

2019 Riverview Community Schools

Summer Enrichment Program

The goal of Riverview Community Schools is to make learning come alive for students through our summer enrichment program. Our student-centered program offers hands-on challenges in a nurturing, non-competitive environment. Students have the opportunity to explore a wide range of courses designed to enrich academic skills and build self-confidence.

Where: Seitz-Huntington Complex (17800 Kennebec)

When: Monday, July 8 through Thursday, August 1
(2 days a week: M/W or T/Th classes)

Time: 9:30am-12:30pm (3 hour classes)

Tuition: **FREE** with lunch provided by Chartwells

Registration: May 24th - June 5th (ONE CLASS)

Online Registration: [MyPayments Plus](#) (Submit \$0 payment)

*You will receive a Confirmation Number once submitted

* An email will be sent for **Declined** classes immediately, **Approved** classes by June 14th

Questions: Derrick DiBranco, Summer Enrichment Program Administrator

ddibrano@riverviewschools.com or Schoology (**preferred**),

RCSD Summer Enrichment Program

COURSE DESCRIPTIONS

Grade Levels listed for 2018-19 School Year

MONDAY/WEDNESDAY CLASSES (2 days a week, July 8-July 31)

- **Super Scientists (grades K)**—Explore the scientific world through “hands-on” lessons and activities about plants, animals, sea life, etc. with **Ms. McQuiston**.
- **Hands on Habitats (grades 1-2)**—Enjoy creating different animal habitats through various art projects with **Ms. Alexander**.
- **Acting Up (grades 1-2)**—Practice and perform Readers Theaters with reading fluency, team work, confidence building, public speaking, and creativity with **Ms. DeRosia**
- **Instructions Not Included (grades 2-3)**—Learn to problem solve by re-purposing/reusing common household items for purposes beyond their intended use in different scenarios with **Ms. O’Brien**
- **Under the Sea (grades 2-3)**—Explore the fascinating world of the oceans and seas with **Ms. LaFehr**
- **EV3 Robotics (grade 3)**—Learn simple programming skills and participate in daily challenges using the EV3 Mindstorm Robot program with **Mr. Laginess**
- **Math FUNdamentals (grades 3-4)**—Learn to make math fun by using centers and games to enhance your skills in addition, subtraction, multiplication, etc. with **Ms. Cloud**
- **AUTHORity! (grades 3-6)**—Write, illustrate, and publish your own narrative/expository book with **Ms. Rosecrans**
- **French Connection (grades 3-6)**—Learn basic French phrases, vocabulary, and songs along with some landmarks and artists with **Ms. Kissel**
- **Brain Boosters! (grades 4-6)**—Put your power to work by solving logic problems, mysteries, brain teasers, and much more with **Ms. Tomasek**
- **A Happy, Healthy Mind and Body (grades 5-7)**—Start your summer mornings with a combination of Mindfulness/Meditation, Yoga, and other projects to live your best life with **Ms. Zulewski**
- **Math Puzzles, Games, and Explorations (grades 5-7)**—Improve your understanding of math concepts through a variety of puzzles, games, and activities with **Mr. Skidmore**
- **Learn to Sew (grades 5-8)**—Learn the basics of using a sewing machine in a collaborative environment to make baby quilts for a local charity with **Ms. Millner**
- **Roadtrip USA (grades 5-8)**—Travel the US by developing and researching a road trip of the places and adventures you would want to see with **Mr. Zachary**

RCSD Summer Enrichment Program

COURSE DESCRIPTIONS

Grade Levels listed for 2018-19 School Year

TUESDAY/THURSDAY CLASSES (2 days a week, July 9-Aug 1)

- **Math for Little Minds (grades K)**—Learn a variety of math concepts such as adding, subtracting, telling time, etc. by using and creating manipulatives with **Ms. McQuiston**
- **Kool Krafts for Kids (grade K)**—Read, sing, create "fun" crafts and play "exciting" summer games which promote imagination, coordination, social and fine/gross motor skills with **Ms. Peterson**
- **Instructions Not Included (grades K-1)**—Learn to problem solve by re-purposing/reusing common household items for purposes beyond their intended use in different scenarios with **Ms. O'Brien**
- **Storybook STEAM (grades 1-2)**—Work together on hands-on STEAM activities that are tailored to the classic children's books you will read with **Ms. Olsen**
- **Math FUNDamentals (grades 1-2)**—Learn to make math fun by using centers and games to enhance your skills in addition, subtraction, multiplication, etc. with **Ms. Cloud**
- **Dive Into Reading! (grades 1-4)**—Learn reading strategies through different content themes to strengthen the love of reading with **Ms. Rosecrans**
- **CSI Super Sleuths (grades 2-3)**—Become a CSI agent as you investigate clues and mysteries using your STEM knowledge with **Ms. Hartley**
- **Math Enrichment (grades 2-4)**—Continue to build your math mind through games, story problems, and activities with **Ms. Avery**
- **Writing Craftivity (grades 2-5)**—Combine your love of arts and crafts with your love of writing through a variety of projects with **Ms. Tomasek**
- **Full STEAM Ahead! (grade 3)**—Engage in design challenges using the design thinking model to create robots, games, machines, etc. with **Ms. Gajewski**
- **Hands on Habitats (grades 3-4)**—Enjoy creating different animal habitats through various art projects with **Ms. Alexander**
- **Acting Up (grades 3-5)**—Practice and perform Readers Theaters with reading fluency, team work, confidence building, public speaking, and creativity with **Ms. DeRosia**
- **Generation YouTube (grades 3-5)**—Create TouchCast videos based on your own topics and ideas with **Mr. Lothian**
- **French Connection (grades 3-6)**—Learn basic French phrases, vocabulary, and songs along with some landmarks and artists with **Ms. Kissel**
- **Field Biology (grades 3-8)**—Explore nature through hands-on and eye-opening experiences with **Mr. Filkins**

- **EV3 Robotics (grade 4)**—Learn simple programming skills and participate in daily challenges using the EV3 Mindstorm Robot program with **Mr. Laginess**
- **Under the Sea (grades 4-5)**—Explore the fascinating world of the oceans and seas with **Ms. LaFehr**
- **Math Puzzles, Games, and Explorations (grades 5-7)**—Improve your understanding of math concepts through a variety of puzzles, games, and activities with **Mr. Skidmore**
- **DIY Arts and Crafts (grades 5-8)**— Learn to create several beautiful projects using a variety of materials and techniques with **Ms. Millner**
- **Roadtrip International (grades 5-8)**—Travel the world by developing and researching a road trip of the places and adventures you would want to see with **Mr. Zachary**
- **Beginner Crochet (grades 6-11)**—Learn basic crocheting techniques with **Ms. Nichols**
- **A Happy, Healthy Mind and Body (grades 8-11)**—Start your summer mornings with a combination of Mindfulness/Meditation, Yoga, and other projects to live your best life with **Ms. Zulewski**

**LEARN SOMETHING
NEW THIS SUMMER**
