student mindset based on collaboration, adaptability, initiative, social responsibility, innovation, and accountability.

HIGH EXPECTATIONS AT EVERY GRADE LEVEL

Schools present the best opportunity, in partnership with parents and the community, for imparting the most advanced forms of thinking available in any society. Public schools grant every child the opportunity to acquire such thinking. The value of formal schooling is so great that simple fairness demands that we provide exemplary versions of it for every child.

Among the most important set of core assumptions that any society has concerns its goals and expectations for young people. As a society, we do share a set of common goals and expectations for our young. We hope that they are kind, decent, respectful, honest, fair, responsible, and competent.

Children are inspired when faced with challenging tasks. Children's self-regard is stimulated by the message that they must try harder to meet higher expectations. Schools and teachers are shirking their responsibilities if they do not advocate core standards such as honesty, respect, integrity, and the pursuit of excellence.

Children do best - intellectually, personally, morally - when they are striving for excellence. Any activity that encourages children to strive for excellence will enhance their motivation to learn and any instruction that shows them how to achieve excellence will advance their competence.

We must not underestimate a child's capabilities; if we do, we are limiting the child's potential for growth. We must provide our students with an environment that stimulates and maximizes intellectual and moral growth.

As a school system, we must guard against mediocrity becoming the norm. We must make certain that we are demanding maximum performance from every aspect of our organization. We must continually monitor and review our programs to make certain that yesterday's expectations are still today's expectations. We must impart an atmosphere that mediocrity will never be acceptable and that our pursuit of excellence will be relentless. This culture must start at the top. The Board must demand this of the Superintendent. The Superintendent must demand it of the administrators, the administrators of the teachers, and the teachers of the students. We will develop and maintain a culture that expresses our understanding that as we reach today's expectations, tomorrow's expectations will be even greater.

GENERAL INFORMATION

APPEAL PROCESS

In the course of a school year, an occasional dispute occurs between students and teachers or students and administrator. If parents wish to discuss or appeal a decision, the following order should be followed in an appeal process. The parent should discuss the issue with the teacher first (if the dispute occurred with the teacher), and then followed by the Principal. If the parent still has concerns, he/she can consult with the Superintendent. If after a discussion with the Superintendent an agreement is not reached, the parent has the option to appeal to the Board of School Trustees.

LUNCH & BREAKFAST PROGRAM

The school cafeteria is maintained as a vital part of the health program of the school. Students are encouraged to use this facility. All breakfasts and lunches must be eaten in the cafeteria. Information regarding free and reduced meals is available in the school office.

Wabash Middle School has a closed lunch period. All students are to remain on the school grounds during this time. Food deliveries may not be made to school without the prior approval of the administration.

The cafeteria implemented the Point of Sale System during the 2003-2004 school year. This allows students to keep money in their account. Our Point of Sale System does not distinguish between full pay, reduced, or free. Students are responsible to have money in their account, as needed.

DRESS CODE

Clothing must be appropriate and not a distraction to the educational process.

1. Clothing with vulgar, profane, and/or obscene language or artwork is not allowed. In addition, clothing which advertises alcohol, tobacco products, or illegal drugs is not allowed. This includes attire and accessories with suggestive or double meanings.
2. Footwear is required at all times. Soft-soled footwear, such as slippers, is not allowed.
3. Hats, hoods, sunglasses, and/or visors are not to be worn during the school day and must be stored in lockers during school hours.
4. Gang-related clothing, including bandannas, is not allowed and is considered grounds for suspension/expulsion.
5. Shorts, skirts, split skirts, and/or dresses must adequately cover the entire buttocks and upper thigh area. Wabash Middle School administrators will have the discretion of determining if shorts/skirts are long enough as to not distract from the education process.
6. Tight-fitting clothing made of spandex, Lycra, and similar material is not allowed. Similarly, "pajama pants" are not allowed. Leggings are only permissible if worn under other clothing, such as a long shirt or dress, that is at least mid-thigh level length.
7. Clothing with low necklines or clothing that is sheer, backless, strapless, or bare-midriff in design is not permitted. Tank tops and spaghetti strap tops are not allowed. Sleeveless tops must cover the entire shoulder (at least 3-inch width) and be tailored around the arm and armpit. It is important to note that clothing must be sufficient to conceal all undergarments and cleavage.
8. Winter coats are not allowed in the classroom, unless granted by the teacher.
9. Holes above the knees of jeans, pants, sweats, shorts, dresses, and or skirts are not acceptable unless permanently patched.
10. Waistlines for jeans, pants, shorts, and/or skirts must be at the hips and above the buttocks at all times. Clothing must be sufficient to conceal all undergarments.

If there is a question regarding a student's dress, the student will be allowed to call home in order to have a change of clothing brought to the school. If a parent cannot be reached, a clean article of clothing that corrects the violation will be loaned to the student until the end of the school day. Students that violate the dress policy may receive disciplinary action that may include, but is not limited to, after school detention, in school detention, Day Reporting or suspension.

BOOK BAGS

Book bags are to be placed in student lockers upon arrival to school and not carried from room to room. Gym bags may be carried to the gymnasium for PE classes, but must then be returned to the student's locker.

ELECTRONIC COMMUNICATION DEVICES

Students must leave all personal electronic communication devices turned off and in their locked locker during school hours, unless authorized to have them in class by a school administrator, teacher, or staff person. This includes, but is not restricted to cell phones, portable music devices, tablets, eReaders, and any other device capable of transmitting and/or receiving wireless data. The only exception is the possession of the school-distributed iPad. The school is not responsible for lost or stolen items. Any student violating this policy can have their privileges revoked and be subject to disciplinary action and/or confiscation of the electronic device.

FIELD TRIPS

On occasion, groups of students, classes, or an entire grade will take a school-sponsored field trip. Parent permission for such trips must be given in advance to the teacher in charge.

Students who may potentially be a discipline problem or who have been recently suspended for poor behavior may be excluded from participating in the field trip experience. The teachers and administration will make this decision jointly. Participation in field trips shall not excuse a student from academic obligations.

FIRE DRILLS

Fire drills are required to be done once a month in schools. Teachers will give instructions to students as to the safe exit route from each room. Emergency plans are posted in all classrooms.

LOCKDOWN DRILLS

Lockdown drills are required to be done one per semester. Teachers will give instructions to students as to the safe areas and requirements during the drill. Emergency plans are posted in all classrooms.

TORNADO DRILLS

Tornado drills are required to be done once a semester. Teachers will give instructions to students as to the safe areas to be occupied in the building during the drill. Emergency plans are posted in all classrooms.

INSURANCE

A student insurance policy is offered (at parent expense) at the beginning of each school year. The Board of Education does not retail health insurance for students injured at school or any place under the school auspices and cannot pay damages, hospital, or medical bills, regardless of the seriousness.

VALUABLES

Students are cautioned not to bring large amounts of money or anything of value to school. If students wear valuables or have them in their lockers, students need to keep track of them at all times. Students, not the school, are responsible for their personal property. The school cannot be held responsible for lost or stolen items. Locks are available in the front office for student use. Students are highly encouraged to use a lock to safeguard items of value and to not share the lock combination with others. If it is necessary to bring valuables or extra money to school, students are urged to bring these items to the office for safekeeping. While in gym classes, students should leave their valuables in their locked locker.

VISITORS

Parents, guardians, and school patrons are encouraged to visit the school at any time. Visitors are required to report to the school office upon arriving to sign in and out and retain a visitor's badge. Students from other schools (unless sponsored by a school) or friends will not be given visitation privileges.

VOLUNTEERS/CHAPERONES FOR WABASH CITY SCHOOLS

For the safety of our children, a background screening report is required for anyone working with our students in any area. This includes chaperones for field trips as well as school volunteers. This report including information concerning arrest data, police record, and motor vehicle records may be obtained in connection with your application as a volunteer with Wabash City Schools. Verification of address, social security numbers, aliases, county, state, and national criminal history records and the sex offender registry may be checked. Theft records may also be obtained. An investigative report may be obtained at any time during the application process or during your volunteer status with the Wabash City Schools. Upon timely written request to Wabash City Schools, and within 5 days of the request, the name, address, and phone number of the reporting agency and the nature and scope of the investigative report will be disclosed to you.

Before any adverse action is taken, based in whole or in part of the information contained in the report, you will be provided a copy of the report, the name, address and the telephone number of the reporting agency, as well as additional information on your rights.

WEATHER ANNOUNCEMENTS

If it becomes necessary to close/delay school for any reason, the announcement will be made by our messenger calling system, over various local radio stations, and on the Wabash City Schools website. Please do not call the school or radio stations. If there is no report from the above communication methods, it can be assumed that school is in session.

WORK PERMITS

Students are required by their employer to have a work permit. Work Permits may obtain through the high school office.

BUS TRANSPORTATION

There is bus service available for any middle school student living within the District. The buses will not pick up or deliver students to their homes. Instead the buses will stop at designated areas and each student is to report to the nearest area. No student is required to ride on the bus and those students choosing to ride need to keep in mind that riding the bus is a privilege and not a requirement.

In order that this bus service can be run efficiently and with a minimum of hazards, the students are asked to respect the following bus rules and regulations:

1. Students are expected to be on time for the bus in order to permit the bus to follow the time schedule.
2. At bus stops, students are to stay out of the street until the bus has come to a complete stop and the driver has opened the door and directed the students to enter. Roughhousing at the bus stop will not be tolerated.
3. Bus drivers have the right to assign students to a specific seat and to expect conduct of students the same that is required in a classroom.
4. Upon entering the bus, students are to go to their seats without disturbing, crowding, or pushing other students and remain seated while the bus is moving.
5. Students are to sit quietly in their seats until the bus stops to unload and the driver signals the students to leave their seats. Loud voices will not be tolerated.
6. Students should remain particularly quiet when the bus is nearing a railroad crossing so that the driver can hear any approaching train. This is extremely important.
7. Students must obey the driver promptly. The driver has a great responsibility and it is everyone's duty to help.
8. The buses will be kept clean and sanitary. No eating or drinking of food or beverages, i.e. candy, ice cream, pop is permitted on the bus during regular hours. Any exceptions need to have arrangements made ahead of time with the driver and teacher.
9. When there is a need to open windows on the bus, the instructions of the driver are to be followed.
10. Heads, arms, hands, or any objects must be kept inside the bus at all times.
11. The rear or side exit door of a bus is to be used only in the case of an emergency.
12. No objects are to be thrown from the bus.
13. There is to be no smoking on the school buses.
14. The use of profane or obscene language will not be permitted on school buses.
15. Large or heavy objects can only be carried on the bus with prior permission from the bus driver. The aisle in the bus is to remain free and clear for any exits.
16. Bus equipment should be treated as you would valuable furniture in your home. At all times students should take care that they do not damage the bus. Any verified damage done by a student to the outside or inside of a school bus would be the responsibility of the parent to pay.

No different than discipline in the school classroom, discipline on the school bus is for the safety of the student, driver, and any other driver on the highway, street, etc. Inappropriate behavior on the school bus will not be tolerated. A student can lose riding privileges with inappropriate behavior. Bus service is offered as a privilege. It is the parent's responsibility to make sure their child is aware of and understands the importance of the safety rules when riding the school bus.

Information will be given to your child at the beginning of the year by the bus driver, or made available at the time you register your child for enrollment. This information needs to be covered by the parent with their child(ren). Parents: it is extremely important that any emergency information be on file and current

with the school and/or driver in case of an unexpected emergency. As this information changes, please inform the school in which your child is enrolled.

Students are expected to practice all safety issues while at a bus stop. The building principal or teacher will handle any reported discipline problems at the bus stop with the student(s) involved. Damages to property at bus stops will not be tolerated and will be reported to the administration office or the local police department. If you have questions, please contact your building principal.

LOCKERS

Statement of Policy

All lockers made available for students on the school premises, including lockers located in the hallways, physical education and athletic dressing rooms, industrial arts classrooms, and the art classrooms, are the property of the school corporation. These lockers are made available for student use at school, but the lockers are not to be used to store items which cause, or can reasonably be foreseen to cause an interference with school purposes or an education function, or which are forbidden by state law or school rules.

The student's use of the locker does not diminish the school corporation's ownership or control of the locker. A student using a locker in the school is presumed to have no expectation of privacy in that locker or its contents.

The school corporation retains the right to inspect the locker and its contents to insure that the locker is being used in accordance with its intended purpose, and to eliminate fire or other hazards, maintain sanitary conditions, attempt to locate lost or stolen materials and to prevent use of the locker to store prohibited or dangerous materials such as weapons, illegal drugs, or alcohol.

Locker Rules

In order to implement the school corporation's policy concerning student lockers, the School Board adopts the following rules and regulations:

1. Locks

The school corporation retains the right of access to all student lockers. Students using their own lock are required to provide a master key or combination to the office. Any unauthorized lock may be removed without notice and destroyed. It is suggested that students leave a spare key or combination on file with their homeroom teacher in case a key is left at home.

2. Use of Lockers

Lockers are to be used to store school supplies and personal items necessary for use at school. Lockers shall not be used to store "contraband" which is items that cause, or can reasonably be foreseen to cause an interference with school purposes or an educational function. Items, which are forbidden by, state law or school rules include, but are not limited to the following:

- a. All medications, doctor prescribed or other, and drugs not available over the counter.
- b. Drug paraphernalia
- c. Beverage containing alcohol
- d. Weapons
- e. Volatile substances
- f. Bomb or explosive device
- g. Any acid or pungent or nauseous chemical
- h. Library book not checked out or overdue
- i. Stolen items

3. Authority to Inspect

The school corporation retains the right to inspect lockers to insure they are being maintained in accordance with the conditions of Rule No. 2. The principal shall conduct all inspections of student lockers or a member of the administrative staff designated in writing (hereinafter referred to as "designee") by the principal. The principal may give any school employee or law enforcement official authority to inspect lockers.

4. Inspection of Individual Students' Lockers

- a. The inspection of a particular student's locker will not be conducted unless the principal or his designee has a reasonable suspicion to believe that the locker to be inspected contains contraband.
- b. Before a particular student's locker is inspected, the student (or students if more than one have been assigned to a locker) if present on the school premises, shall, where possible, be contacted and given the opportunity to be present during the conducting of the inspection. The inspection may be conducted without delay in order to protect the health and safety of

others present on school premises. Whenever an individual student's locker has been inspected under this rule without the student's presence, the principal or designee shall notify the student of such inspection as soon as practicable thereafter.

5. Inspection of All Lockers

- a. An inspection of all lockers in the school, or all lockers in a particular area of the school, may be conducted if the principal, or superintendent reasonably believes that such an inspection is necessary to prevent, impede or substantially reduce the risk of (1) an interference with school purposes or an educational function, (2) a physical injury or illness to any person, (3) damage to personal or school property, or (4) a violation of state law or school rules. Examples of circumstances justifying a general inspection of a number of lockers are: (a) When the school corporation receives a bomb threat; (b) When evidence of student drug or alcohol use creates a reasonable belief of a high level of student use; (c) At end of grading period, and before or during school holidays to check for missing library books, or lab chemicals or school equipment; (d) Where student violence or threats of violence creates a reasonable belief that weapons are stored in the lockers.
- b. If a general inspection of a number of lockers is necessary, then all lockers in the defined inspection area will be examined. Students will not necessarily be given the opportunity to be present while a general inspection is being conducted.

6. Involvement of Law Enforcement Officials

- a. The principal or superintendent may request the assistance of law enforcement officials to assist them in the inspection of lockers or their contents for purposes of enforcing school policies only if such assistance is required:
 - i. To identify substances, which may be found in lockers; or (2) To protect the health and safety of persons or property, such as to aide in the discovery of disarming bombs which may be located in the lockers.
- b. If a law enforcement official requests to inspect a student's locker or its contents, the principal shall require production of a search warrant before allowing the inspection.
- c. If a law enforcement official requests the principal to make an inspection of a locker or its contents on behalf or in the place of such official, the request shall be denied. However, upon the request of law enforcement officials, the school officials may secure the locker and its contents for a reasonable period of time in order to permit the law enforcement official an opportunity to obtain a search warrant.
- d. Nothing herein shall, however, limit or prevent the inspection of student lockers by the school corporation.
- e. If a law enforcement official wishes to question a student: 1) it will be at the discretion of a building level administrator; 2) an administrator will be present during the questioning; 3) the law enforcement official may not question any student who is a suspect in the case without a court order.

7. Locker Maintenance

Nothing in these rules shall affect members of the custodial or other staff who repair defective lockers or clean out or supervise the cleaning out of (a) lockers from time to time in accordance with posted general housekeeping schedule, (b) the locker of a student no longer enrolled in the school, (c) a locker during any vacation period which is reasonably believed to contain rotting items such as food, wet clothes, etc.

SMOKE FREE ENVIRONMENT

In the interest of providing a safe, healthy environment for students, staff, and visitors to Wabash City Schools, the following policy on smoking has been adopted: All school buildings and school grounds of the Wabash City Schools are designated as tobacco and smoke free. This includes e-cigarettes and any other form of vaping or electronic devices.

ACADEMIC POLICIES

HOMEWORK POLICY

Homework contributes toward building responsibility, self-discipline and lifelong learning habits. It is the intention of the Wabash Middle School staff to assign relevant, challenging and meaningful homework assignments that reinforce classroom-learning objectives. Homework should provide students with the opportunity to apply information they have learned, complete unfinished class assignments, and develop independence. To this end, Wabash Middle School follows a “no zero” grade policy where students are not allowed to take a zero on any graded activity or homework. When a student misses any homework they will automatically be assigned to serve a homework club per the teacher’s classroom policy. Failure to complete the missing homework in the allotted time can result in receiving half credit and progressive disciplinary action. Students must follow each grade level team’s homework completion policy.

GRADING SCALE

Nine week grades will be assigned to students according to the grading scale below.

12 Point Scale	Letter Grade	Percentage
12	A+	97 – 100%
11	A	93 – 96%
10	A-	90 - 92%
9	B+	87 - 89%
8	B	83 – 86%
7	B-	80 – 82%
6	C+	77 – 79%
5	C	73 – 76%
4	C-	70 – 72%
3	D+	67 – 69%
2	D	63 – 66%
1	D-	60 – 62%
0	F	Below 60%

Students’ semester grades are based on the **percentage earned** for each nine weeks and the semester exam, not on the letter grade assigned. The student’s semester grade will be computed using weights of 50% for each nine weeks. For example:

First nine week’s grade	86%
Second nine week’s grade	78%
Semester Average	82%

All semester grades are given a point value ranging from 12 to 0 for the purpose of calculating the student’s grade point averages (GPA). Please note that students taking courses at Wabash High School may follow a different grading calculation with regards to final exam grade weight and calculating semester average. Please reference the Wabash High School Student Handbook or the course syllabus.

MIDDLE SCHOOL STUDENTS TAKING HIGH SCHOOL CREDIT COURSES

Wabash Middle School students are eligible to take high school courses for high school credit, both at the middle school and at Wabash High School. In courses earning a student high school credit, students must pass the course in order to receive high school credit. We encourage students to remember that passing is not simply a D- or higher, but what will allow them to meet the requirements of their anticipated diploma goals. Some Core 40 diploma courses require a grade of a C or better. The decision for a student to retake a high school credit course to improve their grade is based on teacher, parent, and high school guidance counselor discretion. Grades and credits will be included on the student’s high school transcript and factored into the cumulative GPA.

ACADEMIC DISHONESTY/CHEATING POLICY

It is very important that parents and students understand the expectations for academic honesty. Wabash Middle School defines Academic Dishonesty as “a student’s use of unauthorized assistance with intent to deceive an instructor”. All student work should be the original work of the student. No copying or plagiarism is acceptable; this includes self-plagiarism. If quoting others in academic material, students must cite their sources. All students must follow individual teacher test rules for what is allowable. This ensures that a student’s success is based on honesty and their own work. If a student breaks these rules and is in violation of the Wabash Middle School Academic Honesty/Cheating Policy, they will be subject to the

appropriate discipline.

Wabash Middle School considers cheating or academic dishonesty a serious violation of school rules. Each student is expected to be responsible for his or her own work. Examples of academic dishonesty/cheating include but is not limited to:

1. Copying assignments or allowing another student to copy your assignment.
2. Taking a test/quiz for another student (for example, AR reading tests).
3. Looking at another student's test or quiz or allowing another student to look at your test or quiz.
4. Sending, receiving, or using information or any electronic device, such as a computer, cell phone, PDA, graphing calculator or programmable watch, during a test or quiz unless authorized by the teacher or administration.
5. Possession or use of unauthorized materials obtained from any source, including notes written on body parts or clothing during a test/quiz.
6. Talking, signaling, and/or passing information during a test or quiz.
7. Changing an answer after work has been graded, then presenting it as improperly graded.
8. Sharing answers on a take-home exam, or asking or allowing another student to take an examination for them.
9. Obtaining or seeing a test, quiz, or answer key before the test without the teacher's permission.

ATTENDANCE POLICY

ATTENDANCE GUIDELINES

The school day begins when the school doors open at 7:50 a.m. Classes begin at 8:35 a.m. The school day ends at 3:35 p.m., and students should exit the building as quickly thereafter as they can unless they have business in the building.

Attendance in a classroom is a very important aspect of a student's education. Excessive absences reduce the amount of daily interaction with teachers and other students. Minimum standards of attendance in individual classes have been set with an appeal process at the student's request to review violations of this minimum. This includes Wabash Middle School students attending Alternative School

1. A student absent from school must have a parent or guardian call the school by 9:00 a.m. the day of the absence and each subsequent day of absence. The caller must give the reason for the student's absence and the attendance secretary may record the call.
2. Absences will be considered on a period-by-period basis. Wabash Middle School defines a half-day absences as missing three (3) periods.
3. Students may be disciplined with detentions, suspensions, and other suitable means when parents or guardians are not aware of absences from school.
4. If a student is absent five (5) or more consecutive days because of illness, a "reinstatement slip" from a doctor will be required.
5. Students who wish to participate in extra-curricular or co-curricular events must be in attendance at school throughout the day on the day of the event. This includes athletic participation, dances, or any school sponsored events. Exceptions may be made if the building administrator deems it in a student's best interest to be absent for part or all of the day for medical, dental appointments, etc. Verification of such absences will be provided by the student prior to participation in after school events.

TYPES OF ABSENCES

Excused Absences

Indiana law (IC 20-33-2-14 through 20-33-2-17.7) states that the following absences are to be considered excused:

Wabash Middle School considers the following absences to be excused under the following circumstances:

1. College visits (maximum of two per year; must be pre-arranged)
2. Illness of a student verified by parent phone call. Custodial parents/guardians may verify an illness by phone until the student has been absent for any reason for five (5) days per semester and ten (10) days per school year. After that, illnesses must be verified with a note signed by a physician.
3. Funeral of a family member (defined as parents/step-parents, siblings/step-siblings, grandparents/step-grandparents, great-grandparents, aunts/uncles/cousins, and/or anyone whose primary residence is with the student). Only the day of services is considered excused.

A student is considered to be unexcused if they are absent from school or an assigned area without a legitimate reason or if a parent/guardian fails to notify the school by 10:00 a.m. on the day of the absence.

Disciplinary Consequences for Absenteeism (per semester)

6th Absence: ½ Day Saturday School (8am-11am)

7th Absence: 1 Day Saturday School (8am-2pm) / Schedule attendance mediation with parent/guardian

8th Absence: 2 Days Saturday School (8am-2pm) / Schedule attendance mediation with parent/guardian

Truancy (No call, no show)

The definition of truancy is any student absent from school, or assigned area, without the permission of a parent/guardian or absences from an assigned area without a legitimate reason. A student will also be considered truant if he/she leaves a class, a school-sponsored activity and/or the building without permission of school authorities. Student safety is high priority. Therefore, in the event of a “No call, no show” the school SRO and necessary school administration will be contacted in order to perform a home visit to ensure student safety and well-being.

Disciplinary action for truanancies will be determined according to the following:

- 1st Offense 1 day ISD and conference with parent
- 2nd Offense 1 day DRP and referral to Attendance Officer for possible charge of Habitual Truancy
- 3rd Offense 3 days DRP and referral to Attendance Officer for charge of Habitual Truancy
- 4th Offense 5 days DRP and recommendation for expulsion

PRE-ARRANGED ABSENCES

Students must be in school to derive the maximum benefit from their educational experience. Parents wishing to request a pre-arranged absence for a student should contact the attendance office at least 24 hours in advance. Teachers will then be notified through the office of a student's pre-arranged absence. This notification must be early enough to allow teachers time to prepare and deliver to the student all work to be missed. The student must then complete and return all his/her work upon returning to school.

MAKE-UP WORK

It is the student's responsibility to be aware of the number of absences, the dates and reasons for the absence, and to see that arrangements are made with the classroom teachers so class work is made up before leaving school in the case of pre-arranged absences or upon returning to school if the absences are excused.

Upon returning from an absence, the student should check with all of his/her teachers as to his/her make-up work. A student will be given the same number of days to make up the work missed that he/she was absent, unless other arrangements are deemed necessary.

INCOMPLETE WORK

A student whose work is incomplete at the close of the semester will be granted, through his/her teacher, a maximum of two weeks after the close of the semester to make up a satisfactory completion of that work. Failure to complete the work within that time will cause the grade to be recorded as a failure and the student may be required to repeat the course for credit.

LEAVING SCHOOL

Should a student have good cause to leave school during the day, he/she must report to the office along with parent permission before leaving the building and sign out. Students failing to do so will be considered truant and treated accordingly.

PERFECT ATTENDANCE CERTIFICATE

In order to be eligible for the perfect attendance certificate, a student may not miss any class unless the student is participating in an EXEMPT activity.

TARDIES TO SCHOOL/CLASS

Tardies will be determined and recorded using the following guidelines:

1. Passes sent by a teacher or the office will not count as a tardy.
2. Tardies are accumulated cumulatively per semester, not per class.
3. Students arriving at school after 8:35 a.m. should report to the office to sign in and clear their attendance before 8:45am should report directly to their first period class.
4. Students arriving after 10:30 a.m. will be considered ½ day unexcused and will follow the unexcused absence discipline policy.
5. Per the Wabash Apache Athletic Student Handbook, students arriving tardy to school after 9:05am will not be eligible to participate in afterschool athletic events (including practice).

Disciplinary action for tardies will be determined according to the following:

- 1 to 5 tardies will be considered warnings.
- 6 tardies will result in 1 ASD
- 7 tardies will result in 2 ASD
- 8 tardies will result in 3 ASD
- 9 tardies will result in 1 Friday detention until 6:00
- 10 tardies will result in 1 Saturday School, 8am – 11am

Driving and Parking Regulations

Wabash Middle School students are not allowed to drive to school.

Public Display of Affection

Wabash Middle School students should not kiss or engage in any other inappropriate affectionate behavior during school, on school grounds, or at any school function.

Restricted Areas

At no time are bicycles or skateboards to be ridden at the school.

Vaping, Smoking, and Tobacco Policy

Students are not to have vaping devices or tobacco products in their possession at school. School personnel will confiscate such products, which are visible or obvious. A reasonable suspicion search will be conducted if the student is thought to be in possession or hiding such products. Vaping products include JUULs, vape mods, vape pens, e-cigarettes, and any other device designed to deliver vaping liquids/products. Along with any tobacco related discipline, students will be given the opportunity for referral to the Wabash County Tobacco Free Coalition's Tobacco Education Group. This is an attempt to provide an effective intervention strategy for students caught using tobacco. It may also provide, with administrative approval, a positive alternative to suspension.

All expulsions will be for the remainder of the semester regardless of when the violation takes place. The school ground boundaries are defined as follows: North, Harrison Street; West, Alber Street; South, Charlie Creek and East, Miami Street to Colerain Street and the chain link fence from Harrison Street toward Colerain Street. School property includes the woods that border the faculty parking lot on the east. The use of tobacco products will be effective between the hours of 7:00 AM and 4:30 PM, at all school functions, and during the times school is in session. Students should note that the school grounds include all parking lots.

CYBERBULLYING

The Wabash City Schools Board of Education has provided every Wabash Middle School student a MacBook laptop computer for a 1:1 computing initiative. As part of this initiative, all Wabash Middle School students and staff have access to and utilize the district's computer networks. All computers, their network and the Internet, whether accessed on campus or off campus, during or after school hours, may not be used for the purpose of harassment of any kind. All forms of harassment over the Internet, commonly referred to as cyberbullying, are unacceptable and viewed as a violation of this policy as well as the School's acceptable computer use policy and procedures.

Wabash City Schools is committed to providing a learning environment that is free from cyberbullying. It is a violation of policy for any student to engage in cyberbullying, or for any employee of Wabash City Schools to condone or fail to report acts of cyberbullying that they witness or become aware of on school grounds and property, at school sponsored and school related activities, functions or programs, whether on or off school grounds, on school buses or other vehicles owned, leased or used by the school district or through the use of technology or an electronic device owned, leased or used by the school district.

It is also a violation of policy for any student or employee to engage in cyberbullying at a location, activity, function or program that is not school related, or through the use of technology or an electronic device that is not owned, leased or used by the school district, if the cyberbullying creates a hostile environment at school for the victim, infringes on the rights of the victim at school, or materially and substantially disrupts the education process or orderly operation of the school, as determined by school administrators.

Malicious use of the District's computer system is also prohibited. Users are responsible for the appropriateness of the material they transmit and receive over the system. Hate mail, harassment, discriminatory remarks, or other antisocial behaviors are expressly prohibited.

Cyberbullying includes, but is not limited to the following misuses of technology or any electronic communication: harassing, teasing, intimidating, threatening, or terrorizing another person by sending or posting inappropriate and hurtful e-mail messages, instant messages, text messages, facsimile, digital pictures or images, or Website postings, including blogs. It is also recognized that the author, poster or sender, of the inappropriate material is often disguised or logged on as someone else.

Cyberbullying is further recognized as including the use of a computer or computer network by a student to intimidate or torment a school employee. These actions can include but are not limited to: building a fake online profile or website; posting or encouraging others to post on the Internet private, personal or other information pertaining to a school employee; posting a real or doctored image online of the school employee; accessing and altering or erasing any computer network, computer data, computer program or computer software, including breaking into a password-protected account or stealing or otherwise accessing passwords; using a computer for repeated, continuing, or sustained electronic communications, including electronic mail or other transmissions to a school employee; signing up a school employee for websites, electronic mailing lists, instant messages or other web services without the employees permission or with the intent to intimidate, torment or harm the employee; make a statement, whether true or false, intending to immediately provoke or is likely to provoke, any third party to stalk or harass a school employee; copy and disseminate unauthorized data, in any form, pertaining to a school employee for the purpose of intimidating or tormenting them.

It is the responsibility of every student, parent and employee of the school district to recognize acts of cyberbullying. Students and community members who believe they have been the victims of such misuses of technology, as described in this policy, should not erase the offending material from the system. A copy of the material should be printed and brought to the attention of the school administrator.

The administration shall fully investigate all reports of cyberbullying.

In situations in which the cyberbullying originated from a non-school computer, but brought to the attention of school officials, any disciplinary action shall be based upon whether the conduct is determined to be severely disruptive to the educational process so that it markedly interrupts or severely impedes the day-to-day operations of a school. Such conduct includes, but is not limited to, threats made on or off school grounds, to kill or hurt a staff member or student.

Disciplinary actions for violating the policies mentioned above may include, but are not limited to: counseling within the school, parental conference, the loss of computer privileges, detention, suspension, Day Reporting, exclusion from school sponsored activities, counseling outside of school, expulsion, or referral to law enforcement officials for verified perpetrators of cyberbullying. In addition, when any kind of threat is communicated or when a hate crime is committed, the administration will report such crimes to local law enforcement officials.

- a. Wearing any type of dress, apparel, jewelry, accessories, manner of grooming which, by virtue of its color, arrangement, trademark, symbol or any other attribute, indicates or implies gang membership or affiliation with such a group.
- b. Any conduct involving initiation, hazing, intimidation, threatening of other persons and/or related activities of such group affiliations that are likely to cause bodily danger, physical harm, or personal degradation or disgrace resulting in physical or mental harm to students, staff, and to the educational process as a whole.

Procedures for (1) Reporting suspected criminal gang activity, (2) Prompt investigation of suspected criminal gang activity

Per IC 20-33-9-10.5, a school employee shall report any incidence of suspected criminal gang activity, criminal gang intimidation, or criminal gang recruitment to the administration and/or the school safety specialist. The administration and/or the school safety specialist may take appropriate action to maintain a safe and secure school environment, including providing appropriate intervention services.

Appropriate consequences and remedial actions are those that are graded according to the severity of the offenses and consider both the developmental ages of the student offenders and students' histories of inappropriate behaviors, per the school handbook and/or the student code of conduct.

Any corporation and/or school employee who promptly reports an incident of suspected gang activity and who makes this report in compliance with the procedures of this policy, is immune from a cause of action for damages arising from any failure to remedy the reported incident.

The principal or designee shall conduct a thorough and complete investigation for each report of suspected gang activity. The investigation shall be initiated by the principal, or the principal's designee, within one school day of the report of the incident. The principal may appoint additional personnel and request the assistance of law enforcement to assist in the investigation for the administrator's safety. The investigation shall be completed and the written findings submitted to the principal as soon as possible, but not later than five school days from the date of the report of the alleged incident of criminal gang activity.

The principal shall submit the report to the superintendent of the school corporation within ten (10) school days of the completion of the investigation. The superintendent or his/her designee shall report the results of each investigation to the board of education on a quarterly basis during regularly scheduled board meetings.

Each school within the school corporation shall record the number of investigations disposed of internally and the number of cases referred to local law enforcement, disaggregated by race, ethnicity, age, and gender. Each school shall report this information to the school corporation superintendent who shall submit a written report to the Indiana Department of Education by June 2 of each year.

The principal shall provide the parents of the students who are parties to any investigation with information about the investigation, in accordance with Federal and State law and regulation. The information to be provided to parents includes the nature of the investigation, whether the corporation found evidence of criminal gang activity, and whether consequences were imposed or services provided to address the activity. This information is to be provided in an expedited manner.

The superintendent of the school corporation is authorized to define the range of ways in which school staff and the principal or the principal's designee shall respond once an incident of criminal gang activity is confirmed, according to the parameters described in the corporation's code of student conduct. The school board recognizes that some acts of gang activity may be isolated incidents requiring that the school officials respond appropriately to the individuals committing the acts. Other acts may be so serious that they require a response either at the school corporation level or by local law enforcement officials. Consequences and appropriate remedial actions for a student who engages in gang activity may range from positive behavioral interventions up to and including suspension or expulsion.

The principal shall proceed in accordance with the code of student conduct, as appropriate, based on the investigation findings. As appropriate to the investigation findings, the principal shall ensure the code of student conduct has been implemented, and provide intervention and/or relevant support services (i.e., refer to counseling, establish training programs to reduce gang activity and enhance school climate, enlist parent corporation and involvement or take other appropriate action). The principal shall inform the parents of all students involved in alleged incidents, and, as appropriate, may discuss the availability of counseling and other intervention services.

The superintendent of the school corporation shall annually disseminate this policy to all parents who have children enrolled in a school within the school corporation. The superintendent shall ensure that notice of

the corporation's policy appears in the student handbooks and all other publications of the school corporation that set forth the comprehensive rules, procedures and standards for schools within the school corporation.

Information about available supports and services shall be consistent with the policies and procedures of the Wabash City Schools Board of School Trustees. Types of support services can include but are not limited to:

1. Gang awareness education (for students, parents, school faculty/personnel, law enforcement, and community stakeholders) that shows promise of effectiveness based on research.
2. Culturally and/or linguistically appropriate services/supports for parents and families.
3. Counseling coupled with mentoring for students and their families.
4. Community and faith-based organizations and civic groups.
5. Viable, sustainable after-school programs developed in collaboration with other stakeholders.
6. Job training and employment opportunities as both a deterrent to gang involvement and an incentive to leave gang involvement.
7. School sanctioned/facilitated extra-curricular activities.

Recommendations concerning criminal gang prevention and intervention services and programs for students that maximize community participation and the use of federal funding

These following recommendations are presented as a guide that by no means limits Wabash City Schools from collaboration with community stakeholders to provide additional services. Wabash City Schools encourages collaboration with stakeholders to provide gang prevention and intervention services and programs according to the policies and procedures of Wabash City Schools Board of School Trustees.

1. Provide training for staff and teachers on gang prevention and intervention resources within a jurisdiction on a periodic basis. The gang awareness information should be revised and updated regularly to reflect current trends in gang activity.
2. Create formalized collaboration plans between local school administration and community based prevention and intervention providers (possibly using the existing County Safe School Commissions as points of contact). The formalized collaborations should make effective, coordinated, and maximized use of federal funding a priority.
3. Coordinate resources and funding opportunities to support gang prevention/intervention activities.
4. Integrate School Resource Officer Programs when available.
5. Consider utilizing the Gang Resistance Education and Training (G.R.E.A.T.) Program as part of student curriculum.

EXTRA-CURRICULAR

EXTRA-CURRICULAR ATHLETIC PARTICIPATION POLICY

It is realized that participation in extra-curricular activities is an integral part of the total educational process. Every effort is made to allow children the opportunity to participate in a variety of school related extra-curricular experiences. Due to the magnitude of programs, it is not always possible for a child to participate in all activities desired. Many students are forced to make a choice. It is the responsibility of the coaches of the various activities to make cooperative efforts to allow student participation in more than one area.

The following guidelines have been established for middle school extra- curricular participation.

1. Any activity where grades are given, takes precedence over any other activity (For example, scheduled choral and band performances)
2. A person can participate in more than one sport at a time during that season if they fill out a multi-sport contract.
3. Cheerleading presents a unique situation. Their commitment actually runs throughout the entire school year rather than a specific season. Every effort will be made by coaches to allow these individuals participation in a seasonal sport in addition to cheerleading.

In all instances, the order of participation will be as follows:

1. Performances take precedence over any game or practice.
2. Game (playing or cheerleading) takes precedence over any practice.
3. Practice conflicts are to be worked out by coaches/teachers. This must be without carryover penalty for absence due to policy.

WITHDRAW OF EXTRA-CURRICULAR PRIVILEGES

Attendance, participation in, and use of facilities in extracurricular activities such as athletic activities, non-credit school activities, or school provided transportation is a privilege and not a right. Any time a student conducts himself or herself in a manner which is in violation of any rules or regulations of Wabash City Schools, including misconduct detailed in the Wabash Student Handbook, or in any other manner conducts himself or herself in a manner that reflects discredit upon his or her school or creates a disruptive influence on the discipline, good order, moral or educational environment in the school or school corporation or in any manner affects the safety or health of any person in any manner connected with the school or school corporation, the student's principal shall make an investigation of the circumstances involved in such incident. An oral or written statement of the charges against the student shall be made by the said investigator and, if the student denies the charges a summary of the evidence against him or her shall also be presented to said student. The student shall always be given the opportunity to present his or her position in oral or written form.

Following such procedures, the principal may withdraw from such student the privilege of attendance, participation in, and/or use of facilities in any or all extra-curricular activities and shall do so if it is determined that such withdrawal is necessary to help the student, or it prevents an interference with the educational function or school purpose. If such investigation and hearing cannot precede such withdrawal, the investigation and hearing shall be conducted as soon as practicable. After such determination and within twenty-four (24) hours, or such additional time as is reasonably necessary, the principal withdrawing such privilege(s) shall mail to the student's parent, a statement describing the student's conduct, misconduct or violation of rule or standard and the reasons for the action taken. If the parent requests to do so within five (5) days after receiving such statement, the principal withdrawing such privilege(s) shall meet and confer with the parent. The length of time of such withdrawal of privilege(s) shall be at the discretion of the principal, but such shall be done with a sense of fairness.

EXTRACURRICULAR ACTIVITIES & STUDENT DRIVER DRUG TESTING PROGRAM

A statement of need and purpose

A program of deterrence will be instituted as a pro-active approach to an alcohol and drug free school. Through driving or participation in extra curricular activities, students using illegal drugs pose a threat to their own health and safety, as well as to that of other students. The purpose of this program is three fold:

1. to provide for the health and safety of students;
2. to undermine the effects of peer pressure by providing a legitimate reason for students to refuse to use illegal drugs; and
3. to encourage students who use drugs to participate in drug treatment programs.

Students involved in athletics and extracurricular activities need to be exemplary in the eyes of the community and other students. It is further the purpose of this program to prevent students from driving to and from school or participating in athletics and extracurricular activities while he/she has drug residues in his/her body, and it is the purpose of this program to educate, help, and direct students away from drug and alcohol abuse and toward a healthy and drug-free lifestyle. The program is non-punitive. It is designed to create a safe, drug and alcohol free, environment for students and assist them in getting help when needed. No student shall be expelled or suspended from school as a result of any verified “positive” test conducted by his/her school under this program other than stated therein.

Introduction

The effective date of this program is June 17, 2002. This program does not affect the current policies, practices, or rights of Wabash City Schools with drug and/or alcohol possession or use, where reasonable suspicion is obtained by means other than drug testing through this program. Wabash City Schools reserves the right to test any student who at any time exhibits cause for reasonable suspicion of drug and/or alcohol usage.

Reasonable Concern

Wabash City Schools has a strong commitment to the health, safety and welfare of its students. Our commitment to maintaining the extracurricular activities in Wabash City Schools as a safe and secure educational environment requires a clear policy and supportive programs relating to detection, treatment, and prevention of substance abuse by students involved in extracurricular activities.

Supporting Data

Random urine drug testing of a public school interscholastic athlete is legal as determined by the United States Supreme Court in the case of *Veronia School District 47J (Oregon) v. Acton* and the Indiana Supreme Court in the case of *Linke v. Northwestern School Corp.*

Scope

Participation in extracurricular activities is a privilege. This program applies to all Wabash City Schools students in grades 5-12 who wish to participate in extracurricular activities that are listed below:

1. Athletics. (Participants include, but are not limited to, athletes, cheerleaders, managers, and other athletic student personnel.)
2. Music. (Participants include, but are not limited to, performing band members, performing choir members, and participants in solo/ensemble contests.)
4. Academic Teams
5. Drama
6. National Honor Society
7. Student Government
8. SADD

This program also applies to any student who wishes to drive to school, from school, or during school.

Consent Form

It is MANDATORY that each student who participates in extracurricular activities, or drives to or from school, sign and return the “consent form” prior to participation in any extracurricular activity. Failure to comply will result in non-participation and/or no issue of a student-driving permit to school. At the beginning of each selection date, school year or sport season, as determined by the Indiana High School Athletic Association, or when a student moves into the District and joins an activity, all students wishing to participate in that season’s sports may be subject to urine testing or illicit or banned substances. Up to 10% of eligible students will be randomly tested on up to a weekly basis anytime during the school year. Any student who refuses to submit to urine drug testing will not be allowed to practice or participate in designated extracurricular Wabash City School activities or drive. Each student shall be provided with a “consent form”, a copy of which is included in the back of this handbook, which shall be dated and signed by the participant and by the parent/guardian. In so doing, the student is agreeing to participate in the random drug-testing program at Wabash City Schools.

Non-Punitive Nature of Program

No student athlete will be penalized academically for testing positive for illegal drugs or banned substances based on a test conducted under this program. The results of drug tests pursuant to this program will not be documented in any student’s academic records. Information regarding the results of drug tests will not be disclosed to criminal or juvenile authorities absent legal compulsion by valid and binding subpoena or other

legal process, which the Wabash City Schools Board of School Trustees will not solicit. In the event of service of any such subpoena or legal process, the student and the student's custodial parent, legal guardian, or custodian will be notified at least 72 hours before response is made by the Wabash City Schools Board of School Trustees, to the extent permitted by such subpoena or legal process.

Participation in Co-Curricular Classes Without Drug Testing

A student may participate in a co-curricular class for academic credit without participating in the random drug-testing program, subject to the following conditions:

1. The student may not participate in the extra-curricular activities of the class; and
2. The student shall be required to complete such alternative for credit assignments as the teacher may require making up for not participating in the extra-curricular activities of the class. Co-curricular classes are classes, participation or membership in which are an extension of and outside the normal school day and for which academic credit or grades are earned, such as band and choir.

Banned Substances

For the purpose of this Program, the following substances or their metabolites that can be tested for are considered illicit or banned for Wabash City Schools students.

- Alcohol
- Amphetamines
- Anabolic Steroids
- Barbiturates
- Benzodiazepines
- Cocaine Metabolites
- LSD
- Marijuana Metabolites
- Methadone
- Methaqualone
- Nicotine
- Opiates
- Phencyclidine
- Propoxyphene
- Other Specific Drug

Testing Procedures

1. The selection of participants to be tested will be done randomly by the principal/designee, and selections will be made from time to time throughout the school year. Names will be drawn from one large pool of those agreeing to be tested.
2. If a student shows signs of reasonable suspicion, the principal/administrative designee may call the students' parent/guardian and ask that the student be tested. Factors will include but not limited to, excessive discipline problems and/or excessive absences from school. Also, a parent/guardian may request that his/her students name be placed in the pool.
3. No student will be given advance notice or early warning of the testing. In addition, a strict chain of custody will be enforced to eliminate invalid tests or outside influences.
4. Upon being selected for a urinalysis test under this program, either by random draw, reasonable suspicion, request of a parent/guardian, or a "follow-up" test, a student will be required to provide a sample of "fresh" urine according to the quality control standards and policy of the laboratory conducting the urinalysis.
5. All students will remain under school supervision until they have produced an adequate urine specimen. If unable to produce a specimen, the student will be given fluids.
6. There is a heat strip on each of the specimen bottles indicating the validity of the urine specimen by temperature. If the heat strip indicates the specimen may be invalid, the student must give another specimen.
7. If it is proven that tampering or cheating has occurred during the collection, the student will become ineligible for the "extracurricular activities" for the remainder of the semester. This will be reported to the parent/guardian.
8. Immediately after the specimen is taken, the student may return to class with an admit slip or pass with the time he/she left the collection site. The principal/designee must time and sign the pass.
9. The specimens will then be turned over to the testing laboratory, and each specimen will be tested for alcohol, nicotine, and "street drugs" (which may include all drugs listed as controlled substances under the laws of the state of Indiana). Also "performance enhancing" drugs such as steroids may be tested.

Chain of Custody

1. The certified laboratory will provide training and directions to those who supervise the testing program, set up the collection environment, and supervise the chain-of-custody.

2. The principal/designee will be responsible for escorting students to the collection site. The student should bring all materials with him/her to the collection site and should not be allowed to go to his/her locker. The administrator should not bring all the students drawn from the pool to the collection site simultaneously, but may bring more than one at a time.
3. Before the student's urine is tested by the laboratory, students will agree to fill out, sign and date any form, which may be required by the testing laboratory. If a student chooses, he/she may notify the administrator that he/she is taking a prescription medication.
4. A sanitized kit containing a specimen bottle will be given to each student. The bottle will remain in the student's possession until a seal is placed upon the bottle. The student will sign that the specimen has been sealed. Only the lab testing the specimen may break the seal.
5. If the seal is tampered with or broken, after leaving the student's possession and prior to arriving at the lab, the specimen is invalid. The student will be called again as soon as possible. The student will remain eligible for extracurricular activities subsequent to a retest.
6. Students will be instructed to remove all coats and wash their hands in the presence of the supervisor prior to entering the restroom. The door will be closed so that the student is by himself/herself in the restroom to provide a urine specimen. The supervisor will wait outside the restroom. The student will have time to produce a urine specimen. The commode will contain a dye so the water cannot be used to dilute the sample. The faucets in the restroom will be shut off.
7. After it has been sealed, the specimen will be transported to the testing laboratory by lab personnel. The testing laboratory will report the results back to the principal/designee.

Test Results

1. This program seeks to provide needed help for students who have a verified "positive" test. The student's health, welfare, and safety will be the reason for preventing students from participation in extracurricular activities and restrict him/her from driving to or from school.
2. The principal/designee will be notified of a student testing "positive" (that is, if the test shows that drug residues are in the student's system after using at least two different types of analyses). The principal/designee will notify the student and his/her parent/guardian. The student or his/her parent/guardian may submit any documented prescription, explanation, or information, which will be considered in determining whether a "positive" test has been satisfactorily explained.
3. If the test is verified "positive", the principal/designee will meet with the student and his/her parent/guardian at a school corporation facility. The student and parent/guardian will be given the names of counseling and assistant agencies that the family may want to contact for help.
4. A student who tests positive will be subject to the following disciplinary consequences:
 FIRST OFFENSE: The student shall be suspended from participation in all athletic activities and all extra-curricular activities for 14 calendar days.
 SECOND OFFENSE: The student shall be suspended from participation in all athletic activities and all extra-curricular activities for 28 calendar days.
 THIRD OFFENSE: The student shall be suspended from participation in all athletic activities and all extra-curricular activities for 60 calendar days. A student driver who tests positive for banned substances, other than tobacco, will also lose his/her driving privileges for nine weeks or the remainder of the semester, whichever is longer.
5. A "follow-up" test will be required by the principal/designee after a suspension period and after such an interval of time that the substance previously found would normally have been eliminated from the body. If this "follow-up" test is negative, the student will be allowed to resume athletics, extra-curricular activities and/or driving to school. If the "follow-up" test shows positive after the initial test, further loss of privileges will result for a repeat offense as outlined in the student handbook. Any student who refuses to submit to a random drug test will not be allowed to practice or participate in designated extra-curricular activities, athletics, or drive to school.
6. Information on a verified "positive" test result will be shared on a "need to know" basis with the student's coach or sponsor. The results of "negative" tests will be kept confidential to protect the identity of all students being tested.
7. Drug testing results will only be generated in the event of a "positive" test result. Result sheets will be locked and secured in a location that only the principal/designee has access.

Statistical Reporting and Confidentiality of Drug Test Results

The testing laboratory may not release any statistics on the rate of positive drug tests to any person, organization, news publication or media without expressed written consent of the Wabash City Schools Board of School Trustees. However, the lab will provide the building principal with a periodic report showing the number of tests performed, rate of positive and negative tests, and what substances were found in the positive urine specimens.

Financial Responsibility

1. Under this program, Wabash City Schools will pay for all initial random drug tests, all initial reasonable suspicion drug tests, and all “follow-up” drug tests.
2. A request on appeal for another test of a “positive” urine specimen is the financial responsibility of the student or his/her parent/guardian.
3. Counseling and subsequent treatment by non-school agencies is the financial responsibility of the student or his/her parent/guardian.
4. A request by a parent/ guardian/student to be non-randomly tested without being drawn from the pool will be the responsibility of the student or his/her parent/guardian.

Confidentiality

Under this drug testing program, any staff, coach, or sponsor of Wabash City Schools who may have knowledge of the results of a drug test will not divulge to anyone the results of the test or the disposition of the student involved, other than in the case of a legal subpoena being made upon that person in the course of a legal investigation. Once again, this will underscore the Wabash City Schools commitment to confidentiality with regards to the program.

Other Rules

Apart from this drug testing program, a building administrator, Athletic Departments of the Wabash City Schools, and the coaching staff/sponsor of each sport/activity have their own rules and requirements. Administrators, coaches/sponsors have the necessary authority to enforce those rules. Any student who violates a rule or requirement as a member of a team or activity will be subject to the consequences as defined in those rules and requirements.

Collection Process

Selected students will report from class to the collection site. A specimen of urine is collected following this process:

- b. Student first is asked to wash their hands with soap and water and dry them.
- c. No purses, bags or containers may be taken into the collection area with the student. All extra coats, vests, jackets, sweaters, etc., are to be removed before entering the collection area.
- d. The collector adds a coloring agent (food coloring) to the water in the urinal or toilet.
- e. The student is told to urinate directly into the provided container and should provide a sufficient amount of urine (45 ml) in one attempt. The student is also told they are to hand the container of urine to the collector.
- f. The student steps up to the urinal or enters the stall to collect the specimen, then hands the container to the collector. The student may then re-wash their hands.
- g. With the student watching, the collector will recap the specimen bottles tightly.
- h. The collector checks the volume, reads and verifies the temperature is between 90 and 100 degrees within four minutes of collection, and looks for evidence of tampering. If tampering is suspected, a second specimen will be requested. A second suspected tampered specimen would be considered **refusal to test** and the principal notified.
- i. The collector takes the properly signed and initialed bottle seals and places them over the caps and sides of the bottles.
- j. The student is asked to initial the Chain of Custody document which is then placed inside the transport bag along with the sealed specimen bottle.
- k. The student is then sent back to class.
- l. The principal will be notified immediately of any student who refuses to give a urine sample.

Certifying Scientist Responsibilities

The Certifying Scientist will review all results of urine drug testing. Any urine specimen testing positive for illicit or banned substances will be handled in the following manner:

- a. The Certifying Scientist determines if any discrepancies have occurred in the chain of custody.
- b. Depending on the substances found in the urine, if necessary the Certifying Scientist will contact the parent/guardian/custodian to determine if the student is on any prescribed medication from a physician.
- c. If the student is on medication, the parent/guardian/custodian will be asked to obtain a letter from the prescribing physician, within five working days, to document what medications the student is currently taking. Failure to provide such requested information will be considered a positive result.
- d. The Certifying Scientist will then determine if any of the prescribed medications resulted in the positive drug screen.

- e. Finally, the Certifying Scientist, based on the information given, will certify the drug test results as positive or negative and report this to the Building Principal, initially reporting positive results by phone.
- f. For example, a drug screen positive for codeine may be ruled negative by the Certifying Scientist when he receives a letter from the treating physician that the student has been prescribed Tylenol with codeine as a pain medication following tooth extraction.
- g. Or, if the student has a positive drug screen for codeine and has no documented physician order for the medication (maybe a parent gave the student one of their pills), this would likely be ruled a positive drug test by the Certifying Scientist.
- h. Drug screens positive for illicit drugs (marijuana, heroin, cocaine or alcohol, etc.) would automatically be considered positive by the Certifying Scientist.
- i. The Certifying Scientist may use quantitative results to determine if positive results on repeat tests indicate recent use of illicit or banned substances or the natural decline of the levels of the illicit or banned substance from the body. If the Certifying Scientist feels the quantitative levels determined to be above the established cutoffs do not reflect current use but natural decay, then a negative result may be reported.
- j. The Certifying Scientist will complete the final review on the drug testing custody and control form and return the appropriate copy to the Building Principal in a confidential manner.

Pick-up Process

The vendor is responsible for seeing that specimens are delivered to or picked up by the testing laboratory and the Chain of Custody form properly annotated.

STUDENT INTERVENTION PLAN WITH 'POSITIVE' TEST RESULT

Controlled Substances

Indiana law requires schools to report any violation of a criminal drug law to a law enforcement agency. A report will be made to the law enforcement agencies concerning any student who violates a criminal drug law in, on, or within 1,000 feet of school property, including school buses. The prosecutor's office may file a report to have the student declared a delinquent or, depending upon the student's age and the offense, may initiate a criminal prosecution.

Philosophy

The Board of School Trustees supports the concept that students will function at school with greater effectiveness if they are not under the influence of any drugs or alcohol. The Board believes that a penalty consisting of suspension or expulsion is appropriate and may act as a deterrent for those who choose to use alcohol and other illicit drugs at school or school related functions. The Board believes that abuse of alcohol or drugs may lead to chemical dependency, which is a disease. The Board recognizes that chemical dependency is progressive and chronic, but it is also treatable. The Board believes, that in addition to a punishment, help should also be offered to those students found to be under the influence or in possession of alcohol or illicit drugs. Therefore, the board requires that students under the influence or in possession of alcohol or illicit drugs meet with the Substance Abuse Director. The meeting will be a session to help the student and his/her family with understanding the need for an assessment of the student's problem by professionals, recommending the possibility of further treatment or family counseling.

Student Intervention Plan

- Academic, social, emotional or behavioral problems, which hinder a student, are to be noted by school personnel.
- School personnel are then to complete a Referral for Consultation form.
- A student interview with guidance counselor, SAP Director and/or building administrator will be conducted. If needed the building administrator will sign a Referral for Consultation and set up a Student Assessment Team to complete the Student Intervention Plan. Those involved on the team will possess pertinent information and/or have worked with the student. Appropriate interventions will then be designed for the student. After three weeks of implementation of the Student Intervention Plan the Student Intervention Team will review student progress and the effectiveness of the interventions. A decision is then made to continue the Student Intervention Plan, discontinue the intervention or to conduct a psychological/diagnostic evaluation. The Area Program conducts the evaluation and convenes the Case Conference Committee. If placement is recommended, the Individual Education Plan is written and implemented in the usual manner. If placement is not recommended, additional interventions are planned (revise Student Intervention Plan) during the Case Conference with parental input. Interventions are then continued with the information communicated to the teacher for the next school year. A list of students will be compiled and kept in the office for the faculty to review at the beginning of each school year. If the

student qualifies for 504 an annual review of the Student Intervention Plan is conducted at the end of the school year. The student information is then communicated to the teacher for the next school year.

Disposition Procedures for Middle and High School

The procedures apply to all students attending school or school-sponsored events, i.e., field trips, athletic events, etc. Due process procedures will be followed. The disposition of each offense listed will be imposed at the discretion of the building principal. Proper authorities will be notified.

1. Under the influence of and/or possession of alcohol or other unauthorized drugs or narcotics.
 - A. First Offense
 1. Recommended expulsion to the Superintendent.
 2. The expulsion will be waived if the following criteria are met:
 - a. Students will be suspended (in or out of school on the concurrence of the administrator and the substance abuse director) for a minimum of five days.
 - b. Students cannot return to school until they have met with the Substance Abuse Director for a preliminary assessment of chemical use, and are in compliance with the recommendations of the Substance Abuse Director and school officials. Possible recommendations are the following:
 - i. Chemical use assessment by a drug-screening test.
 - ii. Return to class after five-day suspension.
 - iii. Chemical use assessment administered by a professional outpatient drug/alcohol counselor(s).
 - iv. Assessment by outpatient drug/alcohol counselor(s) plus outpatient education
 - v. In-patient treatment commensurate with families' ability to pay.
 - B. Second Offense
 1. School officials will recommend expulsion.
 2. Expulsion may be waived if school officials are convinced that circumstances warrant and if rehabilitation remains a viable option. Student will follow procedures outlined for first offense.
2. Dealing is defined as selling or sharing alcohol or other unauthorized drugs or narcotics.
 - A. Recommendations of expulsion to Superintendent.
 - B. If the dealing offense consists of "sharing" unauthorized drugs/alcohol with peers and Substance Abuse Director will have the discretion of recommending to the Superintendent the waiving of expulsion providing that the various criteria are met as outlined in I-A.

WABASH CITY SCHOOLS BOARD OF SCHOOL TRUSTEES POLICIES

CONTROVERSIAL ISSUES PHILOSOPHY

The School Board believes that the consideration of controversial issues has a legitimate place in the instructional program of the schools.

Properly introduced and conducted, the consideration of such issues can help students learn to identify important issues, explore fully and fairly all sides of an issue, weigh carefully the values and factors involved, and develop techniques for formulating and evaluating position.

For purposes of this policy, a controversial issue is a topic on which opposing points of view have been promulgated by a responsible opinion.

The Board will permit the introduction and proper educational use of controversial issues provided that their use in the instructional program:

1. Is related to the instructional goals of the course of study and level of maturity of the students;
2. Does not tend to indoctrinate or persuade students to a particular point of view;
3. Encourages open-mindedness and is conducted in a spirit of scholarly inquiry.

The students themselves may initiate controversial issues related to the program provided they are presented in the ordinary course of classroom instruction and as long as these issues and their discussion do not substantially disrupt the educational setting.

Controversial issues may not be initiated by a source outside the schools unless the appropriate building administrator has given prior approval.

The instructional use of controversial issues, which have not been specified in a course of study, shall be permitted only with prior approval of the Superintendent.

The Board recognizes that some deviation from the assigned curriculum guide is necessary in the free exchange of the classroom. However, the Board specifies, for the guidance of the Superintendent and, through administrative directive, the guidance of the staff, that any discussion of controversial issues in the classroom shall be conducted in the unprejudiced and dispassionate manner and shall not disrupt the educational process nor fail to match the maturity level of students.

During classroom discussion, a teacher may express a personal opinion, but shall identify it as such, and must not express such an opinion for the purpose of persuading students to his/her point of view.

CURRICULUM POLICY

The Board recognizes that a course of study or certain instructional materials may contain content and/or activities that some parents find objectionable. If a parent finds something objectionable, the following steps may be taken:

1. Any parent or patron having concerns or complaints within the classroom should first discuss his/her concerns with the classroom teacher.
2. If the parent or patron is not satisfied during the discussion with the classroom teacher, he/she should contact the principal for further discussion of the matter.
3. If the parent or patron is not satisfied during the discussion with the principal, he/she should contact the Superintendent for further discussion of the matter.
4. If the parent or patron is not satisfied with the outcome of the conference with the Superintendent, he/she may request, in writing, an expedient hearing with the Board of Education.
5. If a parent is in doubt whom to contact in any given situation, he/she should call or contact the Building Principal who will direct him/her to the appropriate individual.

Approved 03/03/97
Board of School Trustees

RIGHT TO INSPECT CERTAIN INSTRUCTION MATERIALS

The parent or guardian of a child enrolled in a school with the Wabash City School Corporation shall be entitled to inspect any instructional materials, which will be used in connection with a survey, a personal analysis, or an evaluation, which is not a direct part of the academic instruction. Instructional materials include teachers' manuals, student texts, films, other video materials, or tapes. Any complaints arising under this policy may be submitted in accordance with the policy for parental (public) opinion.

ACCEPTABLE USE POLICY, WABASH CITY SCHOOLS

Freedom of expression is an inalienable human right and the foundation for self-government. Freedom of expression encompasses the right to freedom of speech and the corollary right to receive information. Such rights extend to minors as well as adults. Schools facilitate the exercise of these rights by providing access to information regardless of format or technology. In a free and democratic society, access to information is a fundamental right of citizenship.

In making decisions regarding student access to the Internet, Wabash City Schools considers its own stated educational mission, goal, and objectives. Internet research skills are now fundamental to preparation of citizens and future employees. Access to the Internet enables students to explore thousands of libraries, databases, bulletin boards, and other resources while communicating and collaborating with people around the world. Students utilizing corporation-provided network resources are responsible for good behavior on-line just as they are in a classroom or other area of the school. The same general rules for behavior and communications apply.

The purpose of corporation-provided network resources is to facilitate communications in support of research and creation for educational endeavors. To remain eligible as users, students' use must be in support of and consistent with the educational objectives of the Wabash City Schools. The provided access to the network is a privilege, not a right. Access entails responsibility. Students and staff should extend the general guidelines, rules, and best practices outlined in the handbook to their use of the Internet and hardware used to access the Internet.

Users should *not* expect that files stored on corporation-based computers would always be private to the individual. Electronic messages and files stored on corporation-based computers may be treated like school lockers. Administrators and faculty may preview files and messages to maintain system integrity and ensure that users are acting responsibly. Wabash City Schools fully understands and is in compliance with all regulations of the Children's Internet Protection Act (CIPA). As such, the corporation utilizes an Internet filtering system for the entire network as well as a mobile filtering system on all mobile hardware that may leave the district. Wabash City Schools works diligently to comply with the Children's Online Privacy Protection Act (COPPA) requirements. The corporation does not transmit student personal information to online entities for the purpose of creating we based accounts.

Wabash City Schools provides staff and students with a Google Apps for Education account. Google Apps is a free web based suite of programs provided by Google for schools to use. All staff and students in Wabash City Schools have access to Google Apps, which includes such programs as Google Drive, Google Calendar, and Google Gmail. All of the Google Apps services can be accessed from anywhere you have an Internet connection (school, home, smartphone, etc.). In compliance with federal regulation all school-based email is archived.

The following uses of school-provided Internet access are not permitted:

- a. to knowingly access, transmit, upload, download, or distribute pornographic or sexually explicit material;
- b. to knowingly access, transmit, upload, download, or distribute abusive or violent material;

- c. to transmit obscene, abusive, or sexually explicit language;

- i. to reveal names, addresses, phone numbers, or passwords of yourself or other students, family members, teachers, administrators, or other staff members while communicating on the internet;
- j. to transmit pictures or other information that could be used to establish your identity without prior approval of a teacher;
- k. to "meet" people online
- l. to delete or attempt to hide browsing history or communications made on school provided device;
- m. to access or attempt to access administrator controls of corporation hardware or software.

If a student or staff member knowingly transfers a file or software program that infects the Network or workstation with a virus and causes damage, the staff member or student will be liable for any and all repair costs to make the infected equipment once again fully functional.

Any violation of corporation policy and rules may result in loss of corporation-provided access to the network and/or the hardware to reach it. Additional disciplinary action may be determined at the building level in keeping with existing procedures and practices regarding inappropriate usage of the network. When and where applicable, law enforcement agencies may be involved.

Concerning access of the network resources, families bear responsibility for its appropriate use just as they should with other information sources such as television, telephones, radio, movies, and other possibly offensive media. Since the use of electronic resources has become such an integral part of the educational environment, Wabash City Schools will provide network resource access to all students.

Wabash City Schools makes no warranties of any kind, neither expressed nor implied, for the network access or hardware it is providing. The corporation will not be responsible for any damages users suffer, including – but not limited to – the loss of data resulting from delays or interruptions in service. The corporation will not be responsible for the accuracy, nature, or quality of information stored on corporation hard drives, or servers; nor for the accuracy, nature, or quality of information gathered through corporation-provided access to the Internet.

PEST CONTROL POLICY, Board approved 1/22/96

The school corporation is committed to providing students a safe environment. It seeks to prevent children from being exposed to pests and pesticides. While pesticides protect children from pests that may be found in the school and its surrounding grounds, under some circumstances they may pose a hazard to children. Therefore, pest control practices may involve a variety of chemical and non-chemical methods that are designed to control pests effectively while minimizing potential pesticide exposure to children.

This policy does not apply to the use of the following pesticides:

1. When used in normal cleaning activities: germ killers, disinfectants, sanitizing agents, water purifiers, and swimming pool chemicals;
2. personal insect repellents when self-applied; and
3. gel baits or manufactured enclosed insecticides when used where students and staff members do not have access to the insecticides. Pesticides will be applied by certified pesticide applicators and when students and staff members are not present, such as during non-instructional time or school vacation periods.

The corporation will:

1. Inform annually parents and staff members of the corporation's pest control policy at the time of student registration by a separate memorandum or as a provision in the student handbook.
2. Provide the name and phone number of the person to contact for information regarding pest control.
3. Establish a registry of parents and staff members who want to receive advance notice of all pesticide use and provide such notice.
4. Provide notice of planned pesticide applications to parents and employees who have requested advance notice.
5. Provide notice of all pesticide applications to school nurses.
6. Maintain written record for at least 90 days of any pesticide applications.

The corporation will provide notice at least two school days prior to the date and time the pesticide application is to occur. The notice will include the date and time of the pesticide application, the general area where the pesticide is to be applied and the telephone number to contact the school for more information. In case of emergency pesticide applications because of immediate threat to the public health, the school shall give written notice as soon as possible. The corporation may provide for training of school employees to become certified pesticide applicators. The corporation subject to budgetary constraints of the corporation may provide financial support for such training. The superintendent shall prepare and disseminate regulations for the implementation of this policy.

Adopted May 7, 2001

In an attempt to assure proper control of pesticides that might be sued on corporation premises, these procedures are established. "Pesticide" for application of these regulations only is defined as a fungicide used on plants, an insecticide, an herbicide, or a rodenticide.

These regulations do not apply to use of the following pesticides: germ killers, disinfectants, sanitizing agents, water purifiers, swimming pool chemicals used in normal cleaning activities. personal insect repellents when self-applied, and gel baits or manufactured enclosed insecticides when used where students and staff members do not have access to the insecticides.

The intent of this regulation is to prevent exposure of staff members and students to pesticides. Only certified pesticide applicators or individuals operating under their supervision in school buildings or on school grounds will apply pesticides. The certified pesticide applicator shall train non-certified staff members who apply pesticides. The training must include

1. A review of the corporation's pest control policy;
2. A review of the label instructions for the pesticides to be used;
3. Methods to determine when an application of a pesticide is necessary;
4. How to minimize potential pesticide exposure to students, teachers, and staff,

The building administrator will then implement the notification requirements of the pest control policy and its regulations.
3. An emergency application of pesticides is defined as when an application of pesticides is necessary to eliminate an immediate threat to human health and where it is impractical to obtain the services of a certified pesticide applicator provided such emergency application does not involve a restricted use pesticide. Restricted use pesticides may be used only by certified applicators or under their direct supervision.
4. At the time of registration for each school, the Board shall provide the staff members of each school and the parents of each child enrolled in each school with a written copy of the Board's policy on pesticide applications, the name and telephone number of the school contact person for pest control information, and a request form to be placed on a list for advanced notice. This information may be given in the form of a memorandum or as a provision in the student and/or staff handbook. This information shall also be provided to the parents of any child who transfers into a school during the school year. A request for such notice may be made at any time during the school year.
5. Parents and staff members may register for prior notice of pesticide applications. Each school principal shall maintain a registry of persons requesting such notice. Prior to the application of pesticides within any building or on school grounds, the parents and staff members who have registered for prior notice shall receive a mailing no later than two school days prior to the applications when students or staff members will be present during the pesticide application. School nurses will receive prior notice of all pesticide applications.
6. The aforementioned notice shall include the (1) name of the active ingredient of the pesticides anticipated to be applied if part of a routine scheduled service, (2) location of the application, (3) date of application, (4) approximate time and length of the application, and (5) name and telephone number of the school administrator or his/her designee who may be contacted for further information.

SECTION I. Definitions and Interpretations

- A. Indiana Code 20-33-2-11 provides that any person while of the ages of 13 and 14, who is determined to be a habitual truant as defined by school board policy, cannot be issued an operator's license or learner's permit until the age of 18.
- B. The term "habitual truant" as used herein is defined as a student who willfully refuses to attend school. The term includes, but is not limited to, a student who willfully refuses to attend school for five (5) or more days per semester or more than eight (8) accumulated days during the adopted school year.
- C. The term "student" as used herein is defined as a person less than 18 years of age who is enrolled in the Wabash City Schools or who is required to attend the Wabash City Schools in accordance with the Indiana Compulsory School Attendance Laws, including but not limited to Indiana Code 20-33-2-1.
- D. The Board of Trustees interprets Indiana Code 9-1-4-29 (g) and 9- 1-4-33.4 (a) (2) to mean that a student who receives a second suspension may not be issued an operators license or permit until 120 days after the second suspension. Accordingly, each principal shall notify the Indiana Bureau of Motor Vehicles of the beginning and ending dates of a second suspension and the date of the end of the 120-day period. A principal may not issue eligibility certificate to the Indiana Bureau of Motor Vehicles for any student who receives a second suspension until 120 days after the suspension.
