Proposal for Morning News Program

To: Matt Wilson LSGT Members

From: Temeka Butts

Date: August 29, 2019

Subject: A proposal to purchase an effective microphone for the morning school news program that will be suitable for podcasts.

Purpose and Problem:

This letter is written to propose a solution to a recurring problem at Matt Wilson. The problem is that the microphones purchased last year with the upgrades that were provided by the LSGT are not suitable for recorded podcasts. Students and teachers will no longer have the additional time in the mornings to view the news live because we are committed to Flex Time to provide additional instruction, remediation, and acceleration of our students. Therefore, the news will need to be able to be delivered and accessed at any time via podcast, so that students and our learning community can subscribe and watch the news throughout the day.

In order to do this, we are going to need a new microphone or microphones that will work best with recording podcasts. After researching microphones for podcast the following microphones were recommended:

- (2) Entry Level: Samson Q2U.
- High Level: Blue Ember XLR Studio Condenser Mic

510 West Seventeenth Street • Tifton, Georgia 31794
(229) 387-2440 phone • (229) 386-1043 fax
www.tiftschools.com

Jennifer Howell, Principal
Mary Nell Greer, Assistant Principal

- High Level: Blue Yeti.

Solution to the Problem

It was suggested that we use students in Brandy Hobbs gifted class to create these podcasts. Training these students and later using them as leaders to write, direct, and incorporate all of our students at Matt Wilson into the news podcasts will build up self-esteem as well as prepare our students to be 21st century learners and leaders.

Costs

The costs of the microphones vary from \$99.99 to around \$255.00.

Conclusion

In conclusion, I think purchasing these microphones and giving the students the experience of producing news programs for the current digital age will benefit everyone in our learning community.

Suggested Microphones with descriptions in order of preference:

Samson Podcast Podcasting Bundle w/(2) Mics+Stands+Headphones+Amplifier

\$254.95
