- Except as provided in Education Code section 47605(d)(2), admission to a charter school shall not be determined according to the place of residence of the pupil, or of his or her parent or legal guardian, within this state, except that an existing public school converting partially or entirely to a charter school under this part shall adopt and maintain a policy giving admission preference to pupils who reside within the former attendance area of that school. (Ed. Code § 47605(d)(1).)

B. COMMUNITY NEED FOR THE PROPOSED CHARTER SCHOOL

Introduction
Equitas Academy, located in the Pico-Union area of Los Angeles, California currently serves approximately 450 students in its flagship elementary school (Equitas Academy) in grades K-4; 400 students in its middle school (Equitas Academy 2) in grades 5-8; 270 students in its second elementary school (Equitas Academy 3) in grades K-2; and 100 students in its second middle school (Equitas Academy 4). We propose to add one more school, Equitas Academy 5 to our network of schools.

Equitas Academy received its charter from the Los Angeles Unified School District, and opened its doors in the fall of 2009. It has historically demonstrated high academic achievement with an API that exceeded 800 during its operation, 2010/2011/2012. The school's population is over 90% Latino with demographics that mirror the Pico-Union area. It has proven that a strong culture, a mentality of "no excuses" and family, student and staff dedication can lead to academic success.

Over the next several years, Equitas Academy will successfully expand into a network of schools. To accomplish this growth, Equitas Academy will focus on the following four steps:

   I. Articulate Core Beliefs for Replication
   II. Replicate Strategically
   III. Build a Network Central Office
   IV. Ensure Accountability At All Levels

I. Articulate Core Beliefs for Replication.
To fulfill its mission, Equitas Academy has successfully executed on five core beliefs to meet the rigorous standards they hold for their school and students:

   1. Equitas holds high academic and behavioral expectations for every student;
   2. Equitas engages and grow competent and experienced school leadership and staff;
   3. Equitas offers a rigorous academic program with intentional student supports;
   4. Equitas provides clear standards, research-proven curriculum, and frequent assessments;
   5. Equitas is a mission-driven school community.

These beliefs guide all curriculum and instruction, student and staff expectations, and community outreach at the flagship school, and has guided the launch of our most recent schools as well as our proposed future elementary school, Equitas Academy 5.

II. Replicate Strategically.
The core beliefs of high academic expectations, strong leadership, rigorous program and intentional supports, outcomes driven instruction and mission-driven community will be first in foremost in the strategic replication of schools. Likewise, the strong school culture which is vital to the success of Equitas Academy will be implemented at each school. Equitas will
focus replication specifically within the Pico-Union area of Los Angeles, deepening its roots in the community.

III. Build a Strong Network Central Office.
A strong network, known as Equitas Academy Charter Schools, will provide support services to all network schools. The network will be led by founding Equitas Academy leaders that will ensure that schools and its leaders have the resources and support needed to fulfill the network’s overall mission. The network central office will remove barriers from schools and among other services, provide leadership development and academic guidance to Equitas school leaders.

IV. Ensure Accountability At All Levels.
Equitas Academy 5 Charter School believes in holding staff accountable, proper governance and a strong performance management system will ensure that students are obtaining a high quality education and become self-motivated, competent and lifelong learners. Strong test scores, long student wait lists, high teacher retention, and positive parent surveys will continue to demonstrate the strength of the Equitas Academy Charter School network. Over the next five years with the instructional and operational support of a growing network central office, the proposed elementary school will become stronger in its student achievement results.

Educational Program
Equitas Academy 5 Charter School ("Equitas Academy or Equitas") provides an environment that maximizes the opportunity for academic and life success for every student. The Equitas Academy model upholds a rigorous academic program and serves the specific academic and developmental needs of students in grades TK-4.

Equitas is a Latin word for justice, equity, and fairness. Our name guides a founding principle of the school. Too often, students enter middle and high schools lacking the strong study skills and content knowledge necessary to graduate and advance onto four-year colleges and universities. Equitas Academy is a place to provide our students an equitable learning experience encouraging their development into persons capable of and determined to make meaningful contributions to society, and thereby fulfilling the educational goals to become self-motivated, competent and lifelong learners. Ed. Code § 47605 (b)(5)(A).

As detailed fully in this petition, Equitas Academy has five core beliefs to fulfill our mission, based on best practices and research:

1. Equitas holds high academic and behavioral expectations for every student.
2. Equitas engages and grows competent and experienced school leadership and staff.
3. Equitas offers a rigorous academic program with intentional student supports.
4. Equitas provides clear standards, research-proven curriculum, and frequent assessments.
5. Equitas is a mission-driven school community.
The proven success of our model is helping to demonstrate that all children, including those who are English Learners, socio-economically disadvantaged, Hispanic/Latino, special needs and who come from families where the adults have not completed high school can succeed in meeting our high expectations for success.

2. TARGET NEIGHBORHOOD

Our target neighborhood is Pico Union/MacArthur Park (zip codes 90015, 90006 and 90057), illustrated in the map below – with the adjacent boundaries of West Pico, one block west of Union, within a mile of the flagship school. The Pico Union\(^1\) community derives its name from the intersection of Pico Boulevard and Union Avenue, west of downtown Los Angeles, thus our new school facility is literally in the heart of this neighborhood.

Race/Ethnicity for Surrounding Neighborhoods (90006, 90057 and 90015)

Pico Union is a very densely populated neighborhood: zip code 90015 has almost 19,000 people in just 1.7 square miles, zip code 90006 has more than 59,000 people in 1.9 square miles, and 90057 has approximately 45,000 people in less than one square mile. (factfinder.census.gov 2010 census). On average, Los Angeles has almost 7,000 people per square mile; these three zip codes average 27,333 per square mile (statewide, the ratio is just 282.5 people per square mile in all of California; nationally it is just 88 people). (Ibid.) According to the Los Angeles times, the area highlighted in the map above includes three of the four most densely populated neighborhoods in all of Los Angeles².

Not surprisingly, poverty levels in the community are significant: according to the 2010 census, between 42% and 50.4% of families with children under 18 lived below the federal poverty line in the preceding 12 months. For a family of four, the 2013 federal poverty guideline is just $23,550; as illustrated below, significant numbers of families make well below $15,000 or less each year:

In addition to residing in an economically impoverished community, Pico Union residents lack educational attainment: 47% do not have a high school diploma (including 30% of adult residents having less than a 9th grade education). Only 14.5% have a Bachelor’s degree, less than half the rate city-wide (29.2%). It is well-documented that students from families with low levels of parental educational attainment are at a greater statistical risk of dropping out.³

---

Lack of employment, high population, and low educational attainment contribute to the high-crime rate and proliferation of gangs in Pico Union. In a six month period between February and August 2013, according to the Los Angeles Times there were 135 reported violent crimes (the 38th highest frequency out of 209 neighborhoods tracked by the paper) and 324 property crimes; the adjacent Westlake area (in zip code 90057) was ranked 33rd that same time period with 410 violent crimes and 909 property crimes. (http://maps.latimes.com/neighborhoods/neighborhood/pico-union/crime/). In other words, our students and their families face significant risks and stresses outside of school.

While community demographics paint a picture of a severely impoverished neighborhood, the area is beginning the early stages of gentrification with residential development and revitalization efforts. Pico Union is adjacent to the new LA Live Development and its six city blocks of apartments, theatres, and high-end hotels such as the Ritz-Carlton/JW Marriott.

---

4 High crime statistics reported by Rampart, the local police department and through http://lalife.com/Pico-Union_Historic_District, which states Pico Union crime statistics are 50% higher than the Los Angeles County average.

Equitas Academy 5 Charter School
New Charter Petition September 2017
While Pico Union families face ongoing challenges, improvements in education allow residents the opportunity to be a part of the revitalization efforts. Without access to education, economic advancement is difficult and limits families’ ability to participate in the economic growth of their neighborhood.

**Educational Need**

The Pico Union academic achievement data for eleven public schools (nine district and two charter schools) is detailed in the following table. Seven of the nine local traditional elementary schools are in Program Improvement status; four received the lowest state rank of 1-3 (two primary centers also serve the community and do not have API data since they do not serve 2\textsuperscript{nd} grade or higher).

Two of the elementary schools in the community serve more than 1,000 students each; another five schools enroll between 700 and 800 students. On average, 74% of the students are eligible for the Federal Free and Reduced Lunch program.

The District has responded to the needs of Pico Union residents by increasing the number of schools, creating primary centers and smaller high schools, but the community remains underserved and needs more schools to address the overcrowding.

3. HOW EQUITAS ACADEMY 5 WILL MEET COMMUNITY NEED

Equitas Academy 5 is a direct response to the need for more educational options for the residents of Pico-Union. Currently, Equitas Academy (grade TK/4) and Equitas Academy 3 (grades TK/2) have waiting lists of 430 students interested in attending those schools.

Over the next several years, Equitas Academy will successfully expand into a network of schools in around the Pico Union neighborhood, each one consistent with the mission, vision and strategic goals of the Los Angeles Unified School District (LAUSD), and the intent of the California Charter Schools Act of 1992. Equitas Academy’s design provides a small school environment with individual attention, strong relationships between staff and students, and close communication between school and home. Providing families with the choice to enroll their child(ren) in Equitas Academy allows families opportunities to involve themselves in the educational success of their child(ren), the ability to access a strong academic program, and aids in being part of the solution to increase educational attainment and opportunities in Pico Union.

Our most innovative practices in both the elementary and middle schools include the college preparatory mission, our slow growth model, focus on core content areas of literacy, math, social studies and science, and intentional use of data to drive instructional decisions. Our model provides the blueprint for actualizing the mission and vision of Equitas Academy 5 and supporting students’ strengths and needs. It lays the foundation for creating a school that personalizes the learning experience for each student, meets families’ needs, and allows teachers more time to address the needs of each student. Through a small school setting and an individualized approach to learning, our model also best allows students with special needs or English Learners to progress academically within the regular education classroom. (See details below.)

Serving a population that is not traditionally college-bound, and too often does not have the core foundation to successfully complete secondary education and go on to pursue higher education, college preparation will be infused into every aspect of school life. The standards-based, Common Core-aligned curriculum will focus on the core skills and content area knowledge that students need to excel in college preparatory high schools on their road to competitive colleges and universities. Students will be immersed in literacy, the gateway for all future learning, and in a school language and culture that reveres and celebrates academic achievement. Students will be explicitly taught the importance of attending and graduating from college. Every classroom will feature college and university signage and decorations. Students will be addressed individually as scholars and collectively as the year they will graduate from college. Additionally, every year, students will visit colleges and universities and will tour the campus and sit in on classes. By exposing students to the skills and knowledge they need to succeed in college and simultaneously stressing that every Equitas scholar can and will attend and graduate from college we expect to dramatically improve the educational outcomes for the students of Pico-Union.
Because we want our students to strive academically as well as more broadly in the world around them, we will also expose them to as much of the wider world of art, music, recreation, and nature as possible. Such exposure is essential to helping students see the life that is possible for them (and for their communities) through their own perseverance and commitment.

Building on successful models, we believe that all children, regardless of background, can learn to read, write, speak and compute with the expertise needed to succeed and access an outstanding college education. The equal opportunity that a strong public education can provide, even to our most disadvantaged children, is at the core of our American dream. Based on our proven track record and experience in working with the Pico-Union community, Equitas Academy 5 will be well-prepared to address the multiple challenges students bring with them to school and to help each and every student be well prepared for success in secondary school, post-secondary school and meaningful careers. In assessing the surrounding schools demographic and performance data, students may bring challenges in the areas of language learning as they are progressing through English language development and learning gaps as some students are performing below grade level.
C. PROPOSED STUDENT POPULATION TO BE SERVED

4. TARGET STUDENT POPULATION

Equitas Academy 5 plans to serve elementary grades (TK-4). Based on surrounding schools data and our current elementary school enrollment, we expect that approximately 85-100% of our students will qualify for free or reduced price lunch, 40-85% will be English Learners, and 7-14% will be special education students.

5. FIVE-YEAR ENROLLMENT PLAN

Equitas Academy 5 plans to open in September of 2018 with Transitional Kindergarten and Kindergarten students. While we cannot with 100% accuracy predict enrollment for each year, for purposes of planning our budgets and operations conservatively, the following are our enrollment projections for the terms of the charter:

D. GOALS AND PHILOSOPHY

6. MISSION AND VISION

Mission Statement: Equitas Academy provides a structured, achievement-based community that prepares elementary students to graduate from four-year colleges and universities.

Equitas Academy believes students must have access to an achievement-oriented learning environment, beginning in kindergarten (and transitional kindergarten) to ensure all students make a smooth transition to the demands of college preparatory middle and high schools with the ultimate goal of college graduation. Our vision includes a school with a college preparatory focus in the primary grades, so students are able to develop the foundational skills necessary for entrance into high-performing middle and secondary schools. We envision a school with a grade span, curriculum, and educational program that will allow students, despite any obstacles, to learn to read, write, and compute on or above grade level, to develop the academic and character skills that will serve them through the many life challenges they may face in accessing higher education. We envision a school in which education enriches the lives of students and their families and where we work closely with families to do the hard work necessary to achieve excellence and college graduation.

For the vision of Equitas Academy to become a reality, every decision regarding the educational program and philosophy centers on how to best drive student achievement by creating a small, safe and structured community enabling students the opportunity and support to reach the high expectations we hold for them.

7. AN EDUCATED PERSON IN THE 21ST CENTURY

Beginning with kindergarten (including TK), Equitas Academy capitalizes on the concept that “college prep begins in kindergarten.” Serving a population that is not traditionally college-bound, and too often does not have the core foundation to successfully complete middle and secondary education and go on to pursue higher education, college preparation begins with the youngest of students, and is infused into every aspect of school life. The curriculum focuses on the core skills and content area knowledge that students need to excel in middle school and college preparatory high schools on their road to competitive colleges and universities. Students are immersed in literacy, the gateway for all future learning, and in a school language and culture that reveres and celebrates academic achievement. Students are explicitly taught the importance of attending and graduating from college. Every classroom features college and university signage and decorations. Students are addressed individually as scholars and collectively as the year that they will graduate from college (kindergarteners that start in school in the fall of 2018 will be called “The Class of 2035”). Additionally, every year, beginning in kindergarten, students visit colleges and universities, tour the campuses, and sit in on classes. By exposing students to the skills and knowledge they need to succeed in college and simultaneously stressing that every Equitas
Equitas Academy scholar can and will attend and graduate from college, we help to dramatically improve the educational outcomes for the students of Pico Union.

Our unconventional model adds to the growing segment of public schools that are educating urban youth and reversing the achievement gap through a highly structured environment, character education, and college preparatory emphasis delivered within a culture of high expectations for academic achievement. With the belief that all students can learn and achieve at high levels, schools founded by KIPP, Building Excellent Schools (BES) fellows as well as 50+ high-performing urban charter schools nationally) and others are demonstrating that students in “high risk” communities can close the achievement gap. These schools’ combination of inspired leadership, dedicated staff, demanding curriculum, clear behavioral code, longer days, and use of assessment to drive instruction serve as a model for raising student achievement.

We believe that college preparation starts on a child’s first day of primary education. Young students and their families are able to identify the link between strong academic outcomes now and later success facilitated with a college education in the future. Beginning in kindergarten, we expose our students to the world of middle and high school and college with the implicit and explicit message that with hard work they have all the tools and ability necessary to succeed in these institutions. We present this message through classroom lessons, exposure to mentors and tutors from institutions of higher learning, and real and virtual tours of campuses.

Because we want our students to strive academically in order to earn life choices, we also expose them to as much of the wider world of art, music, recreation, and nature as possible. Such exposure is essential to helping students see the life that is possible for them (and for their communities) through their own perseverance and commitment. We have developed a strong enrichment program where students are exposed to the arts through dance, yoga, art, music, and technology.

We believe that the achievement gap that begins in schools throughout LAUSD and the nation in elementary schools can be overcome through strategies such as those used by LAUSD’s highly acclaimed fifth grade teacher at Hobart Elementary, Rafe Esquith. He has proven that hard work, good teaching, and strong character development pave the road to college.

“Academic excellence is not the province of any one group; rather it is a standard, a level of achievement to which students can aspire regardless of race, ethnicity or social class. It is a common ground and therein lies the power.” – Rafe Esquith

5 Rafe Esquith has published several books including, Real Talk for Real Teachers; Lighting Their Fires; There are No Short Cuts and Teach Like Your Hair is On Fire, detailing his teaching philosophy and successful strategies used over 30 years at Hobart Elementary in the Pico Union neighborhood. Malka Borrego, our Founder and Executive Director, also taught at Hobart Elementary. Mr. Esquith has provided guidance and advice to Ms. Borrego in many areas as Equitas Academy was designed and established and has been an important mentor to Ms. Borrego.

Building on successful models, we believe that all children, regardless of background, can learn to read, write, speak and compute with the expertise needed to succeed and access an outstanding college education.

Equitas Academy strives to ensure students who matriculate from fourth grade are prepared for the challenges of college preparatory middle and high schools, to provide students access to college and choice in life-sustaining employment as they move into the 21st century. In the 21st century, changes in our global society call for a new definition of “an educated person.” Access to information is central as we become more interdependent and able to communicate more freely. This interdependency requires an understanding of the global diaspora with a respectful approach to communication and interaction. This interaction requires strong literacy and mathematical ability, significant problem-solving skills and a higher level of education than ever before – aligned to living and working in a globalized new millennium. 21st century adults must be lifelong learners, have a firm grasp of computer technology, work well in a multicultural society, and be prepared to handle various careers and professions over their lifetimes. The educated person will need to work cooperatively with others from diverse backgrounds, identify and solve problems, and be able to resolve conflicts in a constructive manner. “The good jobs of the future will increasingly be tied to the global economy and will require both high-tech skills and flexible, ‘soft’ skills – such as communication and teamwork skills – needed to compete in the 21st century economy.” Most importantly, in a highly competitive and ever-changing work place, an educated person needs to be able to succeed and graduate from college. By integrating the needs of the 21st century into schools, students will grow to reach their maximum potential, and foster a lifetime love of learning.

With knowledge and communication as key tools for the new millennium, a strong foundation in literacy is an integral component to ensuring all students are prepared to handle the complexities of the 21st century and to take their place as an educated person within our democracy. Public schools must provide a strong academic literacy program and must hold and support the highest of expectations. Educational programs need to ensure all students succeed in learning at high levels. In *Good to Great*, Jim Collins identifies the main factor for achieving outstanding organizational results as a narrow focus of the company’s resources in its field of competence. As a school, we believe that strong literacy development is *the* key competency students must master to be successful, and thus the major focus of our educational program. Like all schools in the 21st century dedicated to the academic and life success of its students, Equitas Academy ensure all students are educated for the demands and opportunities of the new century.

### 8. HOW LEARNING BEST OCCURS

To meet our students’ needs in mastering the California content standards (including the new Common Core and Next Generation Science Standards), our model integrates the

---

foundational theories of directed learning (objectivist) and cognitive learning. In directed instruction, behavioral theories concentrate on immediately observable changes in performance (e.g., tests) as indicators of learning. There is a focus on memory, how a student receives and stores memories and builds on previously learned material. Robert Gagne contributes to this area with his systematic approach to instructional design and training with the nine steps of instruction: (1) gain attention, (2) inform learner of objective, (3) stimulate recall of prior knowledge, (4) present the material, (5) provide guidance for learning, (6) elicit performance, (7) provide feedback, (8) assess performance, and (9) enhance retention and transfer. Directed methods have influenced our thinking in selecting and designing teaching methods, curriculum, and behavior modification techniques as well as how we assess and define learning. Directed instructional models focus on teaching sequence of skills beginning with lower level skills in order to build to higher level skills as well as clearly stating skill objectives with assessments to match.

In conjunction with the work of behavioral theorists, we utilize cognitive learning theories such as Vygotsky’s social development theory and Bandura’s social learning theory. Social development and learning theory involves attention, memory and motivation, and therefore can be viewed as a bridge between behaviorist and cognitive learning theories. In *Mind and Society*, Vygotsky asserts that social interaction plays a fundamental role in the process of cognitive development. He writes how speech and writing is used to mediate our social environments. Initially, children use these tools solely for social functions, but through the internalization of speech and writing, children are led to higher thinking skills. Vgotsky promotes students and teachers to take an active role in learning. Vygotsky’s theory of Zone of Proximal Development (ZPD), or the distance between a student’s ability to perform a task under guidance and/or collaboration and the student’s ability to solve problems independently, informs our teaching methodology. Originally ZPD was developed to argue against standardized tests as a means to gauge intelligence. ZPD has expanded since its original concept to include scaffolding. Scaffolding was developed by sociocultural theorists to include the process through which a teacher provides assistance until the child is able to accomplish the task or learning independently. Vgotsky maintains that learning occurs just above the students’ current level of competence. Therefore, students learn by having teachers scaffold the learning so students are successful at tasks that could not be accomplished independently. Teachers use language and shared experiences to scaffold or as a learning tool. Children learn by solving problems with the help of the teacher who models the process and in a classroom environment that is directed by the teacher. The teacher collaborates with students to provide support and direction for the learning. In addition, the curriculum needs to challenge and stretch the student’s competence.

Bandura’s social learning theory adds to Vgotsky’s work on ZPD. Bandura asserts that people learn from one another through observation, imitation, and modeling. Social learning theory explains human behavior in terms of interaction between cognitive, behavioral and environmental influences. There are four conditions necessary for effective modeling: attention, retention, reproduction, and motivation. Bandura asserts that behavior

---

and environment have a reciprocal relationship and affect each other.

The work of Vgotsky and Bandura both point to the importance of social interaction, language, and environment. Moreover, in designing an effective learning environment it is important to create a structure with measurable outcomes. While some may believe behavioral and cognitive theorists differ in defining learning and describing conditions required to make learning happen, we have found both have meaningful contribution in conceptualizing, designing, and articulating our school model.

In addition to these educational theorists, our instructional model also is based on work such as No Excuses: Lessons from 21 High-Performing, High Poverty Schools, in which Carter asserts that “rigorous and regular testing leads to continuous student achievement.” Similarly, No Excuses: Closing the Racial Gap in Learning details superb educational experiences with common systems of are strong academics with student supports such as a longer school day and school year. Finally, Equitas Academy draws inspiration from Jim Collins acclaimed book, Good to Great, in which he writes, “Greatness is not a function of circumstance. Greatness, it turns out, is largely a matter of conscious choice, and discipline.” At Equitas Academy, we are working toward greatness for each student and for the school as an organization through the discipline of mission focus.

9. GOALS FOR ENABLING PUPILS TO BECOME AND REMAIN SELF-MOTIVATED, COMPETENT AND LIFELONG LEARNERS

Research and learning theory have informed our program framework as the Equitas mission and vision provide a map for how learning best occurs and how to achieve the goals of an educated person in the new millennium. Our program goals include focusing on the needs of students for academic and life success realized through success in middle and high school and eventual college graduation. Our program goals are realized through providing a safe and structured environment where we are able to support students to meet academic standards articulated through California content standards proficiency, develop strong character values, and academic stamina in order to meet student’s own personal goals.

Our goals are informed through research and practices used at high achieving schools, and demonstrated success at the existing Equitas schools. Prior to the opening of the first Equitas school, Ms. Borrego, the school’s founding CEO, completed a residency at Leadership Preparatory Charter School — a charter school in Brooklyn, New York. Leadership Prep serves a high poverty, minority population, yet has demonstrated significant progress in reading and math, including dramatic annual gains in proficiency. Ms.

Borrego’s residency at Leadership Prep informed the design and innovative elements of Equitas’ first school, elements which continue to define the entire Equitas operation today.

In addition to using best practices from successful public schools and a strong research base, our school goals are informed by the No Child Left Behind Act of 2001 and its focus of accountability, standard-based curriculum, and high expectations with measurable goals. Specifically:

1. **We hold high academic and behavioral expectations for every student.**
2. **We engage and grow competent and experienced school leadership and staff.**
3. **We offer a rigorous academic program with intentional student supports.**
4. **We provide clear standards, research-proven curriculum, and frequent assessments.**
5. **We are a mission-driven school community.**

1. **We hold high academic and behavioral expectations for every student.**

Equitas Academy has developed and maintained a school culture that is achievement-oriented and is built on strong and universal values. The school’s core values of curiosity, optimism, gratitude, grit, self-control, social intelligence and zest\(^ {14}\) are explicitly taught and assist students rise to the high academic and behavioral expectations we hold for them. Teachers actively model and teach the values of the school throughout the day of instruction as well as during the weekly community circle.

**Academic Expectations**

A critical component of our success is that teachers communicate to students that they can learn to be smart; effort is continuously celebrated and rewarded in the classroom. A vast majority of characteristics that we have so often ascribed to “intelligence” are skills that can be taught and learned.\(^ {15}\) Each and every adult at Equitas Academy believes that all students are college-bound by holding students to high academic expectations at every grade level.

Teaching to mastery also is critical. Classes are structured to optimize learning, with common routines for all daily practices that minimize distraction and disruption from learning time, and with multiple formal and informal checks for understanding. Since all students are expected to meet or exceed grade level standards, if a student does not meet passing scores on assessments, multiple supports are put in place to work with the student until he or she has mastered the material. Equitas Academy formally recognizes and celebrates students who evidence the academic and behavioral excellence that lie at the core of the school’s values and educational program by gathering together each week with celebration at Community meeting. The school celebrates our core values by having teachers provide awards for students exemplifying the school values.

Teachers assign appropriate levels of homework at each grade level (ranging from 30

minutes per night in kindergarten to 60 minutes per night in 4th grade) and students are held to high expectations for nightly homework completion in order to practice skills taught explicitly during the school day. We recognize that many of our families have parents who work beyond school hours, thus approximately 60% of our scholars participate in our after-school program, which begins with a 60 minute session for homework completion. During this time, the after-school staff is available to assist students with their homework.

Because we believe this daily reinforcement of skills and content taught during the school day is critical to students’ academic growth, we have structured supports within the day to aid its completion. For example, if students do not complete homework they miss “choice time” at the end of the day. “Choice time” provides students opportunities to choose center learning opportunities (i.e., alphabet learning, manipulatives, poetry, writing, puzzles, computer, art, etc.).

**Behavioral Expectations**

*We seek to create confident, self-assured learners. We believe that confidence and self-assurance comes from our delivery of a structured learning environment that engages students in learning. Equitas Academy has high standards for student conduct and communicates those with clarity and consistency. We believe that every child wants to behave well, and will rise up to the expectations of the primary adults in their lives. We have established a positive, caring atmosphere where students feel safe and successful while being held to high standards of behavior at all times. A strong school culture is the foundation of student discipline, utilizing student engagement strategies. Behavioral expectations are consistent from classroom to classroom.*

All students are expected to wear uniforms and practice common courtesies (please, thank you, and proper greetings), use good table manners at breakfast and lunch, and learn how to converse respectfully with their peers and with adults. In all classrooms, students sit at their desks, listen and track the speaker. All the school’s high expectations are explicitly taught, constantly modeled, and appropriately reinforced to our students, and poor behavior choices are addressed quickly, effectively, and in developmentally appropriate ways.

The school day is structured and transparent so that students understand how to adhere to school routines. When necessary to redirect and correct student behavior, teachers are trained in common student discipline techniques. Teachers manage minor disruptions in their classrooms and teach the common routines and behaviors necessary for our students to be successful.

The entire school community is guided by a clear Code of Conduct. Implementation of the Code of Conduct is designed to ensure students engage in positive interactions with teachers and with one another throughout the school day. It also provides the necessary tools to guide students’ internal decision making in order to assist them in choices that will

16 Equitas Academy provides all students with a logo uniform upon admission to the school. The free uniform provided to each student includes a logo colored dress shirt, tie, pants, and sweater. If families need assistance with access to more uniform items, Equitas Academy provides families with access to additional uniforms.

lead them to success in college and life. The school’s Code of Conduct is based on preventing misbehavior with the appropriate incentives for following our Code of Conduct. Students are recognized during morning meeting and school wide during community meeting for their positive contributions and demonstrated commitment to learning and growing, thus modeling for all students what is expected and celebrated at Equitas Academy. Students earn privileges for positive behaviors (choosing your seat, lunch with a teacher or school leader, pencil, etc.), while those who engage in negative behaviors and violate the school’s Code of Conduct earn consequences such as loss of choices for students.

Character education is explicit at Equitas Academy with morning meeting each day and the school wide celebration of community meeting. Teachers create their own curriculum under the supervision and support of our School Director, Dean of Student Services and Curriculum Specialist. The goal of this curriculum is to have students internalize and utilize the school’s core values of curiosity, optimism, gratitude, grit, self-control, social intelligence and zest.17

2. **We will engage and grow competent and experienced school leadership and staff.**

We know that in order for any school to be successful, effective leadership must be present. Equitas Academy launched with strong leadership capacity from day one, including an experienced Chief Executive Officer, Chief Academic Officer, and School Director. The most successful charter schools have learned that there must be dedicated and senior staff responsible for both the organizational and the academic success of the school.18 A school must have academic results to be counted as successful, and a school must maintain financial health and conduct long-term strategic planning to project its success into the future.

**Senior Leadership Team**

Equitas has a centralized management and support structure for all of our schools in the Equitas Network (aka “CMO” or “Network”) that includes:

Our **Chief Executive Officer (CEO)**, reporting to the Board of Directors, is responsible for leadership and management of all aspects of the school’s strategic development and operations, execution of the mission and all external and non-academic functions, including Board relations, regulatory reporting, financial operations, and fundraising. Successful managerial experience and proven practice with our student population is integral to this position.

---

18 High performing charter schools that utilize a leadership model divided between the academics and organization success of the school include Roxbury Preparatory, Boston, MA; Camino Nuevo Charter Schools, Los Angeles, CA; and Academy of the Pacific Rim, Boston, MA.
The **Chief Academic Officer** (CAO) reports to and works closely with the CEO as he/she focuses on is responsible for providing vision, management experience, and educational expertise for all Instruction at Equitas Academy’s network of schools. The CAO leads the organization in the planning, development, implementation, delivery, and evaluation of instructional programs for all scholars, including services for Special Education and English Language development; provide decisive, dynamic leadership and supervision of curriculum and instruction, including special education, state and federal categorical programs, pupil services, program evaluation, and staff development; provide direction and inspiration for our continual improvement in academic content standards and assessment, teaching and learning, and professional development; and supervise, develop and evaluate the performance of staff including the School Directors.

The **Chief Operating Officer** (COO) reports to and works closely with the CEO. He/she focuses provides strategic leadership and planning for non-instructional aspects of school management, including facility acquisition and management; information technology; internal financial processes; human resources; vendor management; compliance; enrollment; lottery; and student information systems.

The **Vice President of Talent and Strategy**: recruits the high quality educators and candidates for our school and organization, and is responsible for attracting, developing, and retaining a highly-talented, diverse team of teachers and staff with strong growth mindset and commitment to our mission, and ensuring the organization and its departments have well-defined goals, clear strategies, and effective processes to monitor progress and achieve our annual and long-term goals.

**Network Support Roles**

Leadership and support roles reporting to the Senior Leaders, including:

**Curriculum Specialist(s)**: develops the Common Core aligned curriculum for our schools, develops network assessments K-8, provides professional development to our school directors and teachers on the Common Core State Standards and any adopted curriculum, develops the lesson plan template to ensure high quality instruction that is assessment-based and student-centered.

**Director of Special Education**: oversees our entire Special Education Program at all schools, and is responsible for the coordination of services, completing all compliance reports, coordinate IEP’s and complete LAUSD SPED checklist. Equitas hires its Special Education staff including Para- professionals, and consultants, and has fiduciary responsibility for meeting all IDEA requirements. Our Director of Special Education also provides Professional Development to our classroom teacher on methods to identify students with special needs, and how to support SPED students through a co-teaching, push-in model. A push-in model holds teachers accountable for student learning, supports the student with a co-teacher, and de-stigmatizes the student because instruction takes place in a mainstream classroom, supported by a specialist to ensure the student’s IEP needs are being addressed.
School Staff

Equitas Academy 5’s **School Director/School Leader/Principal** (School Site) will focus on daily issues of teaching and learning. Having a School Director solely devoted to improving instruction and supporting teachers and students allows us to remain focused on academic outcomes. This leadership structure also allows the School Director to conduct daily classroom observations to keep our focus on improving teaching and student learning.

The **School Operations Manager** assists with all operational matters at the school site, is responsible for operations and reporting, and to ensure the school is operating smoothly. Teachers at Equitas Academy 5 will be recruited and retained by the School Director because they are effective, professional, and dedicated educators. Teachers must be experts in literacy development, particularly with the needs of our target population. Teachers will be credentialed and highly qualified as required by the Every Child Succeeds Act (ESSA).

To develop and ensure teacher effectiveness, teachers will be observed daily by the School Directors, Deans, and/or Assistant Directors as well as instructional coaches who are current teachers. Teachers will be provided informal feedback once a week and formal feedback/evaluation at least two times a year. Teachers will participate in four weeks of mandatory training prior to the opening of the school with additional professional development required as part of the teacher salary throughout the year based on the needs of the students/staff and directed by school leadership observations. Prior to the school year starting, teachers will practice the school-wide routines that underpin the daily work of learning, solidify their ability to implement the school's Code of Conduct in clear and consistent ways, plan curriculum, write assessments, and analyze state standards and standardized tests to ensure curriculum alignment.

Teachers will participate in performance-based compensation determined by student academic progress and school leadership evaluations. Teachers will be given planning time to collaborate and will be observed regularly by school leadership. Instruction and its improvement drive the school culture, and learning and its measurable results drive instruction.

Combined with an experienced and highly trained faculty and staff, and the use of outside consultants and expertise (legal, back-office, special education, professional development and more), Equitas Academy is designed to ensure that appropriate staffing and operations support all facets of our program.

3. **We offer a rigorous academic program with intentional student supports.**

Equitas Academy offers rigorous academic programming beginning in the youngest grades to ensure a foundation of skills that sets students on the path for academic success.
**Foundational Skills— Common Core and the Content Areas**

Our academic program is centered on mastery of foundational skills in literacy and mathematics, along with mastery in the core content areas of social studies and science, all based on the California content standards including the Common Core and new Next Gen Science Standards. Students benefit from longer literacy and math instruction in the primary years. Specific attention and longer instruction in literacy ensures students have early literacy success that supports them to higher levels of achievement. The overall literacy program is based on the five components of a balanced literacy program: phonemic awareness/phonics, fluency, vocabulary, comprehension, and writing.

**College Readiness and Awareness**

To ensure college graduation, we emphasize college readiness and awareness starting in kindergarten. Students along with their families take field trips to local universities as early as kindergarten. While the work and college discussion begins in the earliest years, the entire school carries out these practices. In addition, all courses and instruction are planned and implemented for students to gain the foundational skills, transcripts, and test scores - and the personal ambition - necessary to enter college preparatory middle and high schools.

**Extended Day and Year**

A critical teaching methodology at Equitas Academy is to provide teachers more time to teach and support students, and to provide more time for students to learn and advance. More access to effective instructional time increases learning. As noted above, students attend Equitas Academy for an extended school day and year. School opens at 7:30 am and dismissal is at 3:30 pm for all grade levels. The school year extends to 180 days. Catherine Dodd\(^\text{19}\) examines several studies that explore the question of whether extending learning time for students in need of support can bridge the academic gap. In one study, extending the school day for kindergartners using the same curriculum as its half-day counterparts made a significant difference in the achievement levels of the full-day participants.\(^\text{20}\)

Beyond providing a longer school day, Choice Time is provided for students who do not adequately complete daily assignments and voluntarily for students who would like a quiet space to complete their work or need tutoring support.

**Culturally-Relevant Learning Environment**

Our culturally-relevant learning environment honors our diverse representation of students as an asset to the school community. Because of the large Latino population, all home communications are accessible in English and Spanish. This helps to instill in our students that their bilingual capacities are attributes and gifts, as well as assets. We recognize our

students have multiple identities whether as immigrants, Americans, and/or Angelinos, and we organize the learning environment to meet these needs and honor these identities.

4. **We provide clear and consistent standards, research-proven curriculum, and frequent assessments.**

Clear standards ensure learning is focused on the specific skills and content knowledge that students need to master in a logical and sequential manner and allow for effective planning of instruction and assessments. All school curricula is fully aligned with California Content Standards, which "are designed to encourage the highest achievement of every student, by defining the knowledge, concepts, and skills that students should acquire at each grade level,"\(^\text{21}\) as well as the Common Core State Standards and, going forward as they are implemented, the newly approved Next Generation Science Standards. The Curriculum Specialist guides and supports all classroom teachers as they organize and plan all daily lessons using these standards, with reliance on the CDE’s Curriculum Frameworks for each subject. All assessments and instruction are designed for mastery of the standards.

**Uniform Instructional System**

To maximize learning, all teachers in all grades follow a Uniform Instructional System (UIS). Working within a model that provides for direct instruction, guided practice, and student mastery, teachers use an instructional approach often referred to as “I do,” “We do,” “You do.” Teachers begin by making a connection to the student’s prior learning and directing the teaching to the lesson’s objective (“I do”). Students then move to practicing content with the teacher’s guidance (“We do”). After the teacher feels confident in the students’ understanding as a group, the lesson moves into individual student practice (“You do”).

Teachers also implement the use of a Unified Blackboard System\(^\text{23}\) (UBS) with elements that include: 1) Do Now, or lesson starter, 2) Aim or learning standard, 3) Agenda or steps for the lesson, 4) and Homework. Each teacher begins instruction with a Do Now, a five minute quiet activity to get students engaged in the lesson. On the board, the teacher writes the Aim or learning standard and agenda for the day. The homework assignment is also posted so students know and are able to write down their daily homework assignment.

Students receive a weekly syllabus in English and translated in Spanish to inform parents about the daily agenda, homework, and learning objectives.

**Research-Proven Curriculum**

Equitas Academy utilizes curricula with a proven track record and research base. Using state adopted curricula that are standard-based ensures students have access to

standards-aligned, research-proven instruction.

**Frequent Assessments**
Assessment is essential for measuring students’ academic needs and ensuring that all students are mastering the learning standards. At the beginning of every school year, incoming students are assessed with age-appropriate, standardized assessment tools giving teachers assistance in the process of designing curriculum, lessons, and pacing, as these formative, benchmark assessments provide a clear understanding of current student mastery. These assessments also enable us to identify students who may need extra help to reach mastery on learning content standards. At the end of each year, we administer these same assessments in order to measure individual and cohort longitudinal progress and the efficacy of the curriculum and instruction, designing refinements and changes where needed.

Curriculum-aligned, standards-based interim assessments are developed by school leadership and staff, and are administered to students every trimester. Teachers use these periodic assessments to measure how well students are mastering the standards. Teachers meet with their coach after each assessment to discuss the results and to create an action plan when re-teaching is necessary. Student performance data drives whole class instruction, small group work, and one-on-one tutoring. Interim assessments allow teachers to effectively assess students’ skill needs and target instruction and support to address specific deficiencies. By continuously using data to drive instruction, the academic needs of every student are met. A thoughtful, sequential series of frequent assessments (see Element 3 for details on assessments) continuously informs leadership and staff as to the efficacy of the instructional program and student supports, and guides all decisions in a time-effective and proactive manner for every student.

5. **We are a mission-driven school community.**

We involve all members of the school community in the pursuit of our mission, and to continuously channel our collective energies towards our unrelenting goal of academic achievement and college readiness for every child. Within our achievement-oriented school community, we engage all community stakeholders in the development of school’s core values—curiosity, optimism, gratitude, grit, self-control, social intelligence and zest. The Board of Directors brings expertise, time, and commitment to excellence in governing the school and achievement of its mission. School leaders are primarily responsible for implementing the school’s mission. School leaders support the work of teachers to ensure the staff is able to successfully deliver the rigorous academic program, monitor, and adjust the program to meet the individual needs of the students. Teachers are hired because of their unwavering belief that students can learn and achieve at high levels and their demonstrated capacity that they can deliver on this belief. Teachers are committed to the planning and delivery of standards-based lessons daily, as well as providing daily, individualized academic support as needed. Beyond school leaders and staff, we also ensure that the following stakeholders are continuously engaged in realizing our school mission:
Parents/Families
Parent are continuously encouraged to be engaged in their child’s education through family orientations, home visits, parent workshops, and frequent communications between school and home. After the school lottery, families attend an orientation meeting in which school leaders explain the school mission, philosophy, code of conduct and family responsibilities. Before the first day of school, Equitas Academy leadership and staff ensure that families are knowledgeable about the school and understand their commitment to their child’s education by having families acknowledge and sign a contract.

Families are invited to attend four Family Workshops a year provided and facilitated by the Dean of Support along with teachers. The workshops are held at times conducive to various family schedules. Workshop topics in the primary years include how to help your child read, do math, increase language development, and complete homework. In the upper grades, workshop topics include the transition from elementary to middle school, preparation for college preparatory high schools, and college field trips and informational sessions. Families also have an opportunity to inspire the workshop topics. In helping our students reach a high level of rigor, we ensure we are meeting the needs of our families whether they speak a language other than English or have limited educational backgrounds. These workshops are bilingual, optional and not required for families to attend.

Cafecitos (or coffee talks) occur in the morning once a month with parents, school leadership and/or teachers, communicating curriculum, homework supports, and strategies to help each child succeed. Cafecitos are a time for parents and the school to communicate and build relationships all in support of the school’s ambitious and critical mission. The School Director facilitates these gatherings in English and Spanish.

Students
With supports, students embrace the strong school community environment and demonstrate the school mission through their academic performance, internalization of the school’s core values and involvement in the community. Our students manifest the academic, behavioral and leadership goals of the school. From the first day of school, students set academic and personal goals. Teachers communicate with students on a daily, weekly, and on a trimester basis regarding their personal goals. In addition, parent-teacher-student conferences are held twice annually to ensure that teachers, students and parents are communicating about the student’s progress and any concerns that may arise. This helps to motivate students and encourages them to take ownership over their own learning and progress as they both set their own goals and then engage in meaningful discussions about their progress.

We plan follow our students after matriculation by developing an alumni network, exemplifying our college-driven focus. Over time, alumni will be given opportunities to return to Equitas Academy to tutor students, participate in high school and college chats and mentor members of the current student body.

Community
Building strong ties with the local community also is critical. Equitas Academy has partnered
with individuals and organizations in the Pico Union and Los Angeles community through outreach efforts to business, policy makers, community leaders, and key stakeholders that are dedicated to helping students obtain academic success. Partnerships include the Rotary Club, Salvation Army, SALEF, Families In Schools, and our public libraries.

As our reputation in the community has grown, the members of our school community exhibit pride in the school, themselves and the broader Pico Union community. This helps our students and their families feel a powerful sense of belonging, which in turn helps to motivate them to work hard and succeed.

10. THE REQUIREMENTS OF EDUCATION CODE § 47605(B)(5)(A)(II)

Equitas Academy 5 will pursue the following school wide and subgroup outcome goals, based on the state priorities detailed in California Education Code § 52060(d). Student performance and achievement of school-wide, subgroup and individual student progress is measured by multiple and varied summative and formative assessments that are aligned to state and federal standards (including the new Common Core) and reflect proficiency measures required by the new California Assessment of Student Performance and Progress (CAASPP), as well as state priorities detailed in California Education Code § 52060(d).

The following chart details the school’s annual goals, for all pupils pursuant to California Education Code § 52052, for each of the eight (8) state priorities identified in California Education Code § 52060(d), including specific annual actions the school will take to achieve each of the identified annual goals.

E. INSTRUCTIONAL DESIGN

11. CURRICULAR AND INSTRUCTIONAL DESIGN OF THE EDUCATIONAL PROGRAM: KEY EDUCATIONAL THEORIES AND RESEARCH

We further detail the academic program and the teaching methodologies that inform the development of our educational program, which include:

- Extended Learning Time
- Uniform Instructional System
- Teaching for Mastery
- Strategies and Supports for Student Mastery of Instructional Materials
- Intensive Focus on Literacy and Mathematics
- A Rigorous Standards-Based Curriculum: Core content areas of language arts, mathematics, social studies, and science
- Life Skills/Ethics Curriculum

Extended Learning Time
A critical teaching methodology at Equitas is to provide teachers more time to teach and support students, and to provide more time for students to learn and advance. Increased effective instructional time allows students more time to learn and more time used in a constructive manner will result in stronger student performance. Equitas students attend school from 7:30 am until 3:30 pm. After-school tutoring and homework assistance is provided for students who do not adequately complete daily assignments and voluntary for students who would like a quiet space to complete their work or need tutoring support after-school. The extended school day is designed to provide more time for learning in addition to opportunities for school day tutoring (provided by teachers), enrichment (provided by enrichment teachers), and other support supports.

The school day schedule allows for more time in school and a substantial amount of time over the California minutes of instruction:

We provide more instructional time than required by California Department of Education. Within our extended day and extended year program, Equitas provides daily supports to ensure the additional learning time is handled in developmentally appropriate ways. In order
to keep students focused, teachers will ensure the pacing of lessons is interactive and engaging. The use of chants, kinesthetic movements, and positive reinforcements will encourage student engagement.

Uniform Instructional System to maximize learning, all teachers in all grades follow a Uniform Instructional System (UIS). Working within a model that provides for direct instruction, guided practice, and student mastery, teachers use an instructional approach often referred to as “I do,” “We do,” “You do.” Teachers begin by making a connection to the student’s prior learning and directing the teaching to the lesson’s objective (“I do”). Students then move to practicing content with the teacher’s guidance (“We do”). After the teacher feels confident in the students’ understanding as a group, the lesson moves into individual student practice (“You do”).

Teachers will also implement the use of a Unified Blackboard System (UBS) with elements that include: 1) Do Now, or lesson starter, 2) Aim or learning standard written as a measurable objective, 3) Agenda or steps for the lesson, 4) and Homework. Each teacher will begin instruction with a Do Now, a five minute quiet activity to get students engaged in the lesson. On the board, the teacher will write the Aim or learning standard and agenda for the day. The homework assignment will also be posted so students know and are able to write down their daily homework assignment.

Students receive a weekly syllabus to inform parents about the daily agenda, homework, and learning objectives.

Teaching for Mastery
Assessment is essential for measuring students’ academic needs and ensuring that all students are mastering the learning standards. At the beginning of every school year, incoming students are assessed with standardized assessment tools such as NWEA MAPs, giving teachers assistance in the process of designing curriculum, lessons, and pacing, as these formative, benchmark assessments provide a clear understanding of current student mastery. These assessments also enable us to identify students who may need extra help to reach mastery on learning CCSS. At the mid-point and end of each year, we will administer these same assessments to measure individual and cohort longitudinal progress and the efficacy of the curriculum and instruction, designing refinements and changes where needed.

Standards-based interim assessments for each grade will be developed by Equitas’ Curriculum Specialist in collaboration with the School Leader (principal) and teaching staff, and administered to students every trimester. The interim assessments are standards aligned and we ensure this by running a regression analysis of student performance on the

24 USB is a successfully instructional practice used by high performing charter schools such as Excel Academy, Boston, Roxbury Preparatory, and Edward Brooke in Boston, MA, and described by Dr. Lorraine Monroe in her book, Nothing’s Impossible: Leadership Lessons from the Inside and Outside the Classroom, 1997. Random House, NY. Teachers will learn how to implement USB system during the three weeks of summer professional development for returning staff and four weeks for new staff and as needed during the school year.
SBAC and interims to ensure performance alignment. Teachers will use these periodic assessments to measure how well students are mastering the standards. Teachers will meet both individually and as a group with the School Director after each assessment to discuss the results and to create an action plan when re-teaching is necessary. Student performance data drives whole class instruction, small group work, and one-on-one tutoring. Interim assessments will allow teachers to effectively assess students’ skill needs and target instruction and support to address specific deficiencies. By continuously using data to drive instruction, the academic needs of every student will be met. Parents are partners in assuring students are meeting the rigorous mastery standards, therefore, communication is vital. Equitas provides multiple formats and structures to ensure parents are informed of the results of these assessments, such as weekly progress reports, and thus parents are knowledgeable and able to be proactive in helping their children meet learning standards.

**Strategies and Supports for Student Mastery of Instructional Material**

Students learn at varying rates. Schools that expect all students to meet high standards must be prepared to support students until they reach mastery, regardless of the pace or style by which they learn. We offer:

- Clear, engaging, high-quality lessons in the classroom
- Increased learning time relative to other district schools
- Pull-out and push-in instruction by teachers certified with a special education credential and related services such as counseling, speech, and occupational and physical therapy for students who require it
- Teachers tutor students who require additional individual and small-group attention occurs during the school day
- Intentional English Learner curriculum and supports for English Language Development

All of these strategies and supports ensure that all students (high achieving students, students with disabilities, English Language Learners, and/or students not maintaining academic standards) meet and/or exceed the high standards that we set at Equitas.

**12. CURRICULUM AND INSTRUCTION**

The curriculum for Equitas Academy 5 addresses all grade-level appropriate California Common Core State Standards and managed in a core setting.

**a. English Language Arts**

Literacy is the key academic skill on which all future skill and knowledge acquisition is based. One of the greatest barriers that hinder students’ academic success is a weak foundation in literacy. Studies confirm that success or failure in building a foundation of fundamental literacy in the primary grades is a compelling gauge of future academic success. According to the National Research Council, “academic success, as defined by high school graduation, can be predicted with reasonable accuracy by knowing someone’s reading skill at the end of 3rd grade. A person who is not at least a modestly skilled reader by that time is unlikely to graduate from high school.”

---

The language arts program at Equitas Academy is aligned fully with the new Common Core standards. While our pedagogical approach is student-centered and we individualize instruction as much as possible, our general scope and sequence follows that of the Common Core State Standards Initiative. The Common Core’s “College and Career Readiness Anchor Standards” dictate the broad goals for what all students should be able to do prior to graduating high school in order to be ready for higher education and a range of career options, while the K-5 standards inform the more grade-specific expectations. Our language arts curriculum utilizes state adopted textbooks, teacher-created curriculum and a variety of supplementary resources to enhance student learning including leveled libraries and guided reading (based on Fountas and Pinnell’s Guided Reading), daily test preparation, grammar, mechanics, and usage, Step Up to Writing and Thinking Maps. Teachers also use trade books, primary historical documents, and non-fiction texts, i.e. *Time Magazine for Kids* and *The Los Angeles Times*).

In particular, we introduce in TK/Kindergarten the basics of reading, exposing students to a range of literature (stories, drama, and poetry) and informational texts (historical, scientific, and technical texts, and literary nonfiction). Students learn to ask and answer questions about key details in a text with prompting and support. They also learn to retell familiar stories, demonstrating their ability to identify characters, settings, and major events. They begin to understand the mechanics of reading as well, learning to follow words from left to right and recognize uppercase and lowercase letters along with the corresponding sounds. In terms of writing, kindergarten students combine drawing, dictating, and writing to express ideas and narrate events. They begin to show a command of the English language regarding grammar and usage when writing and speaking. They hone their speaking skills by participating in collaborative discussions with different partners about the texts or key topics covered in class.

Each subsequent grade builds upon the reading, writing, speaking, listening and language skills introduced in kindergarten. The instruction at each grade level includes increasingly complex reading materials and as the students develop stronger skills, they assume more independence in their work assignments. Students will be able to apply grade-level phonics and word analysis in decoding words. By 4th grade, the students will have developed their critical thinking skills to the point that they will be able to compare and contrast using quotes and evidence from a text.

To achieve mastery of the Common Core literacy standards, we employ a research-proven, balanced-literacy program as outlined by the federal government: (phonemic awareness and phonics, fluency, vocabulary, comprehension and writing), that includes a significant focus on phonics. Students in kindergarten through third grade receive intensive phonics and phonemic awareness instruction using SRA Reading Mastery to ensure they have a solid foundation in fundamental reading skills. If there still is a need for

extensive phonics instruction in reading and writing after the third grade, students receive one-on-one tutoring with a teacher to improve their skills. A foundation of strong literacy skills developed in the primary years through the instruction of a balanced literacy program allows literacy instruction in the upper grades to focus powerfully on deep comprehension of a variety of fiction and non-fiction texts. We recognize that reading proficiency is essential to the mastery of all other academic subjects; therefore, students must graduate from Equitas Academy reading at or above grade level in order to be successful in college.

The literacy program at Equitas Academy is divided into four reading blocks and a read aloud with independent reading time for all grades:

Team teaching in literacy is utilized to lower the student/teacher instruction ratio and provide for shared teaching experience. Because teachers share instruction for all students, teachers are able to lesson plan together and collaborate on how to meet the needs of individual students. Teaching is made public as all teachers work together to meet the needs of every student. All grade level teachers plan together and deliver the same lesson plans. We divide the students into smaller groups based on flexible-ability reading groups which rotate among the teachers. This enables our teachers to focus their efforts on a specific skill set or strategy with small groups, and enables students to receive targeted instruction based on their needs. This is particularly critical as we help our significant English Learner population become English-proficient.

**Phonemic Awareness and Phonics:** The balanced literacy approach begins by teaching phonemic awareness and sound-letter correspondence and progresses to word and passage reading, vocabulary development, comprehension, and building oral reading fluency. After building a foundation, later lessons emphasize accurate and fluent decoding while teaching students the skills necessary to comprehend and learn from expository text. Lessons are fast-paced and interactive. Student instruction is differentiated as students are grouped by similar reading level, based on placement tests.
In upper elementary grades, literacy instruction makes the transition from emphasizing phonics and phonemic awareness to intermediate grammar and novel reading. Students begin dissecting sentences and classifying various parts of speech, and diagramming complex sentences, and reading various prose and poetry (novels, plays, sonnets, poetry, speeches) with instructional supports.

**Read Alouds:** As detailed in the seminal report, *Becoming a Nation of Readers*, written by a nationally recognized group of experts on the study of how children develop and learn language, “The single most important activity for building the knowledge required for eventual success in reading is reading aloud to children.” 28 This is true not just of the earliest grades, but throughout all levels of our school: “The commission found conclusive evidence to support reading aloud not only in the home but also in the classroom: It is a practice that should continue throughout the grades.” (p. 51.)

Based on this research, Equitas Academy builds read alouds into the literacy blocks and infused within curricula areas like Science, Social Studies, and Character Education. All Read Alouds are tied to standards learning and have an explicit lesson plan with directed instruction, purpose, and objective for learning. Students are encouraged to read aloud and be read to daily by parents/teachers to increase their decoding ability and fluency rate. Fluency is the rate and accuracy with which students are able to read. Read alouds, direct reading instruction, and independent reading all work to increase student fluency. We test all students’ fluency on a weekly basis to ensure students are progressing.

**Vocabulary:** Embedded in Reading Mastery are strong vocabulary strands. Equitas Academy teachers build the vocabulary skills of our students through a strong compliment of independent reading and structured instruction. Bill Honig, 29 a respected early reading expert cites compelling research on the subject:

- Students who score in the top five percent on reading tests read 144 times more than students who score in the bottom five percent.
- By the fifth grade, if students want to make grade level progress, they should be reading more than 1.1 million words a year of outside-of-school reading (25 to 35 books or the equivalent) which should take 15 to 30 minutes a night; this is in addition to the 1.7 million words of school text. Instead of reading the necessary 2.8 million words, the average fifth grader reads only about 900,000.
- Although teaching vocabulary strategies (e.g. word families, scaffolding, etc.) helps retention rates, the vast majority of new words can be learned only through reading. To reach these levels, students need to read the recommended 25 to 35 books a year after the first grade.

**Independent Reading Time (IRT):** Each day, students have an independent reading time (IRT). This time expands upon the more typically used “Silent Sustained Reading” (SSR) or “Drop Everything and Read” (DEAR) programs. The job of the teacher during IRT is to get

---

all of his or her students to be avid, active readers by finding appropriate books, inspiring students to read, and monitoring their independent reading. During this time, teachers utilize standards-based lesson planning to implement mini-lessons to strengthen student learning. In addition, we utilize a leveled library system to ensure students are reading books at their appropriate reading levels. A leveled library is a system for coding books by reading level, e.g., levels A, B, or C is a kindergarten reading book. The leveling system is based on text analysis and language characteristics. Using this system, teachers assess students’ reading ability and help students choose appropriate books at “their just right reading level.”

Teachers model comprehension strategies at the start of IRT in a mini-lesson and students utilize these strategies during their independent reading time. For example, the teacher may ask the students to further their understanding of their IRT book by making a text to text connection to the class Read Aloud book earlier that day. At the end of IRT, students volunteer the connection made during their reading. Teachers also actively coach students to ensure students are utilizing comprehension strategies, choosing appropriate books, and constructing meaning during their independent learning time.

Comprehension: Equitas Academy teachers build student comprehension skills in two different ways. First, through the study of literature (each grade level reads both fiction and non-fiction), teachers develop students’ standards-aligned comprehension skills. A standards-based novel unit creation tool aids teachers in developing standards-based questions for novels, and teachers share this base of top-quality units with each other as part of weekly professional development and common planning time. As students progress through the elementary grades they read books with increasingly higher-level vocabulary and complex novel plots. In upper elementary grades, students read classical texts from a wide-range of authors in fiction, non-fiction, and poetry. Students also develop their literacy skills through the reading, analysis and production of Shakespeare. Modeled after Rafe Esquith’s Hobart Shakespearean program at Hobart Elementary in LAUSD, students have an opportunity to live the life of one Shakespearen play each year. Teachers teach Shakespeare during one literacy block and after students have analyzed and comprehended the text, participate in producing a play during enrichment time.

In addition to building comprehension through literature, students learn to deeply analyze text. Using shorter pieces of primarily poetry and non-fiction, students learn to identify question types and go back to the text to find the answers to those questions. Students are asked to prove their answers, and rich discussions about question types and text proofs build the analysis skills of students. Students present both written and oral presentations to demonstrate comprehension.

Writing: We offer a rigorous writing curriculum that is designed to have students produce writing with excellent organization, elaboration, and flow in multiple genres. The curriculum has a heavy focus on sentence structure, basic grammar, and paragraph formation. We use

---

31 Reading comprehension strategies are informed through *Mosaics of Thought* written by Susan Zimmermann and Ellin Oliver Keene, who outline eight cognitive processes identified in comprehension research and used by successful readers.
the Step Up To Writing curriculum. Students complete daily oral language activities that support the development of grammar skills. Teachers use a variety of grammar materials in daily mini-lessons. Students also learn step-by-step how to develop excellent sentence structures, paragraphs, and essays. Extensive prewriting, drafting, revising, and editing take place on all pieces of writing. Equitas Academy students are able to produce top-quality narratives, expository and persuasive essays, research papers, and literary analysis essays. A strong foundation in phonics ensures students are fluent readers able to analyze text using explicit comprehension strategies. Our Common Core-aligned writing program prepares students to think critically and communicate clearly with regards to their ideas, both a fundamental skill for life and success in higher education.

**Literacy Across the Curriculum:** As envisioned by the Common Core standards, Equitas Academy has, from the beginning, included a focus on literacy in all subjects for all grades. Classes in social studies and science are able to serve both as an opportunity to develop students’ core reading skills to a greater degree, as well as to increase their content knowledge in these subjects. For example, 2nd grade students may be reading the book *From Seed to Plant* (Gibbons, 1991) in literacy classes to reinforce the 2nd-grade science standards on ecosystems and plants. Journal entries may be used in science lessons to document students’ observations, aligned to grade level writing standards. Historical fiction is used in literacy to reinforce social science lessons. Character education in the younger grades and ethics courses in the upper grades all utilize literature-based lessons. Increasing reading fluency across subject areas allows students to access content in all of their classes to a greater degree.

**English Language Development for English Learners:** We meet the needs of our significant English Learner population via specific supports and strategies across the curriculum and instructional day designed to foster their English Language proficiency. Two literacy blocks each week are specifically dedicated to ELD for all English Learners, grouped by ability/proficiency level, e.g., ELD levels 1 and 2 are in the same group, Level 3 and 4 students are in the same group, and Level 5 and English proficient students (EOs) are grouped together. This targeted ELD instruction for 80 minutes each week enables targeted English Language instruction in the context of grade-level literacy development. Equitas Academy will use Into English for ELD curriculum.

**b. Mathematics**

Similar to our ELA program, our math program is entirely aligned with the new Common Core standards, and includes a multi-disciplinary approach to ensure we connect mathematics instruction to science learning. From TK/kindergarten through third grade, Equitas Academy students have a daily mathematics course that focuses on computation and a second math session daily that focuses on application and other critical math skills (calendar, money, number line, etc.). In TK/kindergarten we introduce counting skills and the concepts of addition and subtraction. To create a basic foundation for place values, we expand students’ number knowledge to include 11-19. Our teachers help students grasp a basic understanding of measurement by comparing “measurable characteristics.”
also introduce problem-solving skills and other mathematical practices in age-appropriate ways.

For each subsequent grade, teachers use scaffolding techniques to build students’ math skills focusing on the following categories: 1) operations and algebraic thinking, 2) number and operations in base ten (and beginning in third grade to include fractions) 3) measurement and data; and 4) geometry. In fourth grade, math classes include mathematics operations (focusing on math computation) and mathematics problem solving (focusing on math application). The math program also gives the school an opportunity to provide remediation as needed as well as provide advanced and expansive mathematics instruction.

The gradual increase in skill development can be illustrated with the example of geometry. Starting in kindergarten, students learn the names of basic shapes. In 1st grade, they are able to identify the main characteristics that distinguish shapes (straight versus curved exterior, number of sides, etc.) and are able to draw shapes. They also partition shapes to form “halves” or “fourths.” In 2nd grade, they deepen their understanding of shapes’ attributes further to include angles. In 3rd grade, students realize that shapes can be grouped into classifications according to their attributes, like rhombuses and rectangles being quadrilateral shapes. Students also begin to grasp the idea that by partitioning shapes into different equal parts means the sub-parts have equal “areas.” By 4th grade, students elevate their understanding of shapes’ classifications and are able to draw shapes based on their lines and angles, including symmetry and asymmetry. As a culminating application, students learn to graph points on a coordinate system with two axes in order to solve real-world math problems.

The curriculum recognizes that students need both basic fact knowledge and “automaticity” with procedural computation as well as deep understanding of conceptual concepts and the ability to solve complex mathematical problems. Therefore, in the early grades, students use the Saxon Mathematics curriculum, a highly effective spiraling curriculum that gives students an exceptionally strong foundation in arithmetic skills, procedural computation, and conceptual understanding. All Equitas Academy students know their addition and subtraction facts by the end of second grade and their times tables by the end of third grade. Students are expected to complete basic addition, subtraction, multiplication, and division computations to 95 percent accuracy. Teachers require students to apply this strong basic skills knowledge in challenging problem-solving situations. Specifically, students are expected to: use basic symbols to solve simple and complex problems; gather and interpret data using graphs and charts, predict outcomes of probability experiments; and solve problems involving proportional relationships. We use a problem-solving supplement that provides daily demonstration of problem-solving skills.

Math lessons follow a structured lesson plan designed for maximum success. The beginning of class includes a review of all homework assignments will include cumulative review. There are also daily sections for basic facts review and problem solving. Concepts are introduced in a set sequence, emphasizing both step-by-step approaches and explanations for all mathematical processes. Math classes also make use of the rap,
rhythm, and rhyme techniques pioneered by Harriett Ball\(^{32}\) and as used successfully by many of the highest performing public schools serving urban students.

c. **Social Studies**

Research has shown that one major reason that urban students score lower on reading tests is that they lack sufficient background knowledge to comprehend more complex text\(^{33}\). When one reads a text, he or she must know how to decode the words and how to analyze the text. To truly understand the text, however, one must also know the basic vocabulary and contextual information the author assumes his or her readers understand. For this reason – and the importance of our students understanding the world around them – it is essential that students receive a rich and rigorous education in social studies.

Our social studies curriculum follows the comprehensive and challenging California State Standards and now incorporate the Common Core as well. Teachers use the state adopted California Vistas textbook program to present curriculum in an engaging and challenging format. Teachers expect students to master the key concepts and vocabulary, and they also teach them to analyze primary sources, debate different points of view, and make cause-and-effect connections. Social studies classes are fast-paced and teachers work with students to hone their non-fiction reading skills, learn important content, and apply and retain it in written essays and oral presentations.

d. **Science**

Science instruction combines student mastery of core vocabulary and conceptual knowledge with the application of scientific principals in laboratory settings. The science program is designed to address all the California Science standards, which were recently modified to align with the Next Generation Science Standards (www.nextgenscience.org). We agree with current thought leaders in the science community that “learning about science and engineering involves integration of the knowledge of scientific explanations (i.e., content knowledge) and the practices needed to engage scientific inquiry and engineering design.”\(^{34}\)

In kindergarten, students acquire basic knowledge about energy flow, understanding that animals need food to survive, while plants need water and light. They are introduced to weather and climate concepts, and grasp the meaning of natural resources and natural hazards. Teachers organize activities that help students understand humans’ impact on our environment. Students also learn about motion and stability, connecting the push-pull dynamic. Many of the science standards covered in kindergarten simultaneously help them to comprehend “cause” and effect.

\(^{32}\) Harriet Ball has developed “multi-sensory teaching” techniques that simultaneously address audio, visual and tactile-kinesthetic (A-V-T/K) learners. More information on Harriet Ball can be found at [http://www.harriettball.com](http://www.harriettball.com).

Equitas Academy 5 Charter School
New Charter Petition September 2017
For each subsequent grade, our teachers employ scaffolding techniques to build students’ science knowledge and to foster their sense of curiosity about the physical world they live in and the energy forces they observe. At culmination of our program, students’ understanding about energy flow, a topic first introduced in kindergarten, deepens to the point that they realize that energy from food was once energy from the sun, which was captured through photosynthesis by plants. They appreciate the interdependence of ecosystems. Students comprehend gravity and the effect of the sun on earth given its proximity compared to other stars. Students learn that matter can be subdivided into particles and understand that chemical reactions can occur when different substances combine. As a highly valuable long-term skill, they learn the principles of engineering design and are able to identify problems and strategies to test for solutions.

Using both the hands-on FOSS science curriculum with the Harcourt Science textbook ensures students have access to an engaging and challenging curriculum. Science assessments, for example, include sections that focus on the key terms and ideas of a unit as well as a performance task component that requires students to synthesize and analyze data from laboratory experiments. Teachers also actively work to reinforce key mathematical concepts, especially graphing and measurement skills.

e. Character Education/Ethics

The Equitas Academy curriculum incorporates a rigorous and developmentally appropriate program of values and character education to prepare students to thrive in school, college and the world. This curriculum guides all students with the life skills necessary to create self-motivated, competent, and lifelong learners. Established curriculum such as Second Step and Morning Meetings are used along with developmentally appropriate texts that highlight and teach our school’s core values of curiosity, optimism, gratitude, grit, self-control, social intelligence and zest. These values are the basis of a school culture that provides a safe and productive environment necessary for the academic, social, and emotional growth of every student. We believe that ethics are important in creating civic individuals. Ethics combined with perseverance help students to successfully confront the challenges they will face as they grow and mature and to avoid self-destructive behaviors and situations they may face as adolescents and young adults.

The development of perseverance and/or grit is particularly key to our students’ success. Therefore, we focus on this value and drill the mantra that you must work hard. We are charged with helping students develop the capacity, when faced with difficult decisions and situations, to make educated decisions and not run from difficult situations but rather have learned to deal with challenges with a strategy to mitigate the challenges they face. Teacher professional development includes significant time devoted to common practices for positively dealing with academic errors on tests or mistakes made in homework, helping

students build confidence, and fostering and modeling integrity, perseverance, dignity, pride, respect, and compassion. We create learners that feel confident about learning and have the skill sets to understand how to sit still, focus, be quiet, listen well, and organize themselves for successful learning.

Much of the emphasis in the primary years on character education is furthered with the ethics curriculum in the upper elementary grades as students become more self-aware and autonomous. Students in the upper elementary grades have an opportunity to explore multicultural literature in the pursuit of ethics, or the study of what it means to be a good person. Students read a collection of materials to explore the philosophy of what is right and what is wrong and engage in debates, written analysis and deeper level thinking on ethical issues.

**Morning Meetings:** Each day it is important for the Equitas staff to convey the urgency and excitement of learning. The tone of the day is set with the first interaction. Every morning, the leadership team, along with teachers, greets students with a morning handshake. Once students pass through the school threshold, a professional, considerate and scholarly environment is maintained. Building on the morning handshake, each student begins their day with an emphasis on the Equitas Academy core values. The primary teachers implement Morning Meetings as this sets the tone for a respectful learning environment. Morning Meetings motivate students and create an environment of trust, community, respect, and scholarship. The meeting format includes the teacher beginning with a class greeting using class chants or a group motto, group activities, and closing. In addition, morning meetings provide opportunities for developing student vocabulary, oral language and team building skills. While a short period of the day, it sets the tone for the learning community and extends beyond the meeting.

**Community Circle:** Justice, fairness, and equity also are important values infused throughout the school culture and rituals. Through studying nonviolent social movements for justice, learning strategies for problem solving and conflict resolution, and our emphasis on respect for self, perseverance, and respect for others, our students learn to navigate challenges and conflicts in a peaceful way.

To create this school culture and infuse the ethics curriculum on a school-wide level, every Friday all students come together to participate in a Community Circle, where teachers and school leaders exemplify and celebrate the school’s core values. Explicitly teaching values helps students achieve and succeed in our rigorous, college preparatory academic program, and grows students into young adults that embody the values that build self and community beyond the schoolhouse doors. The school leadership and teachers celebrate student progress, prepare lessons to illustrate the core values and bring a global perspective of justice, equity and fairness through presentations and activities.

---

Structured Break Time: In addition to the morning and weekly rituals to build community, each break time for the primary students is organized to allow students authentic experiences for practicing the school's core values. Teachers role-play and lead lessons on teamwork, cooperation, and compassion during morning meeting and throughout the character education lessons. Break times are a period when teachers monitor and support the students’ development in these areas. It is a time when teachers scaffold supports for students and help build language and confidence in working together.

f. Mission-Driven Enrichment Program

For students to become competitive and college bound, they must be well rounded and have access to as many enrichment opportunities as possible. Therefore, we develop students’ talents and interests in an enrichment curriculum that is an integral part of our daily educational program. Students in the early grades attend enrichment classes that include such areas as movement, yoga, foreign language, technology and drama, with a rotating curriculum each trimester. The enrichment curriculum is implemented by teachers devoted to enrichment as well as part-time instructors (if necessary) to implement the program.

Physical Education: Equitas Academy’s physical education curriculum reflects California State Standards and teaches students about a fit and healthy lifestyle. American children are becoming more and more obese and fitness levels are decreasing. All children at Equitas Academy have physical education classes each day with planned instruction to develop motor skills, and an understanding of common sports like baseball, basketball, soccer, and volleyball. The curriculum prepares students for the California FitnessGram Physical Education test, and also teaches students how to play different sports and games as well as reinforce messages about nutrition, teamwork, and fair play.

Music: The music program, based on the program developed by Rafe Esquith at nearby Hobart Elementary, begins in kindergarten with learning how to read music and play an instrument (instrument will depend on fundraising). Whether students play a recorder, guitar, or piano, students receive a strong foundation in music. A full time enrichment teacher is employed to teach the music curriculum. Each year the enrichment program offered varies so students rotate access to the enrichment courses such as music, yoga, technology, etc. Upper elementary students have an opportunity to participate in an orchestra during the after school period and on Saturdays upon solidifying fundraising dollars to implement this program. The orchestra program goals include students being able to play an instrument, tune their own instrument, and play music at a competitive level.

Technology: Students in the 21st century need to be technologically literate; that is, they need to know how to use the computer in the ways that professionals use it daily. All students will receive explicit instruction in basic typing skills, Word, Excel, PowerPoint, and email by both classroom teachers and enrichment teachers. In the lower grades, students

---

use computer-based learning programs to master foundational literacy skills. Primary students use the computer for literacy programs, research and fact-finding to complete assigned projects and homework. We plan for one computer for every three students utilizing computer carts with chromebooks by the end of the charter (or at the end of the five years). With the switch to Smarter Balanced computer assessments, our focus on technology is important to the success of our students. Students will access technology on a daily basis. Technology instruction is integrated into the core curriculum and used for testing. We propose to have a computer cart for each grade level but plan to roll out a computer cart for every classroom in the next five years. We have also applied to Federal Erate programs to build our technology infrastructure to allow for more bandwidth and access points for wireless Internet. With the roll out of Common Core and Smarter Balanced testing, we have invested substantially in technology, training and infrastructure. Technology training with be headed by the Curriculum Specialist and he/she will also have experts in technology provide professional development. Training will include powerpoint, typing, literacy and math online programs, and keyboard basics.

Innovative Components of the Instructional Model

As detailed throughout this petition, our most innovative elements, based largely on successful "best practices" at schools across the country founded by Building Excellent Schools fellows, include:

- college preparatory curriculum;
- slow growth model of growing one grade level each year based on the model of the highest achieving urban charter schools serving a similar population;
- laser focus on the core content areas of literacy, mathematics, science, social studies, and character education/ethics;
- intentional use of data to drive instructional decisions.

13. COMPREHENSIVE COURSE LIST

As an elementary school, Equitas Academy 5 provides instruction to all students in the previously listed subjects.

14. INSTRUCTIONAL METHODS AND STRATEGIES

The instructional methods and strategies at Equitas are based on proven models in schools serving similar populations of students (e.g., other Building Excellent Schools fellows’ charter schools across California and the nation). These schools, including the existing Equitas schools, share the following key characteristics:
Shared Characteristics of High Performing Charter Schools

| • Firm belief that all students can learn and achieve at high levels. | • Frequent internal assessments with data to drive instruction. |
| • Clear, outcome-focused mission, understood by all, and evidenced throughout the school. | • Strong positive discipline code enforced by all. |
| • Leader(s) highly visible ensuring all are focused on mission. | • Clear and frequent communications with parents regarding student performance. |
| • Highly-structured learning environment and organization. | • Strong curriculum focus on skill mastery. |
| • Classroom practices promote continuity (and predictability) from one classroom to another. | • Extended school day and school year. |

15. HOW THE SCHOOL’S INSTRUCTIONAL METHODOLOGIES AND CURRICULUM WILL ENSURE STUDENT MASTERY OF THE CALIFORNIA CCSS AND OTHER STATE CONTENT STANDARDS

The entire content of Equitas Academy 5’s curriculum will have the California state standards, including CCSS, as its foundation. Units will be explicitly designed to ensure all grade-level standards are met. Equitas Academy 5 recognizes the importance of regular, ongoing professional development in the continued implementation of the CCSS and realizes the importance of keeping abreast of CCSS developments, new publications and requirements.

16. HOW THE INSTRUCTIONAL PROGRAM WILL SUPPORT STUDENT DEVELOPMENT OF TECHNOLOGY-RELATED SKILLS AND STUDENT USE OF TECHNOLOGY

Equitas is committed to ensuring that all students have the technological skills to compete in the 21st century and are prepared to take online assessments. As detailed above, all students will receive explicit instruction in basic typing skills, Word, Excel, PowerPoint, and email. By the time they enter high school, students will be proficient with these programs, and have the necessary technological literacy to further their education and interests. Students will use computer-based learning programs to master foundational literacy skills. Then students will use computers for research and fact-finding to complete assigned projects and homework. Technology instruction is integrated into the core curriculum.

17. SPECIFIC GRADUATION REQUIREMENTS
18. WESTERN ASSOCIATION OF SCHOOLS AND COLLEGES (WASC) ACCREDITATION

If Charter School serves students in grades 9-12, before Charter School graduates its first class of students, Charter School shall obtain, and thereafter maintain, Western Association of Schools and Colleges (WASC) accreditation.

Equitas Academy 5 will seek Western Association of Schools and Colleges (WASC) Accreditation

19. TRANSFERABILITY OF COURSE CREDIT

Not applicable.

20. TRANSITIONAL KINDERGARTEN

If the Charter School provides transitional kindergarten, Charter School shall comply with all applicable requirements regarding transitional kindergarten. For purposes of admission to Charter School, transitional kindergarten shall be considered a part of kindergarten.

The curriculum for Transitional Kindergarten at Equitas Academy 5 will be aligned to the California Preschool Learning Foundations (Foundations) developed by the California Department of Education, per Senate Bill (SB) 858 (Chapter 32, Statutes of 2014)).

21. ACADEMIC CALENDAR

Charter School shall offer, at a minimum, the number of minutes of instruction set forth in Education Code section 47612.5, and the number of school days required by California Code of Regulations, title 5, section 11960.

Equitas Academy 5 begins after Labor Day runs through the end of June. The school calendar shares nearly all vacations and holidays with the Los Angeles Unified School District (except for Winter Break) and includes 180 days of school instruction. The school begins at 7:30 am and ends at 3:30 pm. The design of the academic year supports the mission of the school. To begin planning for the year, teachers report in August for professional development. In total, we provide 24 paid professional development days before, during, and after the school year to ensure our teachers receive training and development necessary to create the excellent instructional practice on which our success depends. In addition, our year is divided into three trimesters. Report cards will be sent out at the conclusion of each trimester, to ensure effective communication regarding each student’s progress. See sample school calendar for more details. The instructional days are listed each month with a total of 180 days.

Equitas Academy 5 Charter School  
New Charter Petition September 2017
22. SCHOOL DAY SCHEDULES

To further describe the program at Equitas Academy, sample school day schedules are provided. School opens at 7:15am and the start of the instructional day is 7:30 a.m. with dismissal at 3:30 p.m.

The morning begins with Bright Work folders that will be used consistently in each classroom as students enter the classroom each morning, containing practice exercises that support remediation or acceleration of learning, based on individual student needs and have an instructional component. Bright work also includes Do Nows and reviews whole group instruction of standards that need remediation or acceleration.

For, English Language instruction includes three hours or 160 instructional minutes daily. The Core Teaching includes 40 minutes of alternating Social Studies and Science instruction. In addition, students attend a 40-minute Enrichment class taught by an enrichment teacher, which includes alternating classes of movement, yoga, art, foreign language, drama, and/or music. There is a 30-minutes duty-free lunch break for teachers.

Because we believe this daily reinforcement of skills and content taught during the school day is critical to students’ academic growth, we have structured supports within the day to aid its completion. For example, if students do not complete homework they miss “choice time” at the end of the day. “Choice time” provides students opportunities to choose center
learning opportunities (i.e., alphabet learning, manipulatives, poetry, writing, puzzles, computer, art, etc.).

Beyond providing a longer school day, Choice Time is provided for students who do not adequately complete daily assignments and voluntarily for students who would like a quiet space to complete their work or need tutoring support and as a daily block for RTI (response to intervention).

On Friday, the schedule is shortened for teacher professional development. The shortened schedule, which releases students at 1:45 pm, is provided below.

23. INSTRUCTIONAL DAYS AND MINUTES

As noted, our school year extends to 180 instructional days. The school day schedule allows for more time in school and a substantial amount of time over the California state required minutes of instruction.

24. TEACHER RECRUITMENT

In order to deliver on our rigorous academic program, Equitas Academy 5 will recruit and select outstanding educators with passion, subject mastery, extensive experience with urban youth, and the commitment to do whatever is necessary to ensure the uncompromising academic performance of our students. Equitas has existing partnerships with Teach For America, Building Excellent Schools, and Schools of Education (USC, UCLA, Cal State University System, Stanford University, Loyola Marymount, etc). In addition to outreach efforts, teacher retention is essential and best practices are drawn from charter schools with proven success in attracting and supporting the best educators.

Equitas Academy 5 expects to attract applications from exceptional teachers who reflect the background and experience of its students and have the subject mastery and teaching skill to achieve outstanding academic outcomes. Led by Equitas’ Vice President of Talent and Strategy, the school will implement a comprehensive hiring process to select teachers ready to commit to the demands of educating all students at the highest level without excuse.

All teachers are highly qualified as required by the No Child Left Behind Act.

Teachers are closely supervised through frequent observation and assessment in the areas of content delivery, effective classroom management, and appropriate use of student achievement data to individualize or modify instruction. Teachers are regarded as respected professionals. Teachers benefit from planning periods to ensure ongoing collaboration. Teachers will plan to link instruction to common core and use student achievement data to constantly adapt curriculum. Teachers who teach the same students meet together to review each student’s academic progress individually and collaborate with parents to provide students with the most appropriate, rigorous, and data-driven individualized attention during our regular Friday professional development.

24. ONGOING PROFESSIONAL DEVELOPMENT

Professional Development is initiated based on the following:

- Findings from student data, based on student needs and school culture
- Feedback and request made from our faculty (teachers)
- Grade level PD - Observations from our Leadership Team on the use of effective research-based pedagogy
- School Director PD – focuses on what the school needs
- Targeted PD – What are the trends and goals?

School wide goals are developed in the summer with a scope and sequence in collaboration with other Equitas Academy schools. Equitas sets the following 3 types of goals:

1. Culture - what are indicators that support a strong student culture of student engagement?
2. Leadership - open to feedback, trying new methods, professional, demonstrate leadership

3. Instructional Goal – set by each teacher to class wide and subgroup proficiencies

These three types of goals are revisited during every coaching session or meeting. Teachers who are new to the profession meet with their Instructional Coach on a weekly basis; while experienced teachers meet biweekly or more often as needed.

With the implementation of the Common Core State Standards, our Network Curriculum Specialist has focused on implementing a ‘workshop model’ throughout every classroom across all Equitas schools, using Lucy Calkins, model for teaching literacy skills (reading and writing). Calkins has written over 10 books on strategies for teaching reading and writing, and is a Professor of Curriculum and Teaching and the Founding Director of the Teachers College Reading and Writing Project, at Columbia University. The Curriculum Specialist has received extensive training on Calkins model, and is collaborating with our teachers to ensure vertical alignment across all Equitas campuses (TK-8), with specifically designed templates through an in-house professional development program.

Equitas Academy 5 will provide all teachers with 4-weeks (160 hours) of Summer Professional Development in the first year and then three weeks each thereafter, in addition to 9 non-instructional days throughout the school year (1 day per month). Teachers also participate in weekly professional development each Friday afternoon with early dismissal. Prior to each professional development meeting, teachers have data conversations based on weekly data with grade level colleagues. Professional Development needs are identified through observations and staff surveys. Our teachers are also provided sufficient planning time daily to meet with their Instructional Coach.

Professional development training includes the following:

- Common Core State Standards: ELA/ELD Frameworks
- Common Core State Standards in Math: Expressions curriculum
- Next Generation Science Standards
- Use of Effective research-based instructional strategies: Inquiry approach, constructivist approach, differentiation, use of technology to enhance and engage student learning
- Using Data to drive instruction
- Classroom management skills
- Creating a college-going culture
- Culture of high expectations
- Lucy Calkins Readers and Writers Workshop
- Doug Lemov’s Teach Like a Champion
- Paul Tough’s Whatever it Takes (based on Harlem Children Zone)
- Carol Dweck’s Growth Mindset
- Fountas & Pinnell Reading Assessments
- Whetstone Education – teacher coaching model
- Workshops through Building Excellent Schools
• Workshops from Uncommon Schools
• Increasing Student Talk (teacher-centered instruction)

All teachers are expected to read Doug Lemov’s Teach Like a Champion, a 2-part book where the first part focuses on effective pedagogical strategies and part 2 focuses on Literacy Skills, including:
• Setting High Academic Expectations
• Planning that Ensures Academic Achievement
• Structuring & Delivering Your Lessons
• Engaging Students in Your Lessons
• Creating a Strong Classroom Culture
• Setting & Maintaining High Behavioral Expectations
• Building Character & Trust
• Improving Your Pacing
• Challenging Students to Think Critically
• How All Teachers Can (and Must) be Reading Teachers
• The Fundamentals: Teaching Decoding, Vocabulary Development & Fluency
• Comprehension: Teaching Students to Understand What they Read

During non-instructional professional development days, our teachers collaboratively review student data, samples of student work, learn about effective pedagogical strategies, plan the curriculum, conduct parent conferences, attend educational conferences and trainings, and visit the 50 highest performing schools in the nation as part of our partnership with Uncommon Schools and Building Excellent Schools. For example, during one of our non-instructional days, the entire teaching and leadership staff of Equitas Academy 2 (grades 5-8) visited KIPP in Los Angeles, a school that is successfully closing the racial and socio-economic gap in literacy and mathematics. Questions that we are consistently asking ourselves are - Are we learning? Are we growing? What best practices can we learn from these schools?

Equitas also has purchased Whetstone Education, an instructional online platform to support efficient and collaborative teacher development, tailored to meet the needs of our teachers and coaches. Whetstone provides an observation framework for teacher evaluations with rubrics that can be accessed with a tablet or laptop. It serves as an additional teacher coach with tools to set, track and drive development against a personalized growth plan developed by each teacher. For Instructional coaches, Whetstone provides a flexible tool to support, streamline and enhance their approach to coaching and collaboration, with a walk sheet to organize the most actionable teacher coaching information. For administrators, it serves as a one-stop shop to view both the organization as a whole, or disaggregate specific-teacher performance against a set of various criteria; view group or individual performance, set organization-wide areas to focus on; and organizes a comprehensive data set specific to what Is actionable for administrators, instructional coaches and teacher with illustrative graphs for visual understanding.

Equitas uses the Danielson’s Framework as its evaluation rubric that focuses on: Planning and Curriculum; Implementation and Instructional Delivery; Student Learning; Behavior
Management; Professionalism; Interpersonal Skills; and Professional Development. All coaching sessions and observations are documented for both parties to ensure clarity and transparency. Teachers receive weekly feedback and coaching sessions from their Instructional Coach.
G. MEETING THE NEEDS OF ALL STUDENTS

In order for Equitas Academy 5 students to meet the high expectations of preparedness for entrance into college preparatory, prestigious, top performing and competitive schools, there must be supportive services in place throughout the school. Content mastery is crucial to academic success; therefore intentional supports are organized to ensure all students meet academic expectations. Student supports are designed to meet individual students’ needs and in addition specifically address the needs of English Learners (ELs), socio-economically disadvantaged students, high achieving students, students achieving below grade level, and special education students. Student supports are also designed as a means for prevention, intervention, and acceleration of learning.

The teaching methodologies as well as components of our instructional program outlined have all been shown to be highly successful with our target student population. As a charter school, we have the ability to use innovative ways to meet students’ academic needs. English language acquisition, the development of a college preparatory focus, more time to learn, and daily student supports are all key to our students’ success in the earliest grades.

Extending the learning day to 4pm will help advance the learning of all students, including students who need academic supports or opportunities for accelerated learning. For example, students who need additional literacy development will get specific time during the extended day for support as longer periods of time are devoted to core subjects in our longer bell schedule. For high-achieving students, acceleration can also occur during this time.

Within our educational model, students are further supported through the following key elements.

Differentiated Instruction and Flexible Ability Reading Groups
As part of our literacy program, and to meet the needs of individual students, flexible ability reading groups allow focused instruction at the appropriate skill level. In order to differentiate instruction for students at different academic levels, classes will present the same content but the instruction will vary according to the ability levels of the group. All students will be placed into a flexible ability reading group based on the baseline data generated from testing during the first few weeks of school. As students’ reading ability develops, they will be able to transfer to different ability level reading groups throughout the year in the same class but different groupings.

Highly-Structured Learning Environment
Effective learning cannot occur in an atmosphere of chaos and disorder. Creating a structured environment allows teachers to focus on teaching and allows students to learn. This is essential to the delivery of the school mission. Expectations will be outlined in the student code of conduct which will be presented and re-presented on a family contract that must be signed by families and students; and in classrooms during the first days of school.
Common School-Wide Procedures
Specific behaviors will be taught through common school-wide procedures which infuse our daily rituals and routines. The school’s Code of Conduct is clear and detailed and includes both positive and negative consequences for behavioral choices. Students who exemplify school values and positive behavioral choices will earn rewards such as the opportunity to go on extra field trips while students who violate the Code will lose privileges such as recess (where students self-select from various educational games and activities the teacher has placed out, typically at the end of the week as a class reward for good behavior and hard work), field trips, and fun activities. Families will be notified of their child’s behavior on a daily basis and on a weekly basis (or more frequently as needed), so that parents can be involved in helping students to reach all academic and behavioral expectations.

Significant and repeated violations of the Code of Conduct will result in families being called into school to create a solution and, if sufficiently disruptive can eventually result in more serious disciplinary action. By focusing seriously and in developmentally appropriate ways on rules and behavioral standards, an environment conducive to effective learning will be maintained.

Emphasis on our daily, weekly, and annual rituals, in addition to uniformity in practice across classrooms will allow students to understand and live up to school expectations. We will provide professional development time before school begins to ensure all teachers use similar behavioral systems (i.e., school wide systems for distribution of papers, materials, behavioral systems, and homework distribution/collection).

Individual Work Folders
As students enter in the morning, they will have morning work that contains academic assignments to practice learning. The morning work will include practice for students which can be remediation or acceleration depending on the needs of the students.

After School Supports
After school supports is an additional support. Students will have access to enrichment activities such as sports, playing a musical instrument, dance, and art. If students need remediation, they are required to attend tutoring support during this time. If students are not completing daily homework, students are encouraged to attend Homework Club and complete their work during this time. This part of the extended day will provide a quiet and structured environment where students can receive assistance as needed.

Homework Systems
Homework will be a review of instruction and will help students’ master skills and content learning. This helps students develop study skills and habits necessary for academic success. Students will read for 30 minutes each night and will be required to complete at least of one hour of homework. Parents will be notified and coached regarding the importance of daily homework completion if students do not complete their homework.

Tutoring
Tutoring is a key component of Equitas. Tutoring will take place during and after school. During enrichment/choice time in the school day and after school time, students will be able
to access additional tutoring with teachers. Students who demonstrate weakness in a core content area will attend tutoring for a six-week period during the school day, until those students demonstrate on an interim assessment that they are now successfully mastering the class material. During the six-week tutoring sessions, teachers will review the content from the previous six weeks. At the end of the six-week tutoring session, students will be re-tested. If a student again scores 70 or below, he/she will attend tutoring for an additional six weeks.

**Parent Communication**
Communication is integral to parent participation and student success. We will inform parents of student progress through daily, weekly and monthly systems in the families’ home language. These systems include immediate phone calls, regular correspondence, trimester report cards and meetings, and three formal parent-teacher conferences. Weekly homework syllabi, behavior and reading logs, and quarterly newsletters will keep parents informed about their child’s progress at school. Parents can also access teachers through voicemail and email to get immediate daily concerns addressed. All communications will be accessible to families who speak a language other than English. Equitas Academy 5 will utilize technologies such as Parent Square - a voicemail system able to call parents to notify them their student is absent, communicate the homework and make announcements to the entire community if needed.

Parents will be informed of their child’s academic and behavioral progress at regular intervals. The assessment system is set up as three trimesters with progress reports and benchmark assessments every six weeks. Parents will receive progress reports to inform them of their child’s grades, academic strengths and weaknesses and any concerns about promotion to the next grade. Also, a weekly syllabus will inform parents about key learning, homework, and standards to be met that week. Parents will also sign homework and quizzes to acknowledge receipt of information.

Students at Equitas are held to rigorous standards and expected and supported to meet grade level standards mastery. Students at risk for retention will be identified in conjunction with the student, his/her family, teacher, and school site personnel. If students are unable to meet grade level standards as documented by grades, assessments, or comprehensive exams, supports will be put into place to assist students to meet grade level standards.

**Student Supports: Prevention, Intervention and Acceleration**
In addition to the highly effective structures offered at Equitas to support and challenge students, additional strategies will target students who may have additional needs—students performing far below or above grade level, students with low socioeconomic status, English Language Learners, and Special Education students. School-wide structures will be the first step in meeting the needs of students performing below or above grade level, but additional supports will be introduced for any student who:

- is performing more than one level below or more than one level above his/her actual grade level
- is not on track to make at least one grade level of growth in reading, writing, and math
• does meet the two criteria above but has persistent challenges with the school’s academic or behavioral expectations

A Student Success Team (SST) will be the process by which students are identified for additional supports and individualized plans are created for each student based on their educational needs. The SST process will include identifying additional instructional supports, a timeline for implementation, goals for the student, and means for assessment. All SST plans will be communicated with parents, students, teacher(s) and the School Director.

The SST is a systematic, individual, solution-oriented approach to assist students with factors that are interfering with academic success. The SST clarifies problems and concerns, develops strategies and organizes resources, provides a system for school accountability, and serves to assist and counsel the parent, teacher and student. All students can benefit from an SST, including but not limited to those students achieving below or above grade level, English Language Learners, students with special educational needs, and students who have experienced issues that might hinder their academic success at school.

Identification
Anyone who has a concern for a student can refer that student for an SST for consideration. Students are referred to an SST by teachers, parents, counselors, doctors, administration, social workers and law enforcement representatives. The meeting is designed to bring out the best in the people involved.

SST Form
The SST can be an initial, review or termination meeting. SST meetings are set for twelve weeks of intervention with every six weeks until termination of SST. Student information, such as student strengths, parental/teacher concerns, assessment and evaluation results and any other information pertinent to service needs and provisions are recorded on the SST. A description of the individualized instructional program which will meet the needs of the student, including specific strategies that will be used with the student are documented. The current performance level is documented using assessments and/or other measurable data. Goals are articulated with a method of measurement. At least an 80% mastery rate is required on each objective for the goal to be met. Goals for high achieving students would include additional work/projects the teacher would prepare to expose and challenge the student. For instance, a goal for a high achieving student might be to increase performance on national normed assessment for growth at 150% above normed growth. A projected completion timeline for each goal is articulated with an objective, evaluation criteria and projected completion date.

SST Meeting
The Equitas Academy 5 SST meetings shall include the following steps:
1) Team members introduce themselves and their roles, the lead is designated
2) Purpose and process of the meeting are stated
3) Timekeeper is appointed
24. MEETING THE NEEDS OF ENGLISH LEARNERS

Charter School shall identify potential English Learners in a timely manner in accordance with all applicable legal requirements. Charter School must provide all English Learners with an effective English language acquisition program that also affords meaningful and equitable access to Charter School’s core academic curriculum. Instructional plans for English Learners must be (1) based on sound educational theory; (2) adequately supported with trained teachers and appropriate materials and resources; and (3) periodically evaluated to make sure the program is successful and modified when the program is not successful.

On an annual basis, upon request, Charter School shall submit a certification to the LAUSD Charter Schools Division (CSD) that certifies that Charter School has adopted and is implementing either the LAUSD English Learner Master Plan or Charter School’s own English Learner (EL) Master Plan. If Charter School chooses to implement its own EL Master Plan, the plan shall provide a detailed description of Charter School’s EL program, and shall address the following:

- How Charter School’s EL Master Plan provides all of its English Learners, including but not limited to Long Term English Learners (LTELs) with an effective English language acquisition program as well as meaningful and equitable access to Charter School’s core academic curriculum
- How English Learners’ specific needs will be identified
- What services will be offered
- How, where, and by whom the services will be provided
- How Charter School will evaluate its EL program each year, and how the results of this evaluation will be used to improve the program, including the provision of EL services

Each year, Charter School shall provide to the CSD a report on its annual evaluation of the effectiveness of its EL program. Upon request, Charter School shall provide a copy of its current EL Master Plan to the CSD.

Charter School shall administer the CELDT/ELPAC annually in accordance with federal and state requirements.
Charter School shall reclassify English Learners in accordance with federal and state requirements.

Charter School shall provide parent outreach services and meaningfully inform parents with limited English proficiency of important information regarding Charter School matters to the same extent as other parents.

Equitas Academy 5 has structured its curriculum and instructional program to meet the needs of a significant EL population with respect to language development. EL students respond well to a plan of instruction in which each aspect of the language builds on another, with plenty of opportunities for practice. The goal is for EL students to gain fluency in English as quickly as possible in a non-threatening setting. Our EL program addresses the process for student identification, curriculum, assessments, reporting, and redesignation as well as professional development and teacher qualifications for working with our EL students.

Supporting our EL students, almost all of whom are Spanish speaking, requires that we take an approach that ensures the quickest acquisition of English. It also requires that we respect the culture and home language of our students. In order to reach the goal of strong English fluency and respect for the mother language of our native speakers, we provide a developmentally appropriate and highly structured approach to teaching English in our core academic classes. Equitas Academy helps students identify that their bilingual capacity is an asset, an admirable and necessary skill. Equitas Academy teachers and leadership communicate to parents in Spanish as needed—but use English instruction for the content areas in the classroom.

a. Student Identification

Equitas Academy 5 will serve its EL students in accordance with all applicable state and Federal laws and regulations. A home language survey (HLS) is distributed to every parent as part of the enrollment process. The purpose of the HLS is to identify students who come from homes where a language other than English is spoken. The survey is equitable, comprehensive, and not based on prior assumptions. Students who list a language other than English on any of the questions of the HLS, will be identified as an English Language Learner initially, until their actual language proficiency is determined through the CELDT. Students whose primary language is not English will be assessed using the California English Language Development Test (CELDT/ELPAC) or the English Language Proficiency for California (ELPAC) assessment aligned to the CA ELD Standards if he or she has not previously been identified as an English learner by a California public school or if there is no record of prior CELDT/ELPAC test results. CELDT/ELPAC assessment will take place within 30 days of the start of the school year or within two weeks after the date of first enrollment at the school.

The English language proficiency of all currently enrolled English Learners is assessed in accordance with the test contractor’s directions and California Education Code guidelines. Students with disabilities are permitted to take the test with the accommodations listed in...
the Education Code if they are specified in the student’s IEP or Section 504 plan. An alternate assessment for English language proficiency is administered to students who are unable to participate in the CELDT/ELPAC test, according to the guidelines set forth in the student’s IEP. Equitas notifies parents of the school’s responsibility to conduct CELDT/ELPAC testing and will inform parents of CELDT/ELPAC testing results within 30 calendar days following receipt of test results from the test contractor. Students are monitored in conjunction with the California English Language Development Standards levels described below:

1. **ELD 1: Beginning**: The student will respond in English using gestures, simple words and phrases to demonstrate understanding while working with familiar situations and texts.

2. **ELD 2: Early Intermediate**: The student will respond in English using expanded vocabulary in phrases and simple sentences to demonstrate understanding of story details and basic situations with increasing independence.

3. **ELD 3: Intermediate**: The student will respond in English using expanded vocabulary and descriptive words for social and academic purposes with increased complexity and independence but with some inconsistencies.

4. **ELD 4: Early Advanced**: The student will respond in English using complex vocabulary with greater accuracy; the student will also demonstrate detailed understanding of social and academic language and concepts with increased independence.

5. **ELD 5: Advanced**: The student is required to respond in English using extended vocabulary in social and academic discourse to negotiate meaning and apply knowledge across the content areas.

Parents are notified of their child’s ELPAC scores each year, as well as when a student is being considered for Reclassification and again when they are officially reclassified.

**b. Educational Program for English Language Acquisition**

All EL students will learn with all other students in the classroom during instructional time. Our direct-instruction program is geared to all literacy learners, especially EL students. In addition, EL students will have English language tutoring time in small groups twice weekly. Teachers use modeling, graphic organizers and visuals to support students’ recognition of essential information in all academic subjects. Teachers are mindful of the stages of language acquisition and differentiate instruction within the classroom to meet the needs of each student. Students at the beginning and early intermediate stages of language acquisition are still learning how to read, write, listen and speak in Academic English, and will benefit most from ELD strategies. Students at the Intermediate level are taught using Academic English skills in reading, writing, listening and speaking to learn content and will benefit most from SDAIE strategies.
Teachers work with EL students though daily reading, writing, and discussion activities to determine each student’s literacy habits and skills. Three relevant themes guide the school's English Learner support system: (1) the critical role of vocabulary in language development; (2) the critical role that oral language plays in the development of academic English language proficiency, including vocabulary, reading, and writing skills; and (3) the critical relationship between English language acquisition and instruction in other academic subjects.

c. How The Program Will Meet The New State ELD Standards And Use The Results Of The CELDT/ELPAC

Our programs to support English Learners are based on the new California ELD Standards. Because the current California English Language Development Test (CELDT) is aligned to the 1999 ELD Standards, the CELDT program will be replaced by the proposed English Language Proficiency Assessments for California (ELPAC) system, which will be aligned to the 2012 revised CA ELD Standards. Until the ELPAC system is fully operational, Equitas will continue to administer the CELDT as the state’s measure of ELP and for federal accountability under Title III of the Elementary and Secondary Education Act (ESEA).

EL instruction will be grounded in the best available research on supporting ELs in an English Immersion environment and guided by the CA ELD Standards. Students will be expected to advance at least 1 ELD level, or the equivalent ELPAC Proficiency Level Descriptor, annually as measured by the CELDT/ELPAC. Additionally, teachers of ELs will assess student progress towards attainment of the standards using a standards-based guide, for example, EL portfolios.

If students are not making sufficient academic progress as indicated through CELDT/ELPAC data, we will modify our EL program as needed.

Equitas Academy 5 will ensure that teachers are qualified and supported to meet the needs of ELs. We will hire teachers that are CLAD/BLAD certified, and will place a priority on hiring teacher(s) that speak Spanish and English and can provide strong instruction within a structured immersion classroom. We also support teachers by providing professional development on structured immersion instruction, specially designed academic instruction in English (SDAIE) teaching strategies, language development, monitoring, and assessment of ELs. We commit to monthly professional development specifically addressing the instructional effectiveness, reviewing assessment data and revising curriculum to meet our EL students’ needs.

Parents will be notified regarding their child's English Language Development along with CELDT/ELPAC scores every progress report or every trimester and/or as often as needed.

d. Services And Supports For English Learners, Including Instructional Strategies And Intervention

See Section (b) above. Equitas will ensure all teachers receive comprehensive professional development in meeting the levels of rigor and depth required by the CA ELD Standards.
Teacher professional development will focus developing reading and writing skills of EL students. Strategies to assist EL students in each classroom will include front loading content area vocabulary, using graphic organizers, pairing students with an English proficient student partner, and allowing for 1:1 support with teacher assistants.

**e. Process For Annual Evaluation Of The School’s English Learner Program**

Teachers regularly evaluate student progress by reviewing EL data from formative and summative assessments. Teachers use the results of this data to change their instructional practices to better serve each student. In order to document progress, all teachers receive an ELD folder for each of their EL students that is used to monitor individual progress at their targeted ELD level. These folders include the ELD standards by level (Beginning, Early Intermediate, Intermediate, Early Advanced, and Advanced). Teachers use these folders to collect student work samples, and check of mastery towards each ELD standard. Portfolios are submitted for review three times a year. In addition to ELD folders, a Master Plan folder is created for each student and kept in their cumulative folder. This Master Plan folder documents their EL status, tests taken to date, parental notifications to date, and final reclassification decisions. It also serves as an archive for CELDT/ELPAC Scores and ELD folders from previous levels and years, and benchmark reading levels from previous years. Together with the other information in the Cum it will include all relevant information such as attendance, CAASPP scores and class programs. The master folder for each student is reviewed by the teacher early in the fall semester in order to provide teachers with most accurate reflection of their student’s progress to date. The goal is for each student to progress by at least one level per year on the CELDT/ELPAC until they are able to be reclassified. Every year, the teacher leaders, administration, and Board reviews the school’s EL program, surveying teachers, students, and parents, analyzing reclassification rates, and examining assessment data to evaluate whether the Equitas Academy 5 EL program is effectively meeting the needs of our students.

**f. Process and Specific Criteria For Reclassification**

Students scoring Early Advanced (4) or Advanced (5) on the CELDT/ELPAC are considered for possible reclassification. In order to be considered, a student must obtain an overall score of Early Advanced or Advanced. If a student scores below Intermediate on any subtest (Listening, Speaking, Reading, Writing), he/she will no longer be considered to reclassification despite an overall score of Early Intermediate or advanced. Teachers will submit ELD folders and work samples for each student that was administered the CELDT/ELPAC regardless of score.

Annual Review of Student Progress begins mid spring, after CELDT scores become available and just after the second submission of ELD folders and work samples. All student ELD folders will be initially reviewed by the ELD coordinator. If the standards check off sheet and work samples indicate Average Progress or Advanced Progress for their identified ELD level and CELDT scores also meet the requirements listed above, the student will move forward on to the second step of the Reclassification process.

The reclassification team (which includes the teacher, an Administrator, and may include a
parent) reviews the information listed above as well as teacher recommendations and overall successful classroom performance in academic areas as indicated by report cards, and benchmark/summative assessment type tests. The reclassification team also discusses if the student has met sufficient goals. If a student has satisfied all of these requirements they will then be recommended for reclassification pending the release of CAASPP scores for that year. If a student scores Proficient or above on the ELA test, he/she will be officially reclassified, and their file will be updated to reflect R-FEP in that academic year. A student will continue to be monitored by the reclassification team which includes, School Director and teachers for two years after official reclassification.

**g. Process For Monitoring Progress Of English Learners And Reclassified (RFEP) Students**

Equitas Academy 5 will use a systematic process to monitor ELs’ progress toward English proficiency. Teachers will assess student progress, both formally and informally, throughout the year. Assessment data will be used to determine individual proficiency levels and to modify instruction to meet students’ needs.

Teachers will compile student work samples and assessments and evaluate progress using ELD portfolios on a regular basis, usually trimesterally. Teachers will regularly examine student progress toward ELD standards in order to tailor instruction to ensure that students meet annual goals. Teachers will review ELD portfolios to determine focus ELD standards for the following trimester.

The school will also monitor the progress of students reclassified as RFEP for two years following redesignation to ensure that they maintain English proficiency, will retest any students who appear to not maintain proficiency and may reclassify these students as ELs once again if indicated by the school’s criteria.

**h. Process for monitoring progress and supports for Long Term English Learners (LTELs)**

The school will track student performance of both students currently classified as ELs, including LTELs, and those who are reclassified English Proficient. LTELs will receive dedicated ELD instruction in both intervention classes (offered twice weekly for 40 minutes each during ELA instructional block) and via online curriculum in order to develop specific academic vocabulary and language structures. Because the needs of LTELs are varied, we will work with our English Language Coordinator to identify the reasons why a student has not acquired English at an expected rate and determine the best support system for that student moving forward. Students and their parents/guardians will be made aware of their LTEL status, the characteristics of LTEL students, and the risks associated with LTEL status, as well as students’ specific barriers to reclassification and ways to address them.

**28. GIFTED AND TALENTED STUDENTS (GATE) AND STUDENTS ACHIEVING ABOVE GRADE LEVEL**
While we anticipate that most students’ needs will be met by the wide variety of school-wide supports already in place, Equitas Academy 5 is committed to working with students who are performing above grade level to help them achieve at expected levels. For students achieving above grade level or demonstrating aptitude in the arts, a meeting is used to document goals and objectives to accelerate our gifted and high achieving students. Equitas monitors the progress of students achieving above grade level through implementation of its data driven systems. Weekly, interim and yearly assessments are provided to all students and the data is further disaggregated by sub groups. Equitas examines student’s performance and supports to help advance this group. High achieving students are provided differentiated instruction or appropriate flexible ability group which accelerate the pace and amount of instruction the student receives. In addition, we customize a student’s individual work folder with assignments and materials that accelerate their learning and address the goals and objectives. During, before and after school, and on Saturdays, an individual program is assembled for high achieving students and is not mandatory to accelerate their learning, as well as customizing homework to meet student’s objectives, and communicating progress with students, teachers, and parents.

29. STUDENTS ACHIEVING BELOW GRADE LEVEL

While we anticipate that most students’ needs will be met by the wide variety of school-wide supports already in place, Equitas Academy 5 will implement numerous strategies to support low-achieving and/or at-risk students through the following:

- Implementation of the Lucy Calkins Reader and Writers Workshop Model – to support students with the rigors and expectations of the Common Core State Standards
- Co-Teaching model – where teachers are strategically placed in classrooms to work in small group or individualized instruction during literacy and math blocks
- Implementation of English Language Arts Block
- Implementation of Two Math Blocks
- Science Block
- Social Studies
- Music
- Physical Education
- Differentiation and scaffolding of instruction
- Homogenous reading groups
- Heterogeneous small group instruction
- Anchor charts

Low-achieving students are referred for an SST and defined as low-achieving, if they meet the following criteria:

- performing more than one level below his/her actual grade level
- earning below 70% in one or more core subjects and therefore in danger of failing the grade
- earning below 2 on rubrics of core content learning standards
- not on track to make at least one grade level of growth in English Language Arts,
and Mathematics Strategies

The SST meeting will identify strengths, areas of concern, goals, objectives, evaluation and timeline for addressing the needs of low-achieving students. Student progress will be monitored and documented by the SST team every three weeks. The SST meeting will be held before, during and/or after school depending on the needs and schedules of members of the SST team. Strategies include utilizing our comprehensive support services such as placing the student in differentiated instruction or appropriate flexible ability group, customizing student’s individual work folder with assignments and materials particular to the goals and objectives in the SST, providing additional tutoring during, before and after school, pulling students in for additional tutoring during enrichment periods, customizing homework to meet student SST objectives, and communicating progress with students, teachers, and parents. After implementation of an SST and follow up, if the problem continues, revisions to the plan may be discussed, or if necessary, a referral for special education or Section 504 assessment might be deemed necessary by the SST.

30. SOCIO-ECONOMICALLY DISADVANTAGED STUDENTS

The design of Equitas is geared specifically towards the needs of socioeconomically disadvantaged students. We will provide the structural, programmatic, and curricular elements that enable teachers to bridge their students’ academic gaps and demonstrate strong academic achievement at all grade levels - regardless of socio-economic status. Instructional methods and educational components at Equitas are designed to address the needs of this population.

Socio-economically disadvantaged students are identified through their participation in the Free and Reduced Lunch program. Equitas Academy 5’s School Leader will be primarily responsible for maintaining and analyzing assessments records to ensure we are meeting the needs of this targeted population. For individual students needing additional support, we will conduct an Individual Learning Plan following the procedures documented above. If we are not meeting the instructional needs of the group as a whole, as indicated by cohort analysis of assessment data, we will revise our curriculum as necessary to address our students’ needs.

In addition to ensuring socioeconomically disadvantaged students are academically prepared, we will also assist with families in need of uniforms or school supplies. We will fundraise money to provide families that need assistance with purchasing uniforms or other school supplies like paper, pencils, backpacks, etc. In addition, we will connect with local non-profit agencies for referrals for social services if needed by our families.

STUDENTS WITH DISABILITIES

Federal Law Compliance

Charter School shall adhere to all provisions of federal law related to students with disabilities including, but not limited to, section 504 of the Rehabilitation Act of 1973, Title II

**Special Education Program**
Charter School shall ensure that no student otherwise eligible to enroll in Charter School shall be denied, directly or indirectly, admission due to a disability or to Charter School’s inability to provide necessary services. Charter School acknowledges that policies and procedures are in place to ensure the recruitment, enrollment, service, and retention of students with disabilities at LAUSD-authorized charter schools, including Charter School.

By default, Charter School shall be considered a “school of the District” for purposes of Special Education purposes pursuant to Education Code Section 47641(b). However, Charter School reserves the right to make written verifiable assurances that it may become an independent local educational agency (LEA) and join a SELPA pursuant to Education Code Section 47641(a) either on its own or with a grouping of charter school LEAs as a consortium.

If Charter School intends to operate as a school of the district for Special Education, Charter School shall execute a Memorandum of Understanding (“MOU”) by and between LAUSD and Charter School regarding the provision and funding of special education services consistent with with applicable state law and the LAUSD Special Education Local Plan Area (“SELPA”) Local Plan for Special Education.

**SELPA Reorganization**
The Los Angeles Unified School District is approved to operate as a single-District SELPA under the provisions of Education Code section 56195.1(a). As a single-District SELPA, the District has created two charter school sections (District-operated Programs and Charter-operated Programs) under the administration of one single Administrative Unit pursuant to a reorganization plan approved by the Board of Education on January 4, 2011 (149/10-11). Full implementation of the reorganized LAUSD SELPA commenced in the 2013-2014 school year requiring all District-authorized charter schools to elect one of the three options available under the LAUSD SELPA. Prior to an option election, all District-authorized charter schools were required to participate as a school of the District under the District-Operated Programs Unit. Prior to the beginning of the 2013-2014 school year, all District-authorized charter schools, other than those that had previously executed an Option 3 Memorandum of Understanding (“MOU”), or joined an alternate SELPA, were required to execute a new MOU setting forth the LAUSD SELPA option election for the remainder of the charter petition term. The Charter-operated Program schools do not have LEA status for the purposes of special education but will function in a similar role in that each charter school will be responsible for all special education requirements, including but not limited to services, placement, due process, related services, special education classes, and special education supports. Charter schools that have elected to participate in a District-operated programs option may apply for membership in the Charter-operated Program section of the SELPA. Charter schools accepted for participation in the Charter-operated Programs section receive support from a Special Education Director for the Charter-operated Programs.
Modified Consent Decree Requirements

All charter schools approved by the LAUSD Board of Education are bound by and must adhere to applicable terms, conditions and requirements of the Chanda Smith Modified Consent Decree (“MCD”) and other court orders imposed upon the District pertaining to special education, to the extent applicable to the Charter School. The MCD is a consent decree entered in a federal court class action lawsuit initially brought on behalf of students with disabilities in LAUSD. It is an agreement of the parties approved by the federal court and monitored by a court-appointed independent monitor. The MCD includes nineteen statistically measurable outcomes and facilities obligations that the District has to achieve to disengage from the MCD and federal court oversight. All charter schools participating in the LAUSD SELPA are required to use the District’s Special Education Policies and Procedures Manual and Welligent, the District-wide web-based software system used for online Individualized Education Programs (“IEPs”) and tracking of related services provided to students during the course of their education.

As part of fulfilling the District’s obligations under the MCD, student level data requests from District-operated and Charter-operated charter schools are made on a regular basis. The requested data must be submitted in the Office of the Independent Monitor’s (“OIM”) required format in accordance with the OIM’s required timelines and as follows:

- **End of Year Suspension**
  
  District ID, SSIS ID, last name, first name, date of birth, gender, grade, date of suspension, number of days suspended, and reason for suspension.

- **Statewide Assessment Data**

  The standard file including District ID.

- **Norm day**

  District ID, SSIS ID, last name, first name, date of birth, gender, grade, location code, school name and local district for all students enrolled on norm day.

- **CBEDS**

- **All Students enrolled as of December 1 of each school year**

  District ID, SSIS ID, last name, first name, date of birth, gender, grade, location code, school name and local district for all students enrolled on norm day.

- **Dropout**

  District ID, SSIS ID, last name, first name, middle name, date of birth, grade, last location, school name and local district

- **Monthly SESAC and Suspension data**
Graduation roster from all charter schools with 12th grade students with disabilities

The MCD requires charter schools to implement the District’s integrated student information system, which is currently referred to as My Integrated Student Information System (MiSiS). MiSiS is a suite of applications which is designed to capture all District student data. All charter schools are required to utilize MiSiS directly or interface with MiSiS via a web based Application Programming Interface (API) in compliance with the requirements of the MCD and applicable timelines. Upon charter school full utilization of MiSiS either directly or via a web based API, the list of required data above will automatically be captured within MiSiS.

31. STUDENTS IN OTHER SUB-GROUPS

As noted throughout this petition, Equitas Academy 5 is designed to offer an engaging, welcoming and compassionate instructional environment for diverse students, including those who may be in foster care, homeless, experiencing housing instability, experiencing personal/family crisis or have other special needs. These students will be identified through teacher/family/staff referral. Equitas Academy 5 will provide extensive support for these students in the context of our entire caring, supportive school community. As detailed above, our SST process and teacher training will ensure that all students with special needs are promptly identified and provided the supports they need, including referrals for students and their families to outside support organizations such as The Salvation Army. While we do not expect that enrollment of homeless, foster care or other students will be “statistically significant” we will track these students’ progress both individually and as a group(s) within our data system and analysis process, as we do all other students.

31. A TYPICAL DAY

A school visitor to Equitas Academy would have the benefit of following a typical student. Malena is a six-year old student who walks to school with her mother, wearing her favorite navy blue jumper uniform. She arrives at the school door at 7:25am she says goodbye to her mother. She walks confidently up to the School’s Director 39, makes eye contact and firmly shakes her hand, proudly saying, “Good morning, Mrs. Din.” Mrs. Din greets Malena by firmly shaking her hand. Mrs. Din asks Malena if she is ready to learn. Malena answers by telling Mrs. Din about her math learning goals for the day. Malena turns around, enters the building and heads to her classroom as she eats breakfast in the classroom and where she greets her teacher Ms. Garcia with a handshake and is in turn welcomed with a warm, “Good morning, scholar.” As Malena walks to her desk at 7:30am which is the start of the instructional day, she begins to hum with the music playing, Here Comes the Sun, by the Beatles. She sits and gets herself situated by taking out her Bright Work folder and turns in her homework. As Ms. Garcia passes out breakfast, Malena completes her addition facts sheet because she is working toward completing a hundred math facts in one minute.

39 All 500 students shake a school leaders’ hand each morning before entering the school.
After working on math facts and eating her breakfast, Malena has time to read a few pages of her favorite book, *Where the Wild Things Are*, by Maurice Sendak. Reading this book inspires Malena to get ready for a productive day at school.

At 8am, morning meeting begins. The morning meeting is an instructional component of the day. Each day begins with an emphasis on the Equitas Academy core values. Malena’s teacher implements Morning Meetings to set the tone for a respectful learning environment. Morning Meetings motivates Malena to create an environment of trust, community, respect, and scholarship. The meeting format includes the teacher beginning with a class greeting using class chants or a group motto, group activities, and closing.\(^{40}\) In addition, morning meetings provide opportunities for developing student vocabulary, oral language, read alouds and team building skills. While a short period of the day, it sets the tone for the learning community and extends beyond the meeting. On this morning, the teacher has the students sing Malena’s favorite morning chant:

**Read, Baby, Read**

(Stomps and Claps – 4X)
You’ve got to Read, Baby, Read
(Say What?)
You've got to Read, Baby, Read.
The more I read, the more I know.
The more I know, the smarter I grow.
The smarter I grow, the stronger my voice,
When making my mind or making my choice.
Because knowledge is POWER and POWER is freedom and I want it!
You've got to Read, Baby, Read (2 X)
You've got to Read!

-- Harriett J. Ball

The visitor notices the morning song really inspires Malena and she is excited and wanting to do her best. Ms. Garcia has been talking about friendship, and has been reading *Amos and Boris* by William Steig. Ms. Garcia reads to the class, dramatically and enthusiastically, emphasizing the sounds of vocabulary words like *phosphorescent, luminous*, and *abounding*. After reading, Ms. Garcia asks the students a few questions; “Amos and Boris each had a big problem. How were their problems alike? How were they different? What did each use to solve the other’s problem?” The students complete a Venn diagram to help with the discussion of the story’s problem.

After concluding their discussion of *Amos and Boris*, students line up for literacy groups. While students line up, Ms. Garcia turns on music, which gives Malena a chance to dance and move her body while she gets in line. Malena goes to her literacy group in Mr. Marcos’ classroom, where she enjoys seeing her friends from the other kindergarten classrooms that are in her reading group.

Equitas Academy 5 Charter School
New Charter Petition September 2017
For Malena’s first 40-minute literacy group, she sits in a semi-circle with six chairs in each row. The teacher, Mr. Marcos begins the instruction by teaching the Reading Mastery: Direct Instruction group. Malena is watching Mr. Marcos point to a letter and she is repeating the sound the letter makes. She then blends the sounds together to read a word. Malena takes out her clip board from under her chair and completes her workbook pages. The reading group ends with a transition chant.

**Direct Instruction Group Transition**
(To the tune of Semisonic’s “Closing Time”)
Reading Time,
Time to get knowledge,
And to be the best scholar I can.

Reading Time,
Time to get knowledge,
And make sure that I understand.

The second literacy group begins as Malena entered Ms. Alvaro room and she is teaching guided reading. Students are reading from a big book and Malena is listening for the rhyming words in the story. After the group works on rhyming, the students sequence the story. The timer goes off and music begins playing. This is the signal for students to get ready for their snack break.

After the snack break, Malena moves into her third and fourth 40-minute literacy groups. She completes her time on the computers, with literacy activities and she smiles each time she gets an answer right. She then moves into her fourth and last literacy group—writing. Malena is an accomplished writer and enjoys publishing her work. The writing block begins with Ms. Gerz modeling the writing topic for the day and Malena brainstorming what she is going to write. Malena enjoys bringing home her published writing to her family which motivates her to get started on the topic for the day, describing her best friend.

After the four literacy groups, Malena goes to Math Meeting with her regular teacher, Ms. Garcia, where she is the class leader for the day. She reports on the weather, helps count how many days she has been in school, counts by twos and fives, and writes the date on the classroom calendar. Malena helps the class solve the daily algorithm. Malena enjoys leading the math meeting block and is working hard in her math class.

Next, Malena goes with her class to lunch. She enjoys when she is able to have lunch with her teacher. She wrote out some questions for her teacher, so she can have an interesting conversation with everyone at her table. When Malena first began having lunch, she would just shout out things. She now understands how to be polite and is working toward becoming a great conversationalist.

After lunch and physical education, Malena moves on to social studies, music and more math. In social studies, the class is working on the California social studies content
standard: students recognize national and state symbols and icons such as the national and state flags, the bald eagle, and the Statue of Liberty. Malena is excited she has learned the CA state symbols and is eager to share her knowledge with her family at the end of the day. In music class, Malena is happy to see Ms. Julia, the music teacher. They are working on learning new songs using their core values. Today, they are learning the justice song. The day ends with math and Malena is focused on meeting her goal of completing 100 math addition facts in one minute.

The visitor realizes that Malena has had a productive day and followed the rules—and that she has been fully engaged and excited by a demanding day of study. Malena ends the day at choice time by choosing the poetry center. She really enjoys the Mother Goose rhymes and wants to learn a new rhyme to teach her parents.

The end of the day comes and school is dismissed. Before students leave choice time, the class comes together to share compliments. Malena compliments her classmate Arturo for helping her with her math facts. The class joins in to give Arturo a Hip, Hip, Hooray cheer, where they put their hands on each hip and shout “Hip, Hip, Hooray.” Malena once again shakes Mrs. Din and Ms. Garcia’s hand and says good bye.
Element 2 – Measurable Pupil Outcomes and
Element 3 – Method by which Pupil Progress Toward Outcomes will be Measured

“The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of Section 47607. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school.” (Ed. Code § 47605(b)(5)(B).)

“The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.” (Ed. Code § 47605(b)(5)(C).)

MEASURABLE GOALS OF THE EDUCATIONAL PROGRAM

Charter School shall meet all statewide content and performance standards and targets. (Ed. Code §§ 47605(c)(1), 60605.)

Charter School shall comply with all applicable laws and regulations related to AB 97 (2013) (Local Control Funding Formula) and AB 484 (2013), as they may be amended from time to time, including all requirements pertaining to pupil outcomes.

Standardized Testing

Charter School agrees to comply with state requirements for participation and administration of all state-mandated tests, including computer-based assessments. Charter School shall submit and maintain complete, accurate, and up-to-date California Longitudinal Pupil Achievement Data System (CALPADS) data in accordance with the requirements of California Code of Regulations, title 5, section 861. Charter School hereby grants authority to the State of California to provide a copy of all test results directly to the District as well as Charter School. Upon request, Charter School shall submit, in the requested format (e.g., CD), a copy of the results of all state-mandated tests to the District.

1. MEASURABLE GOALS OF THE EDUCATIONAL PROGRAM

Please see Element 1, Section D.10, The Requirements Of California Education Code §47605(B)(5)(A)(ii).
2. MEASURING PUPIL OUTCOMES: SUMMATIVE ASSESSMENT PERFORMANCE TARGETS

Please see Element 1, Section D.10, The Requirements Of California Education Code §47605(B)(5)(A)(ii).

3. MEASURING PUPIL PROGRESS TOWARDS OUTCOMES: FORMATIVE ASSESSMENT

At all times, our goal is to ensure that every student meets or exceeds grade level standards in all subjects, as further detailed in the LCFF Table in Element 1. Equitas has developed and implemented a data-driven culture that includes administering, collecting, disaggregating and analyzing school wide assessments on an ongoing basis and discussing results during weekly professional development. Student achievement data is used to assess student progress; address whether a student requires additional academic intervention, small group instruction, or additional scaffolding and/or academic tutoring. Assessment data is also used to assess student mastery, adjustments to the master schedule, the efficacy of the delivery of instruction, whether to re-teach content or concepts, or whether the purchase of additional supplemental materials is necessary. With the current implementation of the Common Core State Standards, Equitas has shifted from using standards-based benchmark assessments to Common Core aligned benchmark assessments. Measures of Academic Progress (MAP) are administered three times per year and serve as a nationally normed assessment. The following are the various types of formative and summative assessments Equitas Academy 5 will implement to assess student learning.

- Daily Formative Assessments: Exit slips, writing prompts, quizzes
- MAP diagnostic assessments at the beginning of the year in ELA & Math, and again mid-year and end-of-year.
- Diagnostic Fountas & Pinnell reading assessments – used to determine whether a scholar is ready to advance to the next level. This information is shared with students and their families.
- Teacher created common core aligned benchmark assessments in ELA, math, science and history (social studies)
- Curriculum embedded assessments
- CAASPP (Smarter Balanced Assessments)
- CELDT/ELPAC – for EL’s

4. DATA ANALYSIS AND REPORTING

Equitas understands the importance of data collection and analysis in measuring and improving student learning. We will use both external and internal standards-based assessments to measure student performance, analyze data closely, and convert results into specific measurable action plans that support strong academic achievement for every student. All core components, language arts, mathematics, science, and social science
along with English language development are assessed in a comprehensive and dynamic system.

This comprehensive approach to data analysis allows: teachers to know which standards need to be effectively re-taught or reinforced; school leaders to know the most appropriate professional development supports needed for teachers as a whole and teachers as individuals; and most importantly, the entire staff to develop and execute a data-driven action plan to ensure that every child learns. These action plans identify:

- Skills/concepts to be retaught to the entire class
- Skills/concepts to be retaught to small groups during class
- Skills/concepts to be retaught to individual students with one-on-one teacher instruction or with the assistance of a peer or volunteer tutor Students in need of intense remediation and/or tutoring
- Adjustments to existing small groups
- Weaknesses in the curriculum to be revised for subsequent years
- Support and professional development for the teacher to strengthen areas of instructional weakness

Action plans are revisited frequently in weekly professional development meetings, grade-level and content-area team meetings to ensure that students are making adequate progress toward mastery.

Equitas uses data analysis to inform and improve teaching and student learning. In order to ensure students meet statewide performance standards, the School Director oversees the collection and analysis of state data using Kickboard. Students are assessed at the beginning of the school year in ELA and math. Teacher analysis of Interim Assessments consist of three parts:

1. Teacher reflection on student performance expectations, teaching priorities, student strengths and weaknesses;

2. Detailed analysis of standards mastery through analysis of whole class mastery, small group, and individual mastery and analysis of errors and with instructional plan to address areas of concern; and

3. Details for six week instructional plan for re-teaching.

The following chart illustrates the types of assessments administered by subject, grade level, and frequency.

**Communication with Students and Families**

Equitas Academy 5 will involve students and their parents in the analysis of student work, student progress, areas of strength, and plans to address areas that need growth. After each round of interim assessments, teachers will share results with students and parents in progress reports and conference meetings. Teachers will work with each student to set goals for the upcoming assessment.

Teachers also will use interim assessment results to create and maintain records on each student that demonstrates progress toward mastery for each content standard. The standards-based assessments will be shared with students and families after each trimester and reviewed with parents at each report card conference. All assessment works, Interim assessment results, weekly chapter and unit tests, and trimester exams will be sent home for parents to review and sign.

State testing results will also be sent to families and Equitas Academy 5 will host an annual parent meeting each summer to share the school's progress toward school-wide goals and also explain individual score reports to students and their families. In addition, Equitas Academy 5 annually will prepare the School Accountability Report Card (SARC) to provide the public with important information about our school's progress toward achieving its goals.

**5. GRADING, PROGRESS MONITORING AND PROMOTION/RETENTION**

Grading Policy is based on demonstration of mastery of the California Common Core Standards. Grades will include student performance on in-class work, homework, assessments, and other components as applicable to each content area.

The table below indicates the letter grade, percentage, and rubric score that will be used to define a student’s level of mastery of the State Content Standards. Students will be assessed using a rubric and/or will receive a letter grade.

There will be school-wide standards for grading. Teachers will be trained on the school’s policy and will work with the School Director to ensure that grades are calibrated and assigned in a fair and consistent manner that corresponds with student mastery of CCSS. Despite various interventions and extra supports, if students are still far below grade level, another possible intervention will be retention.

Parents will be informed through SST meetings and in written reports of student progress and the possibility of retention by the end of the second trimester (March). Although parents will be informed throughout the process, the final decision for retention rests with the Equitas administration.
Element 4 – Governance

“The governance structure of the charter school, including, but not limited to, the process to be followed by the charter school to ensure parental involvement.” (Ed. Code § 47605(b)(5)(D).)

**4. LOTTERY PROCEDURES**

The open enrollment timeline period commences October 1st of the preceding school year, with interested families notified to submit a Lottery Application form by March 1st. The lottery application form will be available hard-copy and on the website, and will only include requests for the following information:

- Student Name, Requested Grade and Date of Birth
- Parent Name, Phone Number, Email and Home Address
- Name of any siblings who currently attend

Following the open enrollment period, applications will be counted to determine if any grade level has received a number of applications that exceed available seats. If the number of students who have applied for any grade exceed capacity as of the date of the application deadline, the school holds a single public random lottery to determine enrollment for the impacted grade level. The lottery occurs the first week of March. Lottery rules and deadlines will be communicated via the Lottery Application Form, flyers/posters, and the school website. Public notice will be posted at the school site and on the website regarding the date and time of the public drawing once the deadline date has passed. Notice will include an explanation that parents/guardians do not need to be present at the lottery, but may attend if they choose to do so.

The lottery is conducted by a non-interested volunteer that draws the pupil names and verifies lottery procedures are fairly executed. The lottery will be held at the location of the school (and in the first year, before the school opens, at another Equitas facility located near the anticipated school site) and is held in the evening to ensure parent and interested parties are able to attend. The lottery is open to the public. Application Forms, the manual record of all lottery participants and their assigned lottery numbers, and other lottery-related documents will be physically filed on campus, and lottery results and waiting lists will be readily available in the school’s main office for inspection upon request. Each applicant’s admissions application will be kept on file for the academic year with his or her assigned lottery number in the school database and on his or her enrollment application. Within two weeks following the lottery, students who are offered spots will be asked to complete an Enrollment Packet within two weeks to secure their spot. School staff will be available to assist families in completing this paperwork if needed. Students who are on the wait list will be notified of their status in writing.
Those who apply after the lottery deadline are added to the end of the lottery waitlist in the order they are received. Vacancies that occur during the school year will be filled according to the wait list order determined during the lottery drawing. When an offer occurs during the school year, families will be contacted in the order of the wait list and will be given 48 hours to decide whether or not to accept a space at the school. In the event that no such wait list exists where the space is available, the space will be made available on a first come, first served basis to the next interested family at the appropriate grade level.

The waitlist for the current school year remains active until the end of the school year and does not “roll over”; applicants must reapply for the lottery annually if the school is unable to offer them admission for the current year.

**GENERAL PROVISIONS**

Charter School shall provide due process for all students, including adequate and timely notice to parents/guardians and students of the grounds for all suspension and expulsion recommendations and decisions and their due process rights regarding suspension and expulsion, including rights of appeal.

Charter School shall ensure that its policies and procedures regarding suspension and expulsion will be periodically reviewed, and modified as necessary, in order to conform to changes in state law.

Charter School shall ensure that its staff is knowledgeable about and complies with the Charter School’s student discipline policies

Charter School shall be responsible for the appropriate interim placement of students during and pending the completion of Charter School’s student expulsion.

Charter School shall document and implement any alternatives to suspension and expulsion that Charter School may utilize in response to attendance-related concerns, e.g. truancy or excessive tardiness.

**Students with Disabilities**

Charter School shall establish and implement policies and procedures to ensure full compliance with federal and state laws and regulations regarding the discipline of students with disabilities. If a student is recommended for expulsion and the student receives or is eligible for special education, pending the completion of the expulsion process, Charter School shall identify and provide special education programs and services at an appropriate interim educational placement determined in coordination with the LAUSD Division of Special Education.

In the case of a student who has an Individualized Education Program (“IEP”), or a student who has a Section 504 Plan, Charter School shall ensure that it follows correct disciplinary procedures to comply with the mandates of state and federal laws, including IDEA and section 504 of the Rehabilitation Plan of 1973. As applicable, an IEP team will meet to conduct a manifestation determination and to discuss alternative placement utilizing the District’s Special Education Policies and Procedures Manual. Prior to recommending expulsion for a student with a Section 504 Plan, Charter School’s administrator will convene a Link Determination meeting to ask the following two questions:

A. Was the misconduct caused by, or directly and substantially related to the student’s disability?
B. Was the misconduct a direct result of the Charter School’s failure to implement Section 504?

Notification of the District

Upon expelling any LAUSD-resident student, Charter School shall notify the Charter Schools Division by submitting an expulsion packet to the CSD as soon as practicable, which shall contain:

- Completed “Notification of Charter School Expulsion” [form available from the CSD website or office], including attachments as required on the form
- Documentation of the expulsion proceeding, including statement of specific facts supporting the expulsion and documentation that Charter School’s policies and procedures were followed
- Copy of parental notice of expulsion hearing
- Copy of expulsion notice provided to parent stating reason for expulsion, term of expulsion, and if applicable, rehabilitation plan, reinstatement notice with eligibility date and instructions for providing proof of student’s compliance for reinstatement, appeal process, and options for enrollment
- If the student is eligible for Special Education, documentation related to expulsion in compliance with IDEA and the MCD, including the Expulsion Analysis page of the pre-expulsion IEP
- If the student is eligible for Section 504 accommodations, documentation that Charter School conducted a Link Determination meeting to address two questions:
  A. Was the misconduct caused by, or directly and substantially related to the student’s disability?
  B. Was the misconduct a direct result of Charter School’s failure to implement Section 504 Plan?

Notwithstanding and apart from the documentation sent to the Charter Schools Division as indicated above, if the student is a resident of a school district other than LAUSD, Charter School must notify the superintendent of the student’s district of residence within 30 days of the expulsion. Additionally, upon request of the receiving school district, Charter School shall forward student records no later than 10 school days from the date of the request as stated in Education Code section 49068 (a) and (b).

Outcome Data

Charter School shall gather and maintain all data related to placement, tracking, and monitoring of student suspensions, and expulsions, and make such outcome data readily available to the District upon request.

Rehabilitation Plans

Pupils who are expelled from Charter School may be given a rehabilitation plan upon expulsion as approved by Charter School’s governing board or administrative panel at the
time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. Terms of expulsion should be reasonable and fair with the weight of the expelling offense taken into consideration when determining the length of expulsion. Therefore, the rehabilitation plan may include a date not later than one (1) year from the date of expulsion when the pupil may apply to Charter School for readmission.

Readmission

Charter School's governing board may adopt rules establishing a procedure for the filing and processing of requests for readmission and the process for the required review of all expelled pupils for readmission.

Reinstatement

Charter School's governing board may adopt rules establishing a procedure for processing reinstatements.

Gun-Free Schools Act

Charter School shall comply with the federal Gun-Free Schools Act.

1. DISCIPLINE FOUNDATION POLICY

Equitas Academy 5 will adhere to a positive behavior philosophy consistent with the District’s discipline policy, with modeling and reinforcement of positive behavior and lifestyle choices. While based on Equitas’ successful discipline policies for students at our other schools, in order to ensure stakeholder “buy-in,” the school-wide discipline policies at Equitas Academy 5 will be developed with considerable input from parents, teachers and students regarding their opinions on how to create a safe and healthy school environment. We design the school to focus on a positive school climate consistent with the School Climate Bill of Rights resolution. We use alternatives to suspensions to support students when behavioral missteps occur, which include teacher conversation using Love and Logic and redirection. The discipline policy is not discriminatory, arbitrary or capricious, and follows the general principles of due process. The policy may be adapted as needed in regard to the discipline of a student with special needs as determined by the provisions of the IDEA.

Upon enrollment and at the beginning of each school year, Equitas Academy 5 families will each receive a copy of the Parent Handbook in their Enrollment Packets and be asked to review the Handbook and agree in writing to abide by the provisions of the Handbook, including the School’s discipline policy. The handbook will be revised and approved annually through the Governance Committee of the Board of Directors to comply with any regulatory requirements. In addition, school staff members review the discipline policy with new students and parents at the commencement of school each year.
Teachers will be trained during professional development meetings to use effective classroom management strategies to maximize instruction and minimize student misbehavior, and there will be school-wide systems for assigning both positive and negative consequences. Positive consequences include extra recess or privileges such as lunch at the park with teachers and free dress and negative consequence include completing a reflection during a time out or loss of some recess time. Students who do not adhere to stated expectations for behavior and who violate the school’s rules may expect consequences for their behavior. Consequences may include, but are not limited to:

- Warning, verbal and/or written
- Individual conference with the teacher
- Loss of privileges
- Individual behavior contract
- Referral to the School Director or other school staff member
- Notices to parents by telephone or letter
- Parent conference, at school or during a home visit
- Suspension
- Expulsion

Staff shall enforce disciplinary rules and procedures fairly and consistently among all students. Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the policy, corporal punishment does not include an employee’s use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion. Any student who engages in repeated violations of the school’s behavioral expectations, or a single severe infraction, will be requested to attend a meeting with the school’s staff and the student’s parents. The school will prepare a specific, written agreement outlining future student conduct expectations, timelines, and consequences for failure to meet the expectations which may include, but are not limited to, suspension or expulsion. Equitas Academy 5 is exempt from Education Code requirements and procedures related to student suspension and expulsion. Therefore, references in this charter to the Education Code are used as a guideline. A student may be suspended or expelled for any of the acts enumerated in Education Code § 48900, except for willful defiance, related to school activity or school attendance that occurs at any time including, but not limited to:

- While on school grounds
- While going to or leaving from school
- During lunch periods, whether on or off campus
- During, or traveling to or from, a school-sponsored activity

Equitas is a productive place of learning. The discipline system is designed to create a culture of learning and the Code of Conduct is created to be preventative. Teachers will use a range of lower-level consequences (non-verbal cues, conferencing with student, loss of
privileges, etc.) before resorting to more serious consequences. However, we will have clear policies governing suspension and expulsion. Certain offenses will result in in-school suspension while other more serious violations will result in out-of-school suspensions. Only the most egregious violations – those that put students and/or the school in grave physical danger – will be considered grounds for expulsion. Suspended students will also be responsible for making up all missed work within specified timetable.

In case of severe or repeated violations, the School Director may recommend that a student be expelled. The School Director has the right to recommend expulsion of any student whom the School Director has cause to believe has engaged in conduct on school grounds or at a school-sponsored activity which endangers persons or property, or violates California Education Code § 48915.

2. IN SCHOOL SUSPENSION

In-school suspensions are given as an alternative to out of school suspensions and are held in the School Director’s office. During in-school suspensions, teachers provide the students with assignments to complete by the end of the school day. If the student has questions about the assignments, the teacher provides support. During the day of the suspension, the students’ teachers address behaviors that may have contributed to the students’ in-school suspension. In addition to completing assigned work, the student is required to complete a reflection addressing why the behavior occurred and what can be done in the future to ensure that the offense is not repeated. The grounds for in-school suspension will not exceed the grounds for out-of-school suspension.

3. SCOPE OF JURISDICTION

This scope of jurisdiction will include, but is not limited to the students’ rights and responsibilities while on school grounds as well as other activities as outlined in the Parent and Family Handbook.

4. GROUNDS FOR SUSPENSION AND EXPULSION

Equitas Academy 5’s School Director will bear primary responsibility for overseeing all student discipline. The School Director has the authority to suspend students.

Mandatory Expulsion: It is a federal mandate that a school expel, for a period of not less than one year (except on a case-by-case basis), any student who is determined to have brought a firearm to school.

In accordance with California Education Code § 48915, the following reasons shall constitute mandatory grounds for immediate suspension and recommended expulsion:

- possession of a firearm
- brandishing of a knife
- possession of a controlled substance
- sexual assault or battery, and possession of an explosive
• Sexual Assault/Sexual Battery

Any student who commits or attempts to commit a sexual assault or who commits a sexual battery must be recommended for expulsion, regardless of grade level. In some instances, sexual harassment, sexual battery or sexual assault may also constitute child abuse. Child abuse reporting procedures, sexual harassment policies and procedures, and disciplinary policies and procedures must be effected in a coordinated manner. If child abuse is suspected or alleged, a suspected child abuse must be reported immediately by first calling the local law enforcement agency that has the jurisdiction.

Discretionary Expulsion/Suspension: In addition to the foregoing mandatory suspension/expulsion infractions, students may be immediately suspended and recommended for expulsion upon a determination that the student has committed one of the acts listed below:
• Causing, attempting to cause or threatening to cause serious physical injury to another person, except in self-defense
• Hate violence (defined by Section 48900.3)
• Unlawfully possessed, used, or was under the influence of any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind.
• Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5.
• Using tobacco or any products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, et al.
• Harassed, threatened or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.
• Caused or attempted to cause damage to school property or private property.
• Stole or attempted to steal school property or private property.
• Committed an obscene act or engaged in habitual profanity or vulgarity.
• Knowingly received stolen school property or private property.
• Engaged in, or attempted to engage in, hazing as defined in Education Code Section 32050.
• Aided or abetted the infliction or attempted infliction of physical injury to another person.
• Engaged in sexual harassment as defined in Education Code Section 48900.2.
• Engaged in harassment, threats, or intimidation directed against school district personnel or pupils as defined in Education Code Section 48900.4.
• Made terrorist threats against school officials, school property or both as defined in Section 48900.7.
• Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act, as defined in subdivisions (f) and (g) of Section 32261, directed specifically toward a pupil or school personnel.
6. PROCESS FOR SUSPENSION OR EXPULSION

To protect student rights, we have established fair and thorough procedures to ensure a comprehensive and consistent process for suspension and expulsion including clear guidelines for due process. As noted above, the School Director is authorized to suspend students.

Family Conference

Suspension shall be preceded by a conference conducted by the School Director with the student and his/her parent within two days. The purpose of the conference will be to inform the student and his/her parent/guardian of the reason for disciplinary action and any supporting evidence for that action. The student will have an opportunity to present evidence in his/her defense, and may waive the conference if they cannot or do not want to participate. There will be no penalties imposed if the student's parents are unable to attend.

The conference may be omitted if the School Director determines that an emergency situation exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or school personnel. If the student is suspended without conference, the parent/guardian shall be notified of the suspension and a conference will be requested by Equitas as soon as possible.

Notice to Parents/Guardians

At the time of suspension, the School Director shall make a reasonable effort to contact the parent/guardian by telephone or in person to be followed up with a written notification. This notice will state the specific offense committed by the student. In addition, the notice will contain the date and time the student may return to school. If the School Director wishes to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice shall note that the parents are required to respond to this request without delay.

7. LENGTH OF SUSPENSION

The length of the out of school and in school suspensions will be determined by the School Director based on the severity of the offense(s), as evidenced by witness statements, physical evidence, and other relevant factors. The length of suspension for students may not exceed a period of 5 consecutive days unless a recommendation has been made by the School Director and agreed to by the student's parent/guardian. The total number of days for which a pupil may be suspended from Charter School shall not exceed 20 school days in any school year, unless a pupil enrolls in or is transferred to another regular school, an opportunity school or class, or a continuation education school or class, in which case the total number of schooldays for which the pupil may be suspended shall not exceed 30 days in any school year.
8. MEANINGFUL ACCESS TO EDUCATION DURING SUSPENSION

The Advisor of the suspended student will collect and provide the student with classroom material and current assignments to be completed at home during the length of the suspension. Written notification listing all required assignments will be sent to the student’s parents and all needed materials will be left in the front office. Students will take all tests missed upon their return to school.

9. SUSPENSION PENDING OUTCOME OF EXPULSION PROCESS

Students will be recommended for expulsion if the School Director finds that one of the reasons for expulsion has occurred and at least one of the following findings is substantiated:

- Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
- Due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Students recommended for expulsion will be entitled to a hearing, to determine whether or not the student should be expelled. The hearing will be held within 30 days from the date of the recommended expulsion, during which time the student is to remain suspended.

10. EXPULSION PROCEDURES

The expulsion hearing will be presided over by an Administrative Panel appointed by the CEO, presided over by an administrator from another charter school appointed by the CEO.

The Administrative Panel will consist of at least three members who are certificated and neither a teacher of the pupil or a Board member of the Charter School’s governing board in order to ensure impartiality. A Facts and Findings document that includes dates, times, incidences, people present, and an objective anecdotal record of the events will be prepared by the School Director to summarize the evidence adduced at the hearing by the Administrative Panel to substantiate the expulsion decision. The School Director will prepare a written notice of the hearing, which will be emailed and mailed, within 48 hours of the request for the hearing, and it will be forwarded to the student and the student’s parents at least 10 calendar days before the date of the hearing. The hearing will be held in closed session unless a member of the public makes a written request for a public hearing three days prior to the hearing. This notice will include:

- The date and place of the hearing
- A statement of the specific facts, charges and offense upon which the proposed expulsion is based
- A copy of the disciplinary rules that relate to the alleged violation
- The opportunity for the student or the student’s parents to appear in person at the hearing
- The opportunity for the student to be represented by counsel or other advocate.
- Right of postponement
- Notification of obligation to provide information about the student’s status at the Charter School to any other school district or school to which the student seeks enrollment
- The right to inspect and obtain copies of all documents to be used at the hearing
- Presentation and cross examination of witnessed and other evidence
- Information regarding reasonable accommodations and language support

A written record of the hearing will be taken by a member of the Administrative Panel. The decision of the Administrative Panel shall be in the form of written findings of fact within ten days and a determination regarding the expulsion. If the Administrative Panel decides not to expel, the pupil shall immediately be returned to his/her educational program. Following a decision of the Administrative Panel to expel, the School Director shall send written notice of the decision to expel, including the adopted findings of fact, to the student or parent/guardian. A recommendation to expel must be supported by substantial evidence. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from a protected witness.

The decision shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten school days following the conclusion of the hearing. The Decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational program.

The final notice shall also include the following:
- Notice of the specific offense committed by the student
- Notice of the student’s or parent/guardian’s obligation to inform any new district in which the student seeks to enroll of the student’s status with the School
- Terms of expulsion
- Rehabilitation Plan
- Criteria for Rehabilitation plan
- Eligibility date for reinstatement.

The governing board will review the decision of the administrative panel and evaluate due process, evidence and new additional evidence the family brings and decide to issue an expulsion order. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying. The School must also provide the victim a room separate from the hearing room for the complaining witness’ use prior to and during breaks in testimony. At the discretion of
the person or panel conducting the hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room. The person conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness. The person conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The person conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand. If one or both of the support persons is also a witness, the School must present evidence that the witness’ presence is both desired by the witness and will be helpful to the School. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

**Appeal of Suspension or Expulsion**

Parents will be notified by the School Director through a telephone call and in writing in advance to enactment of the suspension or expulsion and can appeal a student’s suspension or expulsion.

The suspension of a student will be at the discretion of the School Director. A suspension appeal may be made to the CEO within ten days of the suspension. Following due consideration of the facts and safety of students, a decision by the CEO regarding student suspension will be considered final.

An expulsion may be appealed within ten working days and must be submitted in writing to the School Director. The student will be considered suspended until a meeting is convened to consider the appeal (within 30 working days). The appeal will be considered by the Equitas Academy Governing Board and the family will have a meaningful opportunity to he
heard in the appeal process. For a student who is not reinstated upon appeal, the family will be sent written notification by the School Director, within 24 hours of such decision, including specific reasons why reinstatement was denied, and will be given a new eligibility review date.

The decision of the Equitas, Inc. Board of Directors will be impartial and final. Equitas Academy5 will maintain school create and maintain records of the expulsion proceedings and make audio records and written findings available to students/parents and provide post expulsion support to expelled students and their families to facilitate continued access to education.

11. REHABILITATION PLANS

The rehabilitation plan includes improved behavior, attendance and academic performance and shall include a date not later than one (1) year from the date of expulsion when the pupil may reapply to Equitas Academy for readmission.

The readmission process will include a meeting with the School Director, to determine whether the pupil has met the conditions of the rehabilitation plan and/or whether the pupil continues to pose a danger to campus safety. The School Director shall make a recommendation the Governing Board for readmission unless there is a finding that the pupil has not met the conditions of the rehabilitation plan and/or continues to pose a danger to campus safety. The Governing Board will make the final determination. These procedures shall be made available to the pupil and the pupil’s parent or guardian at the time the expulsion order is issued. Equitas Academy is responsible for reinstating the student upon the conclusion of the expulsion period.

Employees of the District who choose to leave the employment of the District to work at Charter School shall have no automatic rights of return to the District after employment at Charter School unless specifically granted by the District through a leave of absence or other agreement or policy of the District as aligned with the collective bargaining agreements of the District. Charter School shall ensure completion of an independent final audit within six months after the closure of Charter School that includes:

1. An accounting of all financial assets. These may include cash and accounts receivable and an inventory of property, equipment, and other items of material value.
2. An accounting of all liabilities. These may include accounts payable or reduction in apportionments due to loans, unpaid staff compensation, audit findings, or other investigations.

This audit may serve as Charter School’s annual audit if it meets all of the requirements of the annual audit.

Any liability or debt incurred by Charter School will be the responsibility of Charter School and not LAUSD. Charter School understands and acknowledges that Charter School will cover the outstanding debts or liabilities of Charter School. Any unused monies at the time of the audit will be returned to the appropriate funding source. Charter School understands and acknowledges that only unrestricted funds will be used to pay creditors. Any unused AB 602 funds will be returned to the District SELPA or the SELPA in which Charter School participates, and other categorical funds will be returned to the source of funds.

For apportionment of categorical programs, the CDE will count the prior year average daily attendance (ADA) or enrollment data of the closed Charter School with the data of the authorizing entity. This practice will occur in the first year after the closure and will continue until CDE data collection processes reflect ADA or enrollment adjustments for all affected LEAs due to the charter closure.

**Disposition of Liabilities and Assets**

The closeout audit must identify the disposition of all liabilities of Charter School. Charter School closure procedures must also ensure appropriate disposal, in accordance with the District Required Language provisions in Element 11 of this Charter, Charter School’s governing board bylaws, fiscal procedures, and any other applicable laws and regulations, of any net assets remaining after all liabilities of Charter School have been paid or otherwise addressed. Such disposal includes, but is not limited to:

1. Charter School, at its cost and expense, shall return to the District any and all property, furniture, equipment, supplies, and other assets provided to Charter School by or on behalf of the District. Charter School shall retain sufficient staff, as deemed appropriate by the Charter School governing board to complete all necessary tasks and procedures required to close the school and transfer records in accordance with these closure procedures.

Charter School’s governing board shall adopt a plan for wind-up of Charter School and, if necessary, the corporation, in accordance with the requirements of the Corporations Code.

Charter School shall provide LAUSD within fourteen (14) calendar days of the Closure Action with written notice of any outstanding payments due to staff and the time frame and method by which Charter School will make the payments.

Prior to final close-out, Charter School shall complete all actions required by applicable law, including but not limited to the following:
a. File all final federal, state, and local employer payroll tax returns and issue final W-2s and Form 1099s by the statutory deadlines.

c. Complete and submit all required federal and state filings and notices to the State of California, the Internal Revenue Service, and the Department of the Treasury, including but not limited to final tax returns and forms (e.g., Form 990 and related Schedules).

This Element 15 shall survive the revocation, expiration, termination, cancellation of this Charter, or any other act or event that would end Charter School’s authorization to operate as a charter school or cause Charter School to cease operation. Charter School agrees that, due to the nature of the property and activities that are the subject of this Charter, the District and public shall suffer irreparable harm should Charter School breach any obligation under this Element 15. The District therefore reserves the right to seek equitable relief to enforce any right arising under this Element 15 or any provision of this Element 15 or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court.

The use agreements provided by the District for District facilities shall contain terms and conditions addressing issues such as, but not limited to, the following:

- **Use:** Charter School will be restricted to using the District facilities for the operation of a public school providing educational instruction to public school students consistent with the terms of the Charter and incidental related uses. the right to inspect the District facilities, and the costs incurred in such inspection shall be paid by Charter School.

(i) Co-Location: If Charter School is co-locating or sharing the District facilities with another user, the District shall provide the operations and maintenance services for the District facilities and Charter School shall pay the Pro Rata Share. The parties may agree to an alternative arrangement regarding performance of the operations and maintenance services and payment for such in the use agreement.

(ii) Sole Occupant: If Charter School is a sole occupant of District facilities, the District shall allow Charter School, at its sole cost and expense, to provide some operations and maintenance services for the District facilities in accordance with applicable laws and LAUSD's policies on operations and maintenance services for facilities and F&E. Charter School may not open or operate without providing a copy of an appropriate Certificate of Occupancy to the CSD. If Charter School intends to move or expand to another facility during the term of this Charter, Charter School shall adhere to any and all applicable legal requirements regarding charter material revision and non-material amendment. Prior to occupancy or use of any such additional or changed school site, Charter School shall provide an appropriate Certificate of Occupancy to the CSD for such facility. Notwithstanding any language to the contrary in this Charter, the interpretation, application, and enforcement of this provision are not subject to the Dispute Resolution Process outlined in Element 14.
**Facility Compliance**: Prior to occupancy or use of any non-District-owned school site and/or facility, Charter School shall ensure that the site and/or facility complies with all applicable building codes, standards and regulations adopted by the city and/or county agencies responsible for building and safety standards for the city in which Charter School is to be located, federal and state accessibility requirements (including the Americans with Disabilities Act (ADA) and Section 504), and all other applicable fire, health, and structural safety and access requirements. Special Education Program
Charter School shall ensure that no student otherwise eligible to enroll in Charter School shall be denied, directly or indirectly, admission due to a disability or to Charter School’s inability to provide necessary services. Charter School acknowledges that policies and procedures are in place to ensure the recruitment, enrollment, service, and retention of students with disabilities at LAUSD-authorized charter schools, including Charter School.

By default, Charter School shall be considered a “school of the District” for purposes of Special Education purposes pursuant to Education Code Section 47641(b). However, Charter School reserves the right to make written verifiable assurances that it may become an independent local educational agency (LEA) and join a SELPA pursuant to Education Code Section 47641(a) either on its own or with a grouping of charter school LEAs as a consortium.

If Charter School intends to operate as a school of the district for Special Education, Charter School shall execute a Memorandum of Understanding (“MOU”) by and between LAUSD and Charter School regarding the provision and funding of special education services consistent with with applicable state law and the LAUSD Special Education Local Plan Area (“SELPA”) Local Plan for Special Education.

SELPA Reorganization
The Los Angeles Unified School District is approved to operate as a single-District SELPA under the provisions of Education Code section 56195.1(a). As a single-District SELPA, the District has created two charter school sections (District-operated Programs and Charter-operated Programs) under the administration of one single Administrative Unit pursuant to a reorganization plan approved by the Board of Education on January 4, 2011 (149/10-11). Full implementation of the reorganized LAUSD SELPA commenced in the 2013-2014 school year requiring all District-authorized charter schools to elect one of the three options available under the LAUSD SELPA. Prior to an option election, all District-authorized charter schools were required to participate as a school of the District under the District-Operated Programs Unit. Prior to the beginning of the 2013-2014 school year, all District-authorized charter schools, other than those that had previously executed an Option 3 Memorandum of Understanding (“MOU”), or joined an alternate SELPA, were required to execute a new MOU setting forth the LAUSD SELPA option election for the remainder of the charter petition term. The Charter-operated Program schools do not have LEA status for the purposes of special education but will function in a similar role in that each charter
school will be responsible for all special education requirements, including but not limited to services, placement, due process, related services, special education classes, and special education supports. Charter schools that have elected to participate in a District-operated programs option may apply for membership in the Charter-operated Program section of the SELPA. Charter schools accepted for participation in the Charter-operated Programs section receive support from a Special Education Director for the Charter-operated Programs.

Modified Consent Decree Requirements
All charter schools approved by the LAUSD Board of Education are bound by and must adhere to applicable terms, conditions and requirements of the Chanda Smith Modified Consent Decree (“MCD”) and other court orders imposed upon the District pertaining to special education, to the extent applicable to the Charter School. The MCD is a consent decree entered in a federal court class action lawsuit initially brought on behalf of students with disabilities in LAUSD. It is an agreement of the parties approved by the federal court and monitored by a court-appointed independent monitor. The MCD includes nineteen statistically measureable outcomes and facilities obligations that the District has to achieve to disengage from the MCD and federal court oversight. All charter schools participating in the LAUSD SELPA are required to use the District’s Special Education Policies and Procedures Manual and Welligent, the District-wide web-based software system used for online Individualized Education Programs (“IEPs”) and tracking of related services provided to students during the course of their education.

As part of fulfilling the District’s obligations under the MCD, student level data requests from District-operated and Charter-operated charter schools are made on a regular basis. The requested data must be submitted in the Office of the Independent Monitor’s (“OIM”) required format in accordance with the OIM’s required timelines and as follows:

- **End of Year Suspension**
  
  District ID, SSIS ID, last name, first name, date of birth, gender, grade, date of suspension, number of days suspended, and reason for suspension.

- **Statewide Assessment Data**
  
  The standard file including District ID.

- **Norm day**
  
  District ID, SSIS ID, last name, first name, date of birth, gender, grade, location code, school name and local district for all students enrolled on norm day.

- **CBEDS**

- **All Students enrolled as of December 1 of each school year**
District ID, SSIS ID, last name, first name, date of birth, gender, grade, location code, school name and local district for all students enrolled on norm day.

- **Dropout**
  District ID, SSIS ID, last name, first name, middle name, date of birth, grade, last location, school name and local district

- **Monthly SESAC and Suspension data**

- **Graduation roster from all charter schools with 12th grade students with disabilities**

The MCD requires charter schools to implement the District’s integrated student information system, which is currently referred to as My Integrated Student Information System (MiSiS). MiSiS is a suite of applications which is designed to capture all District student data. All charter schools are required to utilize MiSiS directly or interface with MiSiS via a web based Application Programming Interface (API) in compliance with the requirements of the MCD and applicable timelines. Upon charter school full utilization of MiSiS either directly or via a web based API, the list of required data above will automatically be captured within MiSiS.

**Element 2 – Measurable Pupil Outcomes and Measured Pupil Progress Toward Outcomes will be Measured**

“The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program. 2. An accounting of all liabilities. These may include accounts payable or reduction in apportionments due to loans, unpaid staff compensation, audit findings, or other investigations.

3. An assessment of the disposition of any restricted funds received by or due to Charter School.
This audit may serve as Charter School’s annual audit if it meets all of the requirements of the annual audit.

Charter School shall pay for the financial closeout audit of Charter School. This audit will be conducted by a neutral, independent licensed CPA who will employ generally accepted accounting principles. Any liability or debt incurred by Charter School will be the responsibility of Charter School and not LAUSD. Charter School understands and acknowledges that Charter School will cover the outstanding debts or liabilities of Charter School. Any unused monies at the time of the audit will be returned to the appropriate funding source. Charter School understands and acknowledges that only unrestricted funds will be used to pay creditors. Any unused AB 602 funds will be returned to the District SELPA or the SELPA in which Charter School participates, and other categorical funds will be returned to the source of funds.

Charter School shall ensure the completion and filing of any annual reports required. These reports include but are not necessarily limited to:

1. Preliminary budgets
2. Interim financial reports
3. Second interim financial reports
4. Final unaudited reports

These reports must be submitted to the CDE and the authorizing entity in the form required. These reports should be submitted as soon as possible after the Closure Action, but no later than the required deadline for reporting for the fiscal year.

For apportionment of categorical programs, the CDE will count the prior year average daily attendance (ADA) or enrollment data of the closed Charter School with the data of the authorizing entity. This practice will occur in the first year after the closure and will continue until CDE data collection processes reflect ADA or enrollment adjustments for all affected LEAs due to the charter closure.

Disposition of Liabilities and Assets

The closeout audit must identify the disposition of all liabilities of Charter School. Charter School closure procedures must also ensure appropriate disposal, in accordance with the District Required Language provisions in Element 11 of this Charter, Charter School’s governing board bylaws, fiscal procedures, and any other applicable laws and regulations, of any net assets remaining after all liabilities of Charter School have been paid or otherwise addressed. Such disposal includes, but is not limited to:

1. Charter School, at its cost and expense, shall return to the District any and all property, furniture, equipment, supplies, and other assets provided to Charter School by or on behalf of the District. The District discloses that the California Education Code sets forth the requirements for the disposition of the District’s personal
property and Charter School shall bear responsibility and liability for any disposition in violation of statutory requirements.

2. The return of any donated materials and property in accordance with any terms and conditions set when the donations were accepted.

3. The return of any grant and restricted categorical funds to their sources according to the terms of the grant or state and federal law.

4. The submission of final expenditure reports for any entitlement grants and the filing of Final Expenditure Reports and Final Performance Reports, as appropriate.

If Charter School is operated as or by a nonprofit corporation, and if the corporation does not have any functions other than operation of Charter School, the corporation shall be dissolved according to its bylaws.

Charter School shall retain sufficient staff, as deemed appropriate by the Charter School governing board to complete all necessary tasks and procedures required to close the school and transfer records in accordance with these closure procedures.

Charter School’s governing board shall adopt a plan for wind-up of Charter School and, if necessary, the corporation, in accordance with the requirements of the Corporations Code.

Charter School shall provide LAUSD within fourteen (14) calendar days of the Closure Action with written notice of any outstanding payments due to staff and the time frame and method by which Charter School will make the payments.

Prior to final close-out, Charter School shall complete all actions required by applicable law, including but not limited to the following:

a. File all final federal, state, and local employer payroll tax returns and issue final W-2s and Form 1099s by the statutory deadlines.

b. Make final federal tax payments (employee taxes, etc.)

c. Complete and submit all required federal and state filings and notices to the State of California, the Internal Revenue Service, and the Department of the Treasury, including but not limited to final tax returns and forms (e.g., Form 990 and related Schedules).

This Element 15 shall survive the revocation, expiration, termination, cancellation of this Charter, or any other act or event that would end Charter School’s authorization to operate as a charter school or cause Charter School to cease operation. Charter School agrees that, due to the nature of the property and activities that are the subject of this Charter, the District and public shall suffer irreparable harm should Charter School breach any obligation under this Element 15. The District therefore reserves the right to seek equitable relief to
enforce any right arising under this Element 15 or any provision of this Element 15 or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court.

Notwithstanding any language to the contrary in this Charter, the interpretation, application, and enforcement of this provision are not subject to the Dispute Resolution Process outlined in Element 14.

**Facility Compliance:** Prior to occupancy or use of any non-District-owned school site and/or facility, Charter School shall ensure that the site and/or facility complies with all applicable building codes, standards and regulations adopted by the city and/or county agencies responsible for building and safety standards for the city in which Charter School is to be located, federal and state accessibility requirements (including the Americans with Disabilities Act (ADA) and Section 504), and all other applicable fire, health, and structural safety and access requirements.
