Dear Brookwood High School Community,

Since this past November when I informed you about the new two-story addition that the district will build at Brookwood High School, we have completely vacated the building that houses A-Hall and parts of B-Hall classrooms and relocated 20 classrooms to trailers on campus. Teachers and staff have made accommodations to help students transition to classes on time, and students appear to be adjusting well to the change. The A-Hall/B-Hall building and immediate surrounding area is now fenced off to prepare for its demolition in April.

Part of the eastside parking lot is included in the construction site, and as some parents have already experienced, the reduced space has affected the drive-through lane used for student drop-off. Now that the lane is shorter, it has the potential to back up more quickly, so we ask that parents keep in mind that just like before, the earlier that students arrive in the morning, the smoother the traffic flow.

I have been working closely with the district and its construction supervisor to protect the integrity of our learning environment and to minimize distraction. I am pleased with the progress and will continue to keep you informed as we make headway on the new two-story facility.

Again, I ask for your patience and understanding as we go through the renovation process, knowing that the final product will contribute to the tradition of excellence associated with Brookwood High School.

Sincerely,

William "Bo" Ford, Jr.  
Principal
