## Financial Agreement

The financial obligation of tuition is incurred at the time of enrollment. The obligation of tuition is not affected or prorated, even if a student has been granted the privilege of an alternate payment plan. The refund policy outlined below applies to the balance due on all accounts, even for families using the monthly payment plan.

- **There will be no refund of tuition or fees after July 30, 2020.**
- If your son or daughter leaves the school before the end of the school year, you are still obligated to pay the remaining balance regardless of the reason for leaving – whether the withdrawal is initiated by the family or school.
- **Accounts will be charged a \$50 late fee for each month paid late or short.**
- No student may take semester exams unless all financial responsibilities have been met. The school also reserves the right to send an incomplete grade record to any school requesting grades as of the date of leaving or withhold diplomas/transcripts while any balance due to the school remains unpaid.
- Families with uncollectable tuition account balances submitted for collection services will be responsible for the additional fees imposed by the outside service. These may include but are not limited to: finance charges, collection service fees, attorney fees and court cost.

I understand my obligation to pay tuition for the full academic year is unconditional and after July 30, 2020, no portion of the tuition paid or owed will be refunded or cancelled in the event of absence, withdrawal or dismissal from school of the aforementioned student. I understand that I am also obligated for the fundraising commitment and fees. Furthermore, I agree to the school policy that no student will be permitted to take examinations nor will grades and transcripts be released unless my account is current.
