

Biological Science Emphasis Application

Required Classes

Year Completed

- Biology, AP Biology, or Bio 1010/15
- Chemistry, AP Chemistry, or Chem 1010
- Two life science electives (animal science, environmental science, genetics, marine biology, plant/soil science, wildlife biology, or zoology)
- Either physics or a college-level math course (AP Calculus AB or BC, AP Statistics, Math 1050 or higher, or AP Physics)

*Students who complete the biotechnology program through JATC can wave the two life science electives.

Other Participation

- Participate in summer science research, a biology-related internship, Science Olympiad, Science Club, MESA, HOSA, or other biology-related extracurricular activity during sophomore, junior, and senior year.
- A research paper may replace the extracurricular activity for sophomore and junior year, but not senior year.
- See Mr. Wood (RM 2715) for details on research paper options or other questions.
