This month students will be learning about friendship and the importance of knowing how to be a good friend as well as how to distinguish good habits in a friendship.

Ask your child who their good friends are, and what positive characteristics their friends have that make them want to be their friend.

We will also be learning about conflict within our relationships, and how to cope with it appropriately. Students will learn different strategies of how to deal with drama, being accepted by new friends, feeling left out, and differences within our friendships.
