Outstanding Olivia

By: Chloe Davis

Olivia lives a pretty plain life, although it does get pretty exciting! When Olivia gets home she watches Netflix until she falls asleep, which is a pretty ideal day. She is a really fun person because her ideal day is going to the park with her cousins and going to Starbucks after. She also loves to go to the waterpark and go into the wave pool.

Olivia Chastain was born in Huffman, Texas and is twelve years old, born on June 13th. She has two brothers, a mom, a dad, step and a step-sister. 'Ahhhhh' is Olivia's line in her next play because she loves theatre class! Theatre class is taught by her favorite nice, helpful, understanding teacher Mrs. Bardwell, according to Olivia. Her favorite subject is LOTC because she says it's 'fun and past family members have participated.' At school, you see tons of kids and she said she feels as if she is 'weird and different' because she doesn't see other kids do the same things as she and she feels if she doesn't fit in with others maybe like she is standing out from others.

Life doesn't seem great all the time, especially when you lose a good bond you loved. Imagine going from being best friends with your cousin and talking every day and spending time with each other nonstop to not at all because Olivia did. Life can take some turns especially when you get happier. When her mom and dad got divorced, although most kids wouldn't be happy, she didn't like them together.

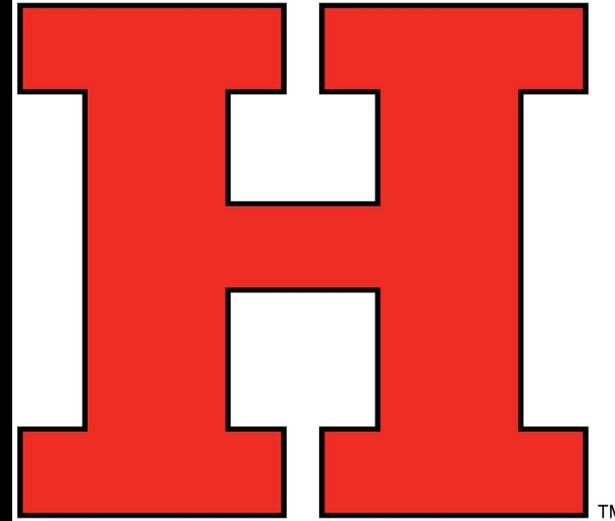

Imagine picking up a book and sitting down on your bed to start reading. You go through chapters and chapters, just like what happened when Olivia read "Divergent allegiant." Olivia is that one friend that will be there for you and will be quiet when she needs to but speak up for you if anything is wrong. Nothing could go wrong when you have her by your side.
