Crisis Response Plan

The Crisis Response Plan provides guidance on the following:

1. Shelter In Place
2. Lock Down
3. Evacuation
4. Active Shooter
5. Natural Disasters / Environmental Hazards

How does the administration handle a threat of harm?

1. ATC investigates threat by gathering information.
2. ATC Administration contacts and consults with SFPS Safety and Security Director.
3. A decision is collaboratively made with ATC Administration and the SFPS Safety and Security Director whether or not to contact police. If a decision is made to contact police, ATC provides information.
4. The police determine if threat is credible and action is taken accordingly.
5. If applicable, ATC follows SFPS protocols for harm to self or others. ATC counselors call Crisis Response who coordinates assessments with PMS Family Wellness Center.
6. Based on extensive information and input from all parties, the student may be given consequences and/or student may return to school.
7. Due to FERPA laws, information regarding students cannot be shared.

What can parents and students do?

1. Encourage your child to report to administration, counselors, or a teacher if they hear of a threat. Please screen shot any social media threats that apply to local schools and save them.
2. If a crisis erupts do not attempt to come on campus. More people coming on campus during a crisis will complicate and confuse the situation.
3. During a crisis, our communication is with SFPS Central Office; therefore, parents and community should contact SFPS in order to receive the most up-to-date information regarding the situation.
