

**"The greatest scientists are always  
artists as well. "**

**-- Albert Einstein**

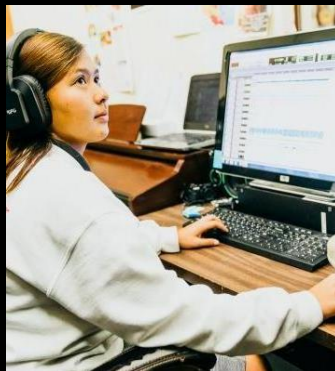

*Bishop Montgomery invites prospective students and parents  
to an informative and interactive evening focusing on  
curricular and extra-curricular **S**cience, **T**echnology, **E**ngineering,  
**A**rt, and **M**ath opportunities at BMHS:*

**STEAM INFORMATION NIGHT**

**7:00pm**

**Tuesday, November 13**

**BMHS' Schneider Retreat Center**

Learn more about Bishop's STEAM opportunities both inside and outside of the classroom.

---

Discover the variety of science possibilities Bishop provides through clubs like Science Olympiad & Robotics, through upper division courses like Sports Medicine & AP Computer Science, and through internships across a variety of career fields.

---

Explore the range of art options available to each and every student-- from performing arts like theater, improv, marching band, instrumental ensembles, and vocal performance, to the visual arts including beginner and advanced art, ceramics, graphic art and digital photography.

---

See how technology is integrated into our fine arts program with classes that include AP Music Theory; Film Scoring, Songwriting, & Digital Music; Music Production; Video Production; and, Graphic Design. Students learn using industry-standard apps, programs, and devices to create both individual and group projects and prepare them for work beyond the high school classroom.

---

Understand how Bishop Montgomery's individualized academic program allows students to create their own personalized STEAM pathways to success.

---

Meet some of our exceptional faculty members and hear how Bishop's STEAM program provides exposure and builds skills for students in all courses.

---

Hear from current students about their individualized STEAM paths and how their experiences support postsecondary and career goals, as well as fuel hobbies and interests.

---
